

**Always the cookbook says:  
"Sift Your Flour."**

No lumps, you see. *Aerates* the flour, making it lighter.  
Put **FIVE ROSES** in your sifter.  
Never soft and sticky—never lumpy, musty, woolly.  
Never coarse.  
Milled superfine from *Manitoba's* grandest wheat.  
Fine, granular, very dry.  
Nothing remains in the sifter—**FIVE ROSES** is free, heavy.  
And your bread is more porous, more yielding, more appetizing.  
And more *Digestible*.  
Because the particles are finer, easier to get at by the stomach juices.  
Use this very fine flour—*superfine*.  
**FIVE ROSES.**

**\$3,600**

in Cash Prizes for Farmers

## Your Photograph May Win a Prize

**A**MONG the prizes we are offering in our big Prize Contest is one of \$100.00 (Prize "C") for the farmer in each Province who furnishes us with a photograph showing the best of any particular kind of work done on his farm during 1911 with "CANADA" Cement. For this prize, work of every description is included.

Now just as soon as you finish that new silo, barn, feeding floor or dairy, that you've been thinking of building, why not photograph it and send the picture to us? The photograph doesn't necessarily have to be taken by a professional or an expert. In fact, your son's or your daughter's camera will do nicely. Or, failing this, you might use the kodak of your neighbor's son nearby. In any event, don't let the idea of having a photograph made deter you from entering the competition. Particularly as we have requested your local dealer to help in cases where it is not convenient for the farmer to procure a camera in the

neighborhood. By this means you are placed on an equal footing with every other contestant. Get the circular, which gives you full particulars of the conditions and of the other three prizes. Every dealer who sells "CANADA" Cement will have on hand a supply of these circulars—and he'll give you one if you just ask for it. Or if you prefer, you can use the attached coupon—or a postcard will do—send it to us and you'll receive the complete details of the contest by return mail.

If you haven't received your copy of "What the Farmer Can Do With Concrete," write for that, too. It's a finely illustrated book of 160 pages full of useful and practical information of the uses of concrete.

Write us to-night, and you'll receive the book and the circular promptly. Do not delay—sit right down—take your pen or pencil, and fill out the coupon NOW.

Please send Contest Circular and book.

Help your children to grow strong and robust by counteracting anything that causes ill-health. One great cause of disease in children is worms. Remove them with **Mother Graves Worm Exterminator**. It never fails.

Delaware, Sept. 27.—Mr. W. Carpenter was very badly injured at the grist mill here when as he was walking past one of the grinding machines a large cast-iron wheel revolving rapidly suddenly broke, and one of the fragments struck Mr. Carpenter in the face, tearing the skin from his cheek, and lacerating the eye so badly that it is feared the sight may be injured permanently. Mr. Carpenter was taken to his home, and will be laid up for some time.

#### Modern "Dew Ponds."

The ancient "dew ponds" of England have their modern counterparts on the rock of Gibraltar, where drinking water is obtained by the condensation of the abundant dew in especially prepared basins. The primitive process consists in making a hollow in the ground, and filling the bottom with dry straw, over which is placed a layer of clay. On a clear night the clay cools very rapidly, and the dew is condensed into water in the basin. The pond is improved by putting a layer of asphalt or Portland cement under the straw. At Gibraltar the present practice is to use wood instead of straw and sheet iron instead of clay.

#### A Storm Signal.

For the first time in his life he was braving the perils of the sea under the heavy handicap of high strung nerves and a weak stomach. The old stagers in the smoking room held him spellbound with soul-stirring stories of shipwreck and hurricane. Suddenly a sailor dropped a heavy block upon the deck. "What's that?" he cried, paling. "The barometer falling," answered a wag. "Lord help us!" he moaned as he staggered away to his cabin.

#### Following a Precedent.

Writes a friend from Cannes: "I heard a story the other night at a dinner given here which is, I believe, a true one, and as it might amuse your readers I pass it on. A little boy wished to give a Bible to his mother on her birthday, and before writing her name on the flyleaf he took down a book from her shelf to see the proper way of setting about the matter. Literally copying the first inscription that he found, he wrote, 'With the kind regards of the author.'—London Gentlewoman.

#### Albino Animals In Japan.

It is noteworthy that albino animals are regarded in the Japanese in a superstitious light. The appearance of one is considered a good omen for the reigning mikado and occasionally signifies a reign. For example, one reign is called "hakuchi nenkan," or period of the white pheasant; another the "haku hoo nenkan," or period of the "haku hoo nenkan," or period of the phoenix.—London Globe.

You cannot be happy while you have corns. Then do not delay in getting a bottle of Holloway's Corn Cure. It removes all kinds of corns without pain. Failure with it is unknown.

#### "Magic" Cloths.

Many housewives gladly pay 25 cents for so called "magic" cloths, as they are very useful for silver and other metals. Being dry, they do not soil the hands or clothing and do their work until the cloth itself wears out. To make such a cloth take one quart of gasoline, one-half pound of whiting and one-eighth ounce of oleic acid, mixing all together and shaking well. Soak pieces of woolen cloth in the mixture and hang them in the open air in a shady place to dry. When the cloths are dry the "magic" qualities have been given to them, and these they will never lose. The material must be wool.—New York Globe.

#### "Dinner of Deadly Enemies."

Lady Randolph Churchill once gave at her house in Connaught place what she called a dinner of deadly enemies. It was thought, says Mr. G. W. Small in his "Anglo-American Memories," a hazardous experiment. "It proved a complete success. They were all well bred people. They all recognised their obligations to their hostess as paramount for the time being. In some cases ancient animosities were softened. In all they were suspended."

#### The Shoplifter.

Old Jed Shucks and his wife had visited New York city, and after they got home Jed was describing to his friends the wonders of city ways. "An' we went to a big department shop," he said, "an' we got inter one of them 'ere things wot whizzes ye clear up to the top—what in tarnation is their name, ma?" "Shoplifters, Jededar," Mrs. Shucks replied.

#### Encouragement.

"I tell you," said Dottyrate, "I'm nobody's fool." "Oh, well, never mind, Dotty, dear," said Miss Cynica. "Some day some nice girl will come along and take you."—Harper's Weekly.

#### Cause For Congratulation.

The Boss—Mr. Stuppen, when you came in this morning I detected a trace of liquor about your person. The Bookkeeper—That's fine, sir! Fine! That shows how much better your gold is, sir.—Puck.

## Catarrhazone

**Cures Permanently BRONCHITIS, COUGHS, COLDS, ASTHMA, CATARRH**

Throw medicine to the dogs. At best they are unpleasant, often useless. You are suffering from some disease of the throat, nose, or lungs. Doctors call it Bronchitis, Asthma, or Catarrh, or it is a slight or severe cold. Germs cause these diseases—they have a common root. **Catarrhazone** destroys disease germs, but it does more, it heals disease tissue.

**CATARRHAZONE** is little drops of healing carried by air to the exact place where Catarrh exists. Observe, Catarrhazone not only destroys the cause, but immediately repairs the result of diseased condition. **Catarrhazone** means little drops of healing carried by air and placed over the lungs, throat, and nasal passages. **Catarrhazone** is endorsed by doctors, druggists, and by thousands of Canadian people who have used it.

## Catarrhazone

Yes, Sir, it is taken in air. "Little drops of healing" carried by air to weak places in the lungs, throat, and nasal passages. Three sizes: 25c, 50c, and \$1.00, at druggists, or by mail postpaid from The Catarrhazone Co., Buffalo, N. Y., and Kingston, Ont.
