

WYETH'S LIQUID MALT EXTRACT

WYETH'S MALT EXTRACT

contains all the nutritive virtues of the best malt liquors in a much higher degree than any other product with which it can be compared, and the least amount of alcohol (3 per cent.) of any like preparation which avoids the distressing consequences experienced from the use of spirituous liquors, or malt extracts containing a large amount of alcohol.

WYETH'S MALT EXTRACT

is agreeable to take, and is a valuable nutrient, tonic and digestive agent, containing a large amount of extractive matter. Those of the medical profession who have given the subject of malt extracts careful study are unanimous in endorsing all the claims that are made for it.

WYETH'S MALT EXTRACT

is especially adapted to nursing mothers and children, to those suffering from nervous exhaustion, chilliness, and to those unable to digest starchy food. It also acts as a roborant in all cases of debility, and is a most valuable addition to the treatment required in convalescence.

WYETH'S MALT EXTRACT

is practically a liquid bread that is partly digested. It has for its prime object the production of nutriment, and the entire process of manufacture is devised for the purpose of attaining that end.

WYETH'S MALT EXTRACT

is a purely pharmaceutical preparation, and we would caution physicians when ordering to specify "Wyeth's," as it is well known that there are a great many so-called malt extracts in the drug stores which contain such an amount of alcohol that it is not safe to leave the choice to the discretion of the patient, who might be prevailed upon to purchase an inferior article on account of its being a little cheaper.

Free sample bottles of Wyeth's Liquid Malt Extract will be sent to any practicing physician in Canada upon application.
