Victoria and Burrard Will Meet For Championship Today at Hospital Grounds.

LOCALS WIN ANOTHER MATCH

Grand Smoking Concert is Arranged For This Evening at Oak Bay.

The cricket tournament still con tinues to attract attention at the Jubi witness the playing. The attention that has been drawn to the game of cricket by this tournament is considerable and will do much towards putting the grand old game on a firm footing. It is not only in this city that the interest is being displayed, but in every city which has a team in the tournament the movements of their representatives are watched with interest.

representatives are watched with interest.

The weather conditions for the big matches still remain favorable, and this, along with the quality of the cricket that is being played, attracts a good attendance every day. At the Hospital grounds Mr. Baker, the local club's "pas," had another fine wicket from which the ball came very true, while at Oak Bay Prof. Foster was not behind and had his patch in good shape. With good wlokets the batsmen are delighted, and not a word of complaint has been heard from the visiters as to the grounds.

In the matches Wednesday some very good cricket was witnessed. The match between Portland and Burrards was particularly exciting, and Portland only managed to win out by the small margin of 9 runs. Portland went first to bat and with 21 by Shipley and 24 by Rylance they managed to put together a total of 88. After the large score that was made by the Burrards against Seattle it was expected that no difficulty would be found in lowering the colors of Portland but such was not the case. To the bowling of Frenwick and Atkinson runs were slow in coming, and Rhodes with 31 and Carr Hillon with 12, were the only ones to reach double figures. Towards the close of the innings the excitement was intense and when Fenwick took three wickets in one over the Burrards could not make the required number to win. While this game was going on at Oak bay, Victoria and Nelson were competing in the semi-finals at the hospital ground. Nelson went first to bat to the bowling of Cobbatt and York and managed to make a total of 80 of which Coppin secured 20 and Rolt 19.

Victoria sent in Barnacle and W. York to start the innings and it was

State courts. Judge De Haven, in deciding against Collins, said:

"The broad contention of the petitioner is that, after allowance of the writ of error and supersedeas, and the court had made its order admitting him to ball in the sum of \$10,000 pending a hearing upon the writ of error, the superior court had no jurisdiction to vacate its order admitting him to ball.

bail.

"In making the order the superior court did not trench upon the jurisdiction of the supreme court to determine all questions arising upon the writ of error. On the contrary, in my opinion if, after making the order admitting petitioher to bail, and before accepting bail, the State court became satisfied that its order admitting the bail was imprudently made it had the authority to vacate the same."

According to an announcement made a few days ago, Collins will now appeal to the United States circuit court of appeals.

The passion for playing with fire of Mrs. E. H. Denslow, resulted in her being burned to death at South Bend, Ind., recently, and her husband, Dr. E. H. Winnipeg Tribnne.

As the Montreal Star says, "Winnipeg is the base of supplies, the construction camp, the engine-house, of the vast prairie structure." The inevitable development of the West will make a new record in the development of the world. Winnipeg will be unable to avoid the resulting advantage of that development, even if she would. Those Eastern papers that persist in referring to the "Winnipeg boom" have not studied the conditions prevailing in the West. They judge Winnipeg must be judged by a standard of ther own. The situation of this city is different from the situation of all other cities. No other city is, or has had, surrounding it a country developing at a pace set by the Canadian West. There is room in the three prairie provinces for a population of thirty or forty millions. There is room in the three prairie provinces, and will be necessity, fo a score of great cities. Of these great cities Winnipeg must be the mother, the leader, the source of inspiration. That an Eastern journal should at last recognize these facts, which we have recognized for years, is a hopeful sign of the times. The Chicago of Canada congratulates the Canadian New York on Its newly developed keen perception.

Council quoted the railway rates in other countries, and then put in evidence the White Pass tariff and other tariffs. The railway counsel made the objection that the railroad commission has no jurisdiction over the river division of the White Pass and none over twenty miles of the company's railway sion of the White Pass and none over twenty miles of the company's railway on the Alaskan side from Skagway to Summit. The rest of the hearing was taken up with putting in evidence of expense bills, proof of the cost of maintenance and like matter. The White Pass counsel declared in opening that the road earns only a fair rate of interest and cannot afford to suffer any reduction in rates without going out of business. The people's counsel said the excessive rate prohibits the working of a vast area of low grade gold gravel that is now idle.

SHAWMUT BREAKS RECORD.

Tacoma, Aug. 22.—The steamship Shawmut arrived this morning from the Orient, breaking former records by four hours. Between Moji and Keelung a fierce fire broke out in the forward store room. It was extinguished after four hours hard work and the passengers knew nothing of it until the next day. The Shawmut brought 6,000 tons of freight and 120 passengers. Among them was Carrol D. Miller, son of the American cousail general at Yokohama, and P. J. McTaigne, of the secret service who has been engaged on the Baldy Rogers' murder case in the Philippines.
