Pandora Range

SMOOTH, HARD CASTINGS—EASILY POLISHED

Every woman who prides herself on a well-appointed kitchen wants her range to be well polished, look clean and have a new, elegant appearance. This is not possible if the castings are not right-all castings in the "Pandora" range are made from the highest grade of pig-iron (no scrap of any kind is used) the best skilled moulders in the land do the moulding, the utmost care and latest machinery is used in the cleaning, and when the intended every part has a smooth, hard, black surface which takes a beautiful, rich polish and never has that grey effect always seem in poor castings.

Special flue construction in the "Pandora" forces the heat around the oven twice and directly under every pot-hole—is a perfect baker and a perfect cooker at the same time.
