Ottawa, Ont .- Some hoary-headed philosopher once remarked that there was no such thing as luck. 'Another misguided thinker stated that money could not buy health. Both of these fallacies have been exploded here in Ottawa. Certainly, when a man loses \$175, and then finds something worth many times that amount—he is lucky. Dear Capt. Tatlow:—My last letter

larger and better exhibition of fruit
than I have yet seen in England. The society provided us with an excellent position in the hall and our fruit showed off to great advantage. We received the highest award which the received the highest award which this society gives, viz: A certificate of merit, and there was a frank recognition of its excellence on the part of those attending the exhibition.
