MINARD'S LINIMENT CO., Ltd.

Yarmouth, N. S. Gentlemen,-In January last, Francis Leclare, one of the men employed by me, working in the lumber woods, had a tree fall on him, crushing him fearfully. He was, when found, placed on a sled and taken home, where grave fears were entertained for his recovery, his hips being badly bruised and his body turned black from his head to his feet. We used MINARD'S LINIMENT on him freely to deaden the pain and with the use of three bottles he was completely cured and able to return to his work SAUVEUR DUVAL.

Mr. and Mrs. Archibald Longmire of St. John spent Sunday with Mr.

and Mrs. Alfred Longmire. Capt. Arthur Longmire left on Monday for St. John, where he in-

from Hillsburn to St. John. The Sch. Myrtble L., under the command of Capt. Roy Longmire, arrived here on Sunday from Yarmouth, where he has been fishing. He

How Concrete Work Was Made Easy For You

TNTIL a few years ago farmers considered concrete a rather mysterious material, that could be used successfully only by experts. They knew that upon the quality of the cement depended much of the success of concrete work. They had no means of testing cement, such as big contractors employ, and so could not be sure of its quality.

Yet the farmer needed concrete. He was kept from using this best and most economical of materials by

1. Lack of knowledge of how to mix and place concrete. 2. Lack of a brand of cement upon the quality of which he could absolutely rely.

Canada Cement

has supplied both these requirements.

We employed men to make a thorough investigation of the farmer's requirements; to find out where and how he could use concrete with profit to himself; to discover all problems he might come across and to solve them. This investigation was expensive. But when it was completed we had the material for our campaign to show the farmer how and where to use concrete, and we printed a book, "What the Farmer Can do With Concrete," for free distribution. That book makes every farmer who reads it a concrete expert, as far as his needs are concerned. He finds that there is nothing mysterious about concrete—that a few simple rules supply all the knowledge required.

At the same time we met the farmers' second objection-inability to test the quality of cement-by producing cement of a quality that does not need to be tested.

The Canada Cement that you buy by the bag is the same Canada Cement that is sold by the train-load for great elevators, buildings and There is a Canada Cement Dealer in Your Neighborhood

> If you have not already done so, write for the book "What the Farmer can do with Concrete." It is Free. Canada Cement Company Limited
