Burran.—The local demand for butter is fairly active, but receipts are ample for all present requirements, so that this market is unchanged in tone here. In Montreal the butter market is very dull and salesmen from the nere. In montreat the nutter market is very dull and easemen from the country back of that city have been offering choice now creamery at about 20½0., which is a concession from the prices which they were asking the previous week. There is not much Townships in that market just now, while for Western dairy buyers are willing to pay 100., but sellers want a material advance on that price. There is nothing fresh to report in this article in Liverpool, there being only still a few state lots of inderican and Canadian offering at 600s to 700s.

Canadian offering at 60s, to 70s, per cwt.

Cherek.—Absolutely no new features have developed in cheese in this market during the week. The demand is confined to a small jobbing trade to fill active consumptive demand. The supplies are sufficient for all requirements at the present or in the immediate future. In Untario and Quobec the choese markets continue steady, and the course of business in the country, if the first cost is to be considered at all, does not point to very much lower prices next week. In fact it does not look as though there is to be any 81c. June cheese this year, and shippers who have continued to figure around 43s. 6d. are as far out as ever, and will have to do some close figuring if they are to even up on the make of the other months. To tell the truth excessive short solling has had as much to do with the present comparatively high prices of cheese as the legitimate domand, for had the speculators left the market alone it is very likely that choose would have been much cheaper now than it is The factorymen therefore can consider these parties as their best friends. The high price is having one noticeable it fluence in inducing farmers to turn almost every drop of milk that they have into choose, so that the make this season, if the climatic conditions con tinue favorable, will be unprecedented.

Ecos.-Toere is little if any change in the tone of the egg market. Local demand is quite fairly brisk and prices rule steady at about 9c. to 11c.

per dozen.

GREEN FRUITS.—Business in green fruits generally is reported brisk.

The strawberry market has been more than fully supplied and prices have ruled quite low, in case lots being about 5c. to 6c. per "reputed" quart. Tomatoes are a shade lower, while pineapples, lemons and oranges are firmer. Bannanss are steady though supplies of excellent fruit are very large. The demand from the country is very active and absorbs all that the city has to dispose of abroad.

DRIED FRUITS.—The dried fruit market is essentially quiet and steady. Old stocks of off-stalk Valencia raisins are steadily diminishing, and it looks as though they will be well cleaned off before any new goods arrive. There are no layers here in first hands. Currents are about the same with little doing. Continued reports of damage to the growing crops in Greece are attracting some attention but have had no effect on values here.

Sugar. -- The sugar market does not show much charge, the tone on spot ruling as steady as ever. A little easier feeling was noticed in raws at one time towards the middle of last week but latterly the market has firmed up again. On spot refined is firm with the demand more active, but refiners are accepting orders only for prompt delivery and there does not appear to he any prospect of decline in the near future.

Molasses.—There is no change in the position of the molasses market, holders being very firm in their ideas. According to advices from Barbadoes exports thence show a decrease to Canada and an increase to the United

Status.

FISH.—Reports from all the fishing grounds continue to be satisfactory. While no extraordinarily large catches are being made, still the aggregate is very good—much better than for some years past, and if the promise of the present is fulfilled our fishermen and fish merchants will have a very good season. Receipts at this port and at Lunenburg, Yarmouth and other outlying ports along our shore are of very fair quality and quite liberal. As we have before remarked, nearly all the old stock had been worked off before the arrival of the new, and the market is in excellent condition to take all that comes along at fair prices. Figures at the principal places to which we ship are not as good as might be desired, but they will, doubtless, improve as the season advances. Herring are in fair supply at the different points in Cape Broton, P. E. Island and the north shore, so that the deep sea trawlers are able to secure about all that they want to use for that purpose Mackerel continue to be pretty scarce in the coves and inlets that line our shores, but the vessels that look for them in deep water are reported to be doing quite well. Of course the bulk of these are taken by Americans, and go straight to United States ports from Eastport, Me, to New York, but most of them to Boaton and Gloucoster, which continue to be the great Lackerel markets of America. In Toronto both supply and demand are reported to be good. Fresh sea salmon are quoted there at 15c., Labrador hering \$3 per hlf. bbl.; Shore do. \$2.75 per bbl.; Digby do. 11c. to 12c. At Boston the outlook for mackerel continues good, and with good weather the catch is likely to continue to improve. The quality of the fish is also superior to that taken a year ago. Prices continue to work down, so that large 3's are quoted at \$9 to \$10 per bbl. New codfish are coming in slowly, which renders the supply comparatively abort and the mark at firm. Jobbers' quotations, however, are unchanged—large dry Bank \$6.37 to \$6.50; medium \$4.75 to \$5; large pickled Bank \$5.50; medium do \$4.50; large pickled Bank \$5.50; medium do \$4.50; large fixed and Georges \$6.25 to \$6.50; medium \$5 to \$5.50; pickled pollock (nominal) \$3 to \$3.50. No new barrel herring have been on heard in near limited and pete with the Nove Scotis large split that are on hand in very limited supply, though some Newfoundland have been offered at about \$4.75; the Nove Scotia large split remain very firm with jobbers quoting at \$5.25 to 5.50. Bay Shore are quoted at \$3.50 to \$4.50. There are no round Shore herring offering. At Gloucester, Mass., receipts are moderate in all departments. There are good indications of mackerel off shore and in the Guif of St. Lawrence. Quotations all round are unchanged. St. Lawrence. Quotations all round are unchanged. Advices from Port of Cos Que gargal

Spain, Trinidad, are to the 24th ult. The greater part of the cargo of the Josephine from Lockeport was lotted at \$24 for drums and tierces, \$6.25 for wass, and \$16 to \$18 for scale fish. Some large fish ex recent atomers were offsring at lower rates, the quality not being attractive. The consumption of fish is steady, and from all indications the Trinidad market is likely to be in a healthy condition for some time to come. There is not much angusty for pickled fish, but a small lot of herring ex Josephine was sold at

ETERNAL VIGILANCE

Is the price of north. But with all our precaution there are ensures always lurking about our systems, only waiting a favorable opportunity to assert themselves. Impurities in the blood may be hidden for years or even for generations and suddenly break forth, undermining in alth and hastening death. For all diseases arising from impure blood Hood's Sarsaparilla is the unequalled and unapproached, remedy. It is King of them all, for it conquers disease,
