guage. Being asked what he understood the word pathology to mean, he answered with great readiness and confidence, "Why, the art of road making, to be sure." In Canada we find men engaged in a class of work they do not understand, in fact as ignorant of details as the Ayrshire man was of Pathology. The great difficulty is that the public often suffer, owing to the work of such men. This has been clearly exemplified in the manufacture of dye stuffs for demostic dysing. Men have from time to downstic dysing. Men have from time to Moberley, who is a Nova Scotian by birth, men. This has been clearly exemplified in the manufacture of dye stuffs for domestic dyeing, Men have from time to time rushed into the business with little capital and a still smaller fund of ordinary ability and common sense; and the result naturally is failure to the investor and disgust, loss and disappointment to the users of vile imitation package dyes. The manufacturers of Diamond Dyes now do the package dye trade of the world. Their dyes are all of uniform quality and excellence and are known as the most reliable and best in the world. Ladies who do home dyeing always ask for Diamond Dyes. Some dealers often attempt to substitute the crude imitation dyes because their profits are larger. Ladies, look well to this and do not be deceived.

It is a matter of astisfaction that the

winter at Bermuda, in addition to the island being the headquarters of the Atlantic squadron, presage an unusually brilliant season.

It is a matter of satisfaction that the Royal mail line of steamships operating the route between Bermuda and New York is Canadian gwned and Canadian managed. The Quebec Steamship Company fleet of five new steamers serve the double route to Bermuda and to all the principal islands of the West Indies—Antigua, Barbados, Trinidad, etc. Canadians seeking new avenues of trade in the West Indies will have the satisfaction of having themselves and their merchandise carried under their own flag.

Rates, pamphlets and details of the routes can be obtained from the Toronto agent, Barlow Cupberland.

Trustee Baird was rather hard on Trustee Willcocks in speaking to The World yesterday. "I have been trying to recollect if I saw anything like liquor in the park that day," he said, "and must confess that I did not. I have since been told that there was a day," he said, "and must confess that I did not. I have since been told that there was a bottle there, not of beer but of rye; club, I think. Mr. Willcocks' proper course was for him to tell the trustees who had it to remove it, and not bring it up in public to disgrace the board."

Rev. J. B. Huff, Florence, writes: "I have great pleasure in testifying to the good effects which I have experienced from the use of Northrop & Lyman's Vegetable Discovery for Dyspepsia. For several years nearly all kinds of foods fermented on my stomach, so that after eating I had very distressing sensations, but from the time. I commenced the use of the Vegetable Discovery I obtained relief."

The Fire Record at Home. The Fire Record at Home.

Fire was discovered shortly after 3 o'clock gesterday morning between the joists of the first floor of the residence of R. W. Prittie. Dover court-road and Shannon-street. It had made considerable headway when discovered and the inmates had to make a hurried exit through blinding smoke. An alarm was turned in from both 167. The flames were speedity subdued, but not before between \$1500 and \$2000 damage was done. The loss is covered by insurance.

Nearly all infants are more or less subject to diarrheea and such complaints while teething, and as this period of their lives is the most critical, mothers should not be without a bottle of Dr. J. D. Kellogy's Dysentery Cordial. This medicine is a specific for such complaints and is highly spoken of by those who have used it. The proprietors claim it will cure any case of cholera or summer complaint.

Ald. Dodds presided at the meeting of the Reception Committee posterday to take steps to welcome to Toronto the members of the British Iron and Steel Institute, who are expected in to-day. There were present besides Ald. McDougall, Frankland, Peter Macdonald, George Verral, Gillespie, Score and the Mayor. The chairman stated that he had been informed that Sir Alexander Campbell proposed to give an at home at Government House in their honor and he thought that would be about enough. Ald. Score suggested that the members of the committee go down to the Gepot and welcome them right there.

The Chairman: "We have no funds and I de not intend to do less for the city."

Ald. Score: "I do not favor spending a single cent in this matter."

BEAMSVILLE, Oct. 28.—The body of an unknown man apparently about 33 years of age was found washed ashore near here this morning. The man had a sandy mustache, was 5 feet 6 inches high, had on light shoes, navy blue shirt, serge coat and vest and checked bottle green trousers. An anchor was tatooed on the left arm. The pockets contained a silver watch and chain, a bunch of keys, one of which was stamped with the name "W. H. Kent." On a plate attached to the key ring were the words "Toronto General Key Trust Company, 798." There was no hat on the corpse.

No one need fear cholera or any summer com-plaint if they have a bottle of Dr. J. D. Kellogy's Dysentery Cordial ready for use. It corrects all looseness of the bowels promptly and causes a healthy and natural action. This is a medicine adapted for the young and old, rich and poor, and is rapidly becoming the most popular medicine for cholera, dysentery, etc., in the market. Do not delay in getting relief for the little folks. Mother Graves' Worm Exterminator is a pleasant and sure cure. If you love your child why do you let it suffer when a remedy is so near athand?
