WILL ENFORCE BILL IN BORDER CITIES

Act Affecting Chinese Restaurant Proprietors Will Be Basis For Early Action.

Special to The Advertiser.
Windsor, Dec. 21.—The act making it a criminal offence for Chinese restaurant proprietors to hire white women and girls, passed by the Ontario government at last session, is to be enforced at Windsor and other border municipalities within a few days.
Notice that a clean-up of Chinese restaurants would be made by Windsor police followed the conviction in police court of Sam Flee, owner of the Club Lunch, a restaurant at 16 Goyeau street. Flee was charged with not having paid Dorothy Bennett, a waitress, \$40 wages which she said he owed her. When notice of promulgation of the act has been received from Toronto, M. R. Winters, inspector of the Children's Aid Society, will ask police to demand the discharge of all white women in Chinese restaurants.

U. S. TO SUE FOR \$3,601,715 PAID AIRCRAFT COMPANY

Washington, D. C., Dec. 20.—The department of justice is preparing to file suit immediately for recovery of \$3,601,715 paid to the Wright-Martin Aircraft Company on war contracts, counsel for Attorney-General Daugherty declared at the impeachment hearing before the House Judiciary committee today.
Attorney Seymour, a special assistant attorney-general, made the statement in an effort to knock down the charges of Representative Woodruff, a Republican of Michigan, who appeared declaring he could submit evidence showing Attorney-General Daugherty held up suit against the corporation for more than a year after the government's case was completed.

POINTS OUT NEED OF REAL EXERCISE

Dr. George Smith of Western University Declares Physical Training Imperative.

SUPERVISION ADVISABLE

Mayor-Elect Wenige Appeals For Co-operation From City Bodies.

Charging the business and professional men of London with responsibility for the physical development of future generations, Dr. George Smith, physical director of Western University, in an address today before the chamber of commerce, stated that city fathers should awaken to the necessity of muscular activity for themselves as well as for their children.

The benefits of supervised physical training were treated in some detail. Dr. Smith claimed that millions of premature deaths among young businessmen could be attributed to over-brainwork without a corresponding amount of physical exercise. Dr. Lewis of London, England, a famous nerve specialist, states that every man should get the equivalent of 10 miles of walking in exercise every day. Persons engaged in work that taxes the mind are subject to greater physical impairment than laborers. Consequently such people should habituate themselves to the practice of acquiring muscular activity daily. Thus the normal exertions from the skin, lungs, kidneys, etc., would be well taken care of, the muscles hardened and general health immensely improved. Few men, however, appreciate this essential and pay the price in ill-health and periodical break-downs.

Experience of American army officials revealed that only 60 per cent of applicants for service were physically fit. Poor environment, lack of exercise and malnutrition were responsible for this condition. The majority of anatomical disorders could be righted through the practice of daily exercises equal to a ten-mile walk.

Would Supervise Training.
The doctor declared that of all the children in public schools in Canada but half reach high school, and only a small percentage of these reach college. Statistics indicate that big positions in the commercial world are filled by graduates of universities. But this is not entirely due to the university scholastic training. It is largely the result of intensive physical training which cultivates confidence, fellowship and initiative. It is commonly said that young men participating in strenuous sports frequently suffer from enlargement of the heart and kindred ailments as a consequence of their athletic career. Dr. Smith, however, has never come across an instance of inefficiency through indulgence in athletics when such indulgence is under expert supervision.

For young women he advocated activity of all kinds to develop the sinews. One need not fear malformation of organs if these activities are supervised by a competent instructor. Olympic games for women have been established and are creating a finer degree of physical womanhood than has been known heretofore. The girl who sits at home crocheting or playing the piano all day will forfeit the advantages of mental and physiological fitness which her more fortunate sister procures.

CITY KI-Y BOYS GET CHRISTMAS TREAT

Foster Daddies Provide Wonderful Time For Young Londoners.

Ki-Y boys of London were about the happiest lads on earth last night when they saw the Christmas treat prepared for them by their Kiwanis daddies at the Tecumseh House.

Stuffed to contentment with turkey and the "trimmings," and with one eye fixed eagerly upon a glowing Christmas tree in one corner and the other watching the arrival of Santa Claus, it was not surprising that the atmosphere was glistening with exhilaration.

Cheeks ruddy with excitement, and eyes sparkling with enjoyment, the boys presented a splendid picture and a fine tribute to the spirit of Kiwanis, which has been a safe guide for the boys during the year past, proved amply sufficient to make the Christmas treat an event of a lifetime.

It would not be safe to argue which enjoyed the affair more, the boys or the daddies, but at any rate it was one of the most delightful meetings the Kiwanis year has known, and was abundant indication of the splendid fashion in which the club has reached its objective in boys' work.

The report of the objective committee, read by the chairman, Neil Striker, was received with enthusiasm and high compliment passed on account of the numerous things done for the boys, their clothing, education, and three weeks' vacation afforded them at the Kiwanis camp during the summer.

And the Kiwanis boys expressed their appreciation in cleverly, neatly fashioned, by singing a chorus specially composed by Hugh Murray, in appreciation of their daddies in general and Neil Striker in particular.

Three presentations were made, forming an interesting feature of the occasion. Expressing the club's appreciation of his work for the boys during the year was the club bag presented to Stanley Howard by Neil Striker, and tokens of appreciation were also presented to Tom Munroe and Corker Legg, who have acted as umpires in the Kiwanis indoor baseball games.

GETS THREE-YEAR TERM ON CHARGE OF FRAUD

Marcel Robin of Montreal Sold Motor Truck to Sisters of Good Shepherd.

Montreal, Dec. 21.—Sentenced to three years in the penitentiary—the maximum sentence—Marcel Robin, who was found guilty of selling a motor truck to the Sisters of the Good Shepherd for \$1,500 when its value was placed by experts at only \$500, was dragged from the dock here today shouting imprecations and threats at Judge Monet. He charged the mother superior and the witnesses with having committed perjury, and Judge Monet in sentencing him pointed out that he had been arrested at least thirty times during his brief stay in Montreal, and added: "Your remarks about the mother superior of a religious order show your morals are about as low as they can be."

COURTRIGHT

Courtright, Dec. 21.—The Stewart Presbyterian Sunday School are holding their annual Christmas entertainment: Saturday evening in Stewart hall.

Wednesday evening in Stewart Hall. Mr. George Phemister spent Sunday in Detroit.

The community club met in the I. O. O. F. hall on Saturday evening. The meeting was in charge of Miss Sullivan, who gave a splendid address on "Why I am a Teacher." A good address was also given by Miss McRae, teacher at Willow Grove.

The St. Andrew's Presbyterian Sunday School are holding their annual Christmas entertainment in the I. O. O. F. hall. William Marshall spent the week-end at his home here.

Children Cry FOR FLETCHER'S CASTORIA.
