Education.

A professor of a Western University has evolved a series of test questions for the educated which he avows are the best evidences of a real education. If you can answer "yes" to each and all the questions you are truly educated, the professor says. Here are the questions:—

1. Has education given you sympathy with all the good causes and made you espouse them?
2. Has it made you public-spirited?
3. Has it made you a brother to the weak?
4. Have you learned how to make friends and keep them?
5. Do you know what it is to be a friend yourself?
6. Can you look an honest man or a pure woman in the eye?
7. Do you see anything to love in a little child?
8. Will a lonely dog follow you in the street?
9. Can you be high-minded and happy in the meanest drudgeries of life?
10. Do you think that washing dishes or hoeing corn is just as compatible with high-thinking as playing the piano or playing golf?
11. Are you good for anything yourself?
12. Can you be happy alone?
13. Can you look out on the world and see anything but dollars and cents?
14. Can you look into a mud puddle by the wayside and see a clear sky?
15. Can you see anything in the puddle but mud?

Canada Leads.

A paragraph appearing in Repatriation, a monthly bulletin published in the interests of returned men in Australia, quotes the speech delivered in Sydney by Premier Holman, of New South Wales, in which he stated that the state had settled 1,100 men on the land. The Premier claimed that this was a much larger number than had been settled in any of the other states. New South Wales sent to the battlefields of Europe thirty-nine per cent. of the total of the Australian Expeditionary Force. If the proportion of ex-servicemen settled in the land in the other states was equal to that of New South Wales the figures would be for the whole of Australia 2,820 men benefited by the Land Settlement Act up to the date of the Premier's speech.

Up to the 17th of May, the Soldier Settlement Board of Canada had approved 7,900 applications for the benefits of the Soldier Settlement Act and a great many more applications were before the Qualification Committees in the various provinces. These figures which will be largely augmented by the returns for the last two weeks of May and for the present month show that Canada is well in advance of the sister commonwealth in providing suitable farms for her war heroes.

Two of a Trade.

"Do you think these alienists are any good at a trial?" "Some, I take it. An alienist is the only person I ever saw who could bluff a lawyer."

Sub. Talks to Plane

A radio experiment made Tuesday off New London, in Long Island Sound, by the experiment station naval section, established communication, both telephonic and telegraphic, between a hydroplane flying near 2000 ft in the air, and a submerged submarine several fathoms in the water.

This was a demonstration for the delegates to the annual convention of the Edison Society of Electrical Engineers being held at Eastern Point. This is said to be the first time that an airplane and a submerged submarine have communicated with each other directly, and is considered by naval officials here as an important factor in coast defense in naval warfare.

PAINFUL RHEUMATISM

May be Driven Out of the System by Enriching the Blood.

In the days of our fathers and grandfathers rheumatism was thought to be the unavoidable penalty of middle life and old age. Almost every elderly person had rheumatism, as well as many young people. Medical science did not understand the trouble—did not know that it was rooted in the blood. It was thought that rheumatism was the mere effect of exposure to cold and damp, and it was treated with liniments and hot applications, which sometimes gave temporary relief, but did not cure the trouble. In those days there were thousands of rheumatic cripples. Now, medical science understands that rheumatism is a disease of the blood, and that with good, rich, red blood any man or woman of any age can defy rheumatism as he cured by killing the poison in the blood which causes it. There are many elderly people who have never felt a twinge of rheumatism, and many who have conquered it by simply keeping their blood rich and pure. The blood making, blood enriching qualities of Dr. Williams' Pink Pills is becoming every year more widely known, and it is the more general use of these pills that has robbed rheumatism of its terrors. At the first sign of poor blood which is shown by loss of appetite, palpitations, dull skin and dim eyes, protect yourself against the further ravages of disease by taking Dr. Williams' Pink Pills. They have cured thousands of people—if you give them a fair trial they will not disappoint you.

You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

COMMUNICATIONS.

[We do not hold ourselves responsible for opinions expressed by correspondents.]

Editor, Guide-Advocate:

I thank you for having published my letter in your issue of September 12th respecting our schools here and respecting the proposal to have two separate Boards instead of a Board of Education to control and govern same. I do not think, however, that your comment as Editor, at the end of my letter, is sufficient. You say, "Actions speak louder than words" and, therefore, my letter needs no reply. This may be a very easy way to try and get clear of the matter, but it will not do. Actions do not always justify what is done and are not always an answer or reply to what is done. If such were the case, the declaring of the war by Germany and her allies and the going into the war by them would justify the war, which we know is not the case and this is only one illustration which represents very many more where actions do not justify the act or acts done. We have been fighting all along for democracy and the liberties of the people to be expressed through their elected representatives and we have won. Now, what is attempted to be done is the opposite of what we have achieved. You wish a School Board that is merely appointed by certain corporate bodies, and not elected by the people to govern the expenditure of about \$7000, instead of the people electing the representatives on the Board of Education to do so. The tendency of the times is for democracy, not otherwise, and the less appointed bodies we have that are not responsible directly to the people, the better for the country and for the institutions that we have. The only thing that some members of the Board of Education have done is to pass a resolution but you have made a statement that it was a mistake in the first place to create a Board of Education to take the place of the Public and High School Boards and that a single Board has been found a failure in other small towns and, with separate Boards more attention will be given by each Board to the management of the respective schools and, probably the deep interest that existed in educational matters before the change will be revived. Now, I, as I have already stated, say this is not so and that it was no mistake to have created a Board of Education here. What single Board have been found to be failures in other small towns, and why? Does this apply to Watford? Certainly not. What better results were obtained by the Public and High Schools before the Board of Education was formed than since that? What deeper interest was taken in the schools, Public and High, before our Board of Education was established than since then? These are questions that effect all the taxpayers of the town, as more money is spent in support and maintenance of the schools here than for all the other things in Watford together, and surely it is a matter not to be lightly passed over with a comment such as you have mentioned at the end of my letter in your last week's paper.

I am prepared to back up everything that is contained in my said letter and also as to a Board of Education being the proper thing to control both our schools here and as to our schools being just as efficient since then as they were before, if not more so, and I am prepared also to meet any person either on the public platform or otherwise in support of what I say and I shall be pleased to hear from any person in reply and then I may have something further to say. This is too important a matter to be passed over without going into thoroughly.

Yours etc.,

W. E. FITZGERALD.

Dated at Watford, Ont., Sept. 15, 1919.

Charles Stewart, a Huron County farmer, has a Durham steer which weighs 2970 pounds and is putting on flesh at the rate of 60 pounds a month.

GOAT SOLD AS SPRING LAMB

Detroit, Mich., Sept. 15.—That tons of goat meat have been sold by Detroit retailers as spring lamb during the past year was learned by officials of the Prosecutor's Office today, in the course of an investigation.

At Wilson & Co., packers, it was found that 101 goats had been received on September 5. This shipment contained 3,100 pounds of goat meat, and six retail dealers are known to have bought from it. The meat sold at \$11.04 for each 100 pounds, and each retailer who bought the meat bought it at goat price and sold it over the counter as spring lamb.

At the Grand Central Market Prosecutor Cox bought some goat meat as "leg of choice spring lamb."

The goat meat which was bought at spring lamb price was taken to the Prosecutor's Office as an exhibit. Later Mr. Cox went to the Detroit Refrigerating Co. and learned that one retailer put 480 goats in cold storage last October. Of this seven tons of goat, 810 have been disposed of and 170 are in storage. According to Mr. Cox, the legitimate sale of goat meat would help to lower the cost of living.

The meat is nearly as good as lamb and about half as expensive, but all the goat that has been sold has gone under the name of lamb at double goat price.

BORN

In Plympton, on Friday, Sept. 12, 1919, to Mr. and Mrs. Orville Ramsay, a daughter.

In Alvinston, on Wednesday, Sept. 10, to Mr. and Mrs. Roy Croft, a son.

DIED

In Watford, on Saturday, Sept. 13th, 1919, Eliza Dawson, relict of the late Alexander Nixon, in her 84th year.

In Brooke, on Wednesday, Sept. 10th, 1919, Edna, beloved daughter of Mr. and Mrs. Edgar Peasley, aged 17 years, 1 month, 10 days.

In Warwick, on Saturday, Sept. 13th, 1919, William James Moffatt, aged 71 years, 11 months, 7 days.

In Warwick, on Wednesday, Sept. 17th, 1919, Annie, beloved wife of William H. Lambert, aged 69 years, 6 months, 17 days.

Mrs. Charles Pole, formerly Miss Beckton of Kerwood, died in Sarnia on Tuesday of last week.

Andrew Harmer, a well-known farmer in the township of Bienheim, committed suicide on Sunday afternoon by hanging himself in his bedroom. During the week Mr. Harmer had been in his usual good health, and the deed was presumed to have been due to despondency.

Red Star Washes Quickly

This machine washes quickly, for it runs at a high speed. The gentlest push on the handle will send the fly wheel spinning, and the gentlest pressure keeps it spinning at this rapid rate until the washing is done. The clothes are whirled through the hot suds at three times the rate they can be washed by hand. In a few minutes the dirtiest garments are snowy clean. The hard work of washing the clothes is abolished. The Red Star Washer is a blessing to any house-keeper.

Call at the store to see this washer or have us send one up.
