Luddington Man Fatally Injured by Lightning While His House Was Untouched—Other Casualties.

Toledo, May 5.-Passenger train No. 16, on the Lake Shore, at 7:30 Saturday night, struck and instantly killed Holly Hogle, aged 18; Louis Mohr, aged 16, and Guerney Gill, aged 17, two miles and a half east of Swanton. The boys

CRUSHED TO DEATH.

Bay City, Mich., 5. — Before his mother's eyes, Merrill Revette, the 16-year-old son of Wm. Revette, a blacksmith of West Bay City, had his life crushed out at the Hart street crossing of the Michigan Central Saturday night. The boy was going down town with his mother. When they came to the Hart street crossing the boy started to run across the street. A train of flat cars being backed over the crossing struck the boy, knocked him down, one wheel passing over his head, crushing it so death was instantaneous.

Ludington, Mich., May 5. - A severe electrical storm visited this section Saturday afternoon, causing great alarm. William Latin, a well known citizen, was struck by lightning while lying on a couch in his house. The bolt came down the chimney and passed through the stovepipe to Latin's body. His back and one leg were terribly burned, but the unfortunate man was not rendered unconscious. The doctors say he cannot live. Strangely enough, Latin's house was not damaged in the least, nor were any other members of the family injured.

KILLED BY HIS HORSE. Montreal, May 5.-A farmer named Lafond lost his life at Caramel, near St. Cyrille, on Friday. He was driving, when his horse took fright at a train, and in trying to stop him Lafond fell under the wheels. He was killed almost instantly.

There's a Story in Morning Tiredn es A story of poor blood, weakened nerves, of a starved brain. Plenty of food, mind you, but perhaps poorly prepared, and too poorly digested to maintain a vigorous body. Ferrozone quickly makes blood, gives strength to the nerves, cures the fagged feeling that prevents vigorous thought and action. Use Ferrozone, it makes blood, and good blood feeds the nerves. Strong and vigorous nerves are just another name for good health. If you seek health, and a relief from the tired morning feeling, use Ferrozone. Newgate Prison, London, is to go at last. After discussing its demolition many years the authorities have finally agreed and provided the money, and a new court house and jail, will

be erected on the old site. PICKING THE NOSE is a common symptom of worms. Mothers who suspect their child is troubled with worms should administer Dr. Low's Worm Syrup. It is pleasant, safe and effectual.

tators, Dr. Chase's Syrup of Linseed and Turpentine Has More Than Three commended For Throat and Lung

Have you been imposed upon when asking for Dr. Chase's Syrup of Linseed and turpentine by being offered an imitation? Many have been, and we know of some who have changed their druggist as a result. It is not safe to deal with a druggist who offers imitations and substitutes. An honest druggist will not offend his customers The use of Dr. Chase's Syrup of Lin-

seed and Turpentine has become so universal that on all sides are springing up preparations of turpentine and put up in packages similar to Dr. Chase's, with the object of making sales on the reputation of this famous remedy. Is not this dishonest? Is it not stealing, or even worse? For besides the injury done to the proprietors of Dr. Chase's Syrup of Linseed and Turpentine, the people are being deceived. In some cases, no doubt, even life is lost as a result.

Are you being deceived? Have you asked for Dr. Chase's Syrup of Linseed and Turpentine and been given an imitation or substitute? There is no doubt about the virtue of this great throat and lung remedy. It is too well known as a thorough cure for bronchitis, croup, whooping cough, asthma, coughs and colds to need further words of commendation. What we want to do is to warn you against these imitations. To be certain that you are getting the genuine, be sure that Dr. Chase's portrait and signature are on the wrapper.

Dr. Chase's Syrup of Linseed and Turpentine has reached phenomenal sales, because it cures when other remedies fail. It is far-reaching in effect, curing the cold as well as the cough, and uprooting the most serious forms of bronchitis, asthma and similar throat and lung diseases. Twentyfive cents a bottle. What this country needs is a few good moral lessons from the heathens. A woman can pack a trunk, but it takes a man to stuff a ballot box.

The insole of the RESILIA shoe expands from the outsole each time the

foot is lifted. In doing this it draws in fresh air through a hidden valve in the heel, which locks it in.

When the foot bears down upon the insole, this air, contained in the cross channels, is then forced up into the shoe by the wearer's weight, through insole perforations under the foot.

As the air cannot go out where it came in, it is then compelled to circulate up around the stocking and out at the boot top, keeping the foot dry, clean, hardy, and healthy.

And the dry shoe in winter is the warm shoe, the safe shoe.

The damp shoe, from causes within or without, is the winter death-dealer.

Why is it that a woman's bump of locality is so much more feebly developed than man's? Put a man down on a country road and the probabilities are that he will find his way wherever he wishes to go without having to ask at nearby farm houses for directions. Instinct seems to guide him. Put a woman in the same position, and she will irretrievably lose herself in ten minutes, and have to be sought for by resolute men for hours before she is finally brought back to civilization. Perhaps it is that the weaker sex is unobservant. Even in cities many of its members do not notice buildings closely enough to permit them to find their way about, and certainly they would not notice in the country the big gum tree that they pass here nor the haw bush that marks the intersection of two roads there. With the sun low in the west there are numbers of women who can't tell the points of the compass, and if they could would

homes lay. When it comes to noting the details of a costume few feminines fail to observe even the tiniest bit of braid or the smallest bow, but trees and houses are different and less interesting things, and so in a strange town or in the woods the fair travelers lose themselves in no time, and have to be rescued and set again upon the path by someone with a better sense of location than they can boast.
