JOHN J. DIXON & CO.. TORONTO, RE-CEIVED the following despatch over their private wire yesterday from Henry Allen & Co., New York:-

New York, July 12.—The stock market has had a decided rally to-day. It opened weak, and seemed inclined to sag on very dull opera-tions, but matters upon which the bear con-tingent relied to help their campaign of down-ward pressure failed to materialize in their favor and these came a natural improvement ward pressure failed to materialize in their favo", and there came a natural improvement. Incidentally there came along also a suggestion from Philadelphia of a further advance in the price of coal, meaning vast additions to the net earnings of the coal companies, which, under the lead of Reading, all went up. The market generally is in a condition ready for a substan-tial rise if two or three present scarecrows can be put out of the way. One of these is the anti-option bill. Another is the free silver scheme, and the third is the threat of further extensive gold exports. As a matter of fact none of these gold exports. As a matter of fact none of these are really likely to amount to anything, but none the less they are classed among the Dossi-bilities, and are depressing factors. A big short interest is in the market. Some stocks are much ver-sold.

Chicago.

63 325% 10½ JOHN J. DIXON & CO., TORONTO, received the following despatch over their private wire yesterday from Swartz, Dupee & Mc-Stock Exchange, Montreal, July 12, closing. Asked. Offered Cormick, Chicago: -Chicago, July 12.—Wheat was dull and fea-tureless. A decrense of 3,120,000 bushels on passage was off-set by an increase of 2,060,000 bushels in the English visible supply. Reports 2218 of the yield from all sections were glowing of the yield from all sections were glowing The receipts were again ample; exports were moderate. Corn was weak, because of better grading and selling by New Yorkers, who had a small lot of corn here out of condition, and selling by bearish lotal scalpers and receivers, because of the improved grading here. Around certain limits the demand seemed inexhaustible. The market was near these prices several times to-day. Provisions developed considerable strength. There was determined raiding at the ou set, which had little influen 'e on prices. When the raiders came to even up for the day they found the same conditions prevalent as 2431 152 140 1431 $\frac{224}{208}$ they found the same conditions prevalent as for the last two or three weeks. The people 901 who owned the property were averse to selling it. The scramble of shorts to-day put prices 821/ slightly higher for ribs than yesterday's. The packer as long as he has a good demand for cast meats as at present declines to buy hors on foot at six cents and sell pork in the barrels for the same price. JOHN J. DIXON & CO. report the following fluctuations on the Chicago Board of Trade yesterday:-631

"The hop prospects have improved with fine weather. English wheat seems to have found bottom value in the county markets at 29s 2d. Millers are buving all they can at this price. Foreign wheat and flour are 6d lower. Au-tralian and the finest Indian wheat fetch 33s. To-day English wheat was firm at 32s 6d; foreign met with little sale. American flour declined: barley was steady; oats were 3d dearer. Maize was cheaper on American reports.

To Sell Eggs by Weight. The Toronto Retail Grocers' Association has expressed itself in favor of reducing the limit on garnishees from \$25 to \$5, and of selling eggs by weight instead of by the dozen. Legislation will be sought for these two purposes. In the latter case it is stated that the egg buyers buy by weight, pick out the small eggs and sell them

by the dozen to the grocers, and then export the balance, which are the finest and the largest. RAILWAY. KILLING FISH WITH DYNAMITE.
