ADVERTISER PATTERNS BEAUTY PATTERN COMPANY.

\$706-WAIST PROTECTOR AND APRON Cut in sizes 34, 38, 42 inches bust measure. This useful little garment will be found invaluable to stenographers, artists, bookkeepers and others engaged in work requiring protection to the waist and sleeves. It will also make an excellent kitchen apron, with the skirt attached as seen in the illustration. The sleeves are full enough to slip on easily over the dress sleeves underneath. The front is gathered to a belt, or it may be finished by tape, the ends brought around and tied in the back. Lawn, cambric, linen and denim are all serviceable and appropriate for making. The medium size will require 3½ yards of 36-inch material. A pattern of this illustration mailed to any dress on receipt of 10c in stamps

is sold only in sealed packages—in all its native purity and garden freshness. "SALADA" costs no more than common tea.

More bread and Better bread -And the Reason for it

A STRONG FLOUR can only be made from strong wheat. Manitoba hard wheat is acknowledged the strongest in the worldand that is the kind used for Purity Flour.

But that's not all. Every grain of this wheat contains both highgrade and low-grade properties. In separating the high-grade parts from the low-grade the Western Canada Flour Mills put the hard wheat through a process so exacting that not a single low-grade part has the remotest chance of getting in with the high-grade.

Of course this special process is more expensive to operate but it means a lot to Purity flour usersthat's why we use it.

It means that Purity Flour is made entirely of the highest-grade flour parts of the strongest wheat

It means a high-class, strong flour and therefore yields "more bread and better bread."

Purity may cost a little more than some flours, but results prove it the cheapest and most economical after all.

You Can Have a Model Kitchen

as cool and white as a dairy. No smell, no smoke, no heat, no dust. No old-fashioned contrivances. The

New Perfection Cook-stove

is the latest practical, scientific cook-stove. It will cook the most elaborate dinner without heating the kitchen.

Boils, bakes, or roasts better than any range. Ready in a second. Extinguished in a second. Fitted with Cabinet Top, with collapsible

rests, towel rack, and every up-to-date feature imaginable. You want it, because it will cook any dinner and not heat the room. No heat, no smell, no smoke, no coal to bring in, no ashes to carry out. It does away with the drudgery of cooking, and makes it a pleasure. Women with the light touch for pastry especially appreciate it, because they can immediately have a quick fire, simply by turning a handle. No half-hour preparation. It not only is less trouble than coal, but it costs less. Absolutely no smell, no smoke: and it doesn't heat the kitchen. The nickel finish, with the turquoise

blue of the enameled chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet. Every dealer everywhere; if not at yours, write for Descriptive Circular to the nearest
