150 DUNDAS STREET AND CARLING STREET.

The policy that depopulates.

Six millions of people in Canada 1

Seventy-six millions in the United States.

Canada immigrates raw labor from Europe, and EMIGRATES Skilled Artisans to the United States!

Canada contains altogether, less than 17 times as many people as there are CANADIANS now living in the single State of Massachusetts.

Why this tremendous leak?

Because of the blind purchasing by Canadians, of anything which is made in the United States, regardless of value.

Because of 25% higher wages paid Canadian workmen, in the United States, to make goods which may be sold back to Canada, plus the 25% higher labor cost, and plus the 25% Customs duty.

Canadians who buy UNITED STATES SHOES, merely because they are "not made in Canada," foster that EMIGRATION of skilled labor which is the curse of this country and of home industries.

No United States Shoe, with a 25% higher labor cost, and a 25% Import duty, can have 60% of the solid value put into the "The Slater Shoe" for men and women.

Sold in free trade England in, open competition with the

IN NATURE'S STOREHOUSE THERE pleadeth.—Shakespeare. IN NATURE'S STOREHOUSE THERE ARE CURES.—Medical experiments have shown conclusively that there are medicinal virtues in even ordinary plants growing up around us, which give them a value that cannot be estimated. It is held by some that Nature provides a cure for every disease which neglect and ignorance have visited upon man. However this may be, it is well known that Parmelee's Vegetable Pills, distilled from roots and herbs, are a sovereign remedy in curing all disorders of the digestion.

The barley and hope used are the finest that
