Red T Shoes
THE ROBERT TAYLOR CO., LIMITED, HALIFAX, N.S.

WHEN you put your foot into shoes that were never intended for you—nature rebels. It doesn't help to have shoes a size or two larger—chafing is just as bad as squeezing. The remedy is to choose from a line that considers the natural needs of the human foot—not just one perfect foot—but all kinds of feet.

Red T Shoes offer comfort, and ease, and that true style that follows when your feet are properly fitted, because in the complete line there is probably a last and a style for every pair of feet that enter a shoe store.

HE STRUCK IT RIGHT AT LAST

After Suffering Almost Two Years, "Fruit-a-tives" Brought Relief.

MR. WHITMAN

882 St. Valier St., Montreal.

"In 1912, I was taken suddenly ill with Acute Stomach Trouble and dropped in the street. I was treated by several physicians for nearly two years. I was in constant misery from my stomach and my weight dropped down from 225 pounds to 160 pounds. Several of my friends advised me to try 'Fruit-a-tives' and I did so. That was eight months ago. I began to improve almost with the first dose. No other medicine I ever used acted so pleasantly and quickly as 'Fruit-a-tives', and by using it I recovered from the distressing Stomach Trouble, and all pain and Constipation and misery were cured. I completely recovered by the use of 'Fruit-a-tives' and now I weigh 208 pounds. I cannot praise 'Fruit-a-tives' enough".

H. WHITMAN.

50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

PERCE

It is a long time since anyone sent notes from our progressive little village.

Nomination day passed off quietly. Dr. Gustave Lemieux and Mr. Roy were the candidates. Speeches were delivered in both languages and a great crowd was on duty to judge. They were from New Port to Cape Shoat.

We are pleased to see Mr. Will. Hurley, Mayor of Grand Pabos and Warden of Gaspe Co., who has just returned from the Hotel Dieu hospital, where he has been for treatment.

The weather is very cold. The farmers are busy farming and the fishermen preparing their boats, as cod has arrived earlier than usual.

NETS DAMAGED

The high easterly wind of last week did considerable damage to salmon nets which were set.

LAME BACK

Spells Kidney Trouble

There's no use putting on liniments and plasters to cure that ache in your hips or back—the trouble is inside. Your kidneys are out of order. GIN PILLS go right to the cause of the backache and heal and regulate the kidney and bladder action. Then you get relief, permanent relief!

Many a man and woman who has been doubled up with shooting pains in the back having to stop work and lie down to get a little relief, has found new health and comfort in GIN PILLS.

Two boxes completely cured Arnold McNeill, of Lower Seima, N.S. "I have never had any trouble with my back since the cure."

If you have a lame back—or any sign of Kidney trouble—get GIN PILLS to-day and start the cure working. 50c. a box, six boxes for \$2.50—and every box guaranteed to give satisfaction or your money back. Trial treatment free if you write.

THICK, GLOSSY HAIR

FREE FROM DANDRUFF

Glacial Try it! Hair gets soft, fluffy and beautiful—Get a 25 cent bottle of Danderine.

If you case for heavy hair that glazes with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately destroys every particle of dandruff. You can not have nice wavy, healthy hair if you have dandruff. This destructive scourge robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp, the hair roots become loosened and die; then the hair falls out fast. Surely get a 25-cent bottle of Danderine's Danderine from any drug store and just try it.

BEEF CATTLE AND ECONOMY

"Big Falling Off in Beef Cattle" is a significant heading on page 108 of The Agricultural War Book for 1916. On page 91 there is this paragraph of equal significance:

"It is in the interests of the Empire that everything possible should be done to Foster the Canadian Live stock industry. In Canada, the number of cattle is about 6,000,000, besides 2,000,000 sheep—a total which, having regard to the population of the Dominion, does not at present leave a very large margin for export. With the probability of preferential trade in food within the Empire there are great possibilities in the expansion of Canadian live stock production."

There was once an English Bishop who, being called upon to preach a sermon in aid of an orphan asylum for boys and girls, pointed to the children arranged in full sight of the congregation, and saying "They're there", left the pulpit. The quotation of the two foregoing paragraphs should in like manner almost be sufficient to indicate to Canadians the opportunity and duty that lie before them. There is, however, so much matter of similar import, and pointing in the same direction, in the book, that it is well worth while to look further into it. As to the falling off, the statistics show that the decrease of beef cattle during the years extending from 1910 to 1914, totalled 992,662, or 7,338 fewer than a million, or upwards of 23 per cent. Meantime the population increased and people went on eating as much beef as ever. The decline in numbers of cattle by provinces was: Nova Scotia 31,920; New Brunswick 11,133; Ontario 658,919; Manitoba 62,999; Alberta 293,905; and British Columbia 6,139. Against these decreases there has to be reckoned an increase of 25,681 in Quebec, of 43,272 in Saskatchewan and of 3,400 in Prince Edward Island. It will be noticed that the decline was in those provinces nearest to the United States and where packers are most in evidence.

Two months are to be gathered from the foregoing figures considered in conjunction with existing conditions. One is that we must produce more, and the other, that we must eat less beef, that is if we have any desire to take rank as overseas exporters of live stock or live stock products of any importance. To accomplish the one farmers will need to pay additional attention to their breeding cows and to prize them to a greater extent than official returns would imply they have been doing. In connection with the other, it will be necessary for the people to cultivate and eat more field and garden produce, as well as to be more thrifty in their treatment of scraps and seemingly waste pieces, such as bones, skin and fat. They will need, so the War Book suggests, to produce all they can to buy as little as possible; to replace meat by milk, cheese, peas, beans and lentils; to use more vegetables and to eat more fruit.
