A BRAVE ACT RECOGNIZED.

Hamilton Bendelari to Get a Royal Iumane Society's Medal. One day last summer the little daughter of Bishop Sweatman was bathing in the lake opposite the family's summer cottage on the

opposite the family's summer cottage on the Island, when she got beyond her depth and was sinking for the last time when Hamflton Bendelari went to her rescue. He got her ashore, and though she was unconscious her life was saved. But in the brave deed the lad nearly lost his own life.

The Royal Humane Society has awarded him a gold medal, and it will be presented to him this afternoon at 5 o'clock in Wesley Hall, Richmond-street west. The presentation will be made by Bishop Sweatman, the father of the girl who was saved.

The brave boy is only 15 years of age, and is the son of Mrs. Bendelari of Wellesley-place.

The New Dundas-street Bridges. Editor World: It is, to say the least of it, amusing to read in the newspapers which are trying to bolster up the present civic adare trying to poister up the present civic ad-ministration that Mayor Fleming is pushing on the contractors for the Dundas-street bridges and has given orders that they shall work day and night until the structures have been completed. is the present Mayor not the very gentle-Is the present Mayor not the very gentleman who issued an injunction against the city in July or August, 1890, and stopped this work for nearly a year and a half, putting the city to the expense of hundreds, if not thousands, of dollars for legal costs and at the same time blocking this necessary work to enable the street cars from Collegentreet and Dundas dreat to take passengers. work to enable the street cars from Collegestreet and Dundas-street to take passengers into High Park at a single fare? If the Mayor is really desirous of getting a move on why does he vote in council to bar and block every movement that would give work to the unemployed? His action on the Isolation Hospital, the Ashbridge's Bay improvement and the street railway conversion proves that he is an obstructionist, pure and aimple, without the capacity to do more than stand in the way of the progressive aldermen who are trying to do their duty to their constituents.

Gossip from Chicage.

Kennett, Hopkins & Co. to R. Cochran: Most of the speculators are firm believers in reciprocity, and as it was announced in the morning papers that the Democratic cancuis had relegated Farmer Hatch's anti-option-bill to a deferred calendar traders generally undertook to buil everything on the floor with fine weather and weak cables. The prospect was certainly not encouraging, but the boys opened up the market all the same, and if there had been any outside trade they would have kept it going, but there being nothing in sight to; sustain prices market soon dropped back to dpening prices. Advices from Northwest say receipts are increasing at country points as the prespect for the next crop improves. The foreign demand is growing weak and the situation favors lower prices. Corn and oats—News received to-day that a cargo of corn shipped to Buffalo from here by water is coming back by rail to fill May constracts. This state of things ought to convince Farmer Hatch that the Chicago Board of Trade is doing its share towards sustaining the price of farm products, and short selling is not always profitable. Provisions have been strong with a broader market thap-for some time. They ought to do better, out, it is doubtful if they will. Gossip from Chicago,

on report of the shelving of the Hatch bill and lost all the advance before the close. The principal buying was by St. Louis. The cables continue weak and the weather was all that could be desired. There is prospect of increased receipts in the Northwest. The action of the market to-day is an instance of how useless it is to attempt to foretell its course. July wheat opened \$256c, sold to \$356c, down to \$256c and closed at that price. Corn was controlled by about the same sort of influences which were at work in the wheat market. The close, however, showed the early advance for July lost. It opened at 4554c, sold between 315c and 3154c and closed at 3154. The provision market opened weak, but soon become excited and active, taking its cue from corn.
