

# GROSS, CLARE & CO.

684 TO 690 CRAIG STREET, MONTREAL,

MANUFACTURERS OF

Surgical, Dental, and Veterinary Instruments. Hypodermic Syringes. Prescription Scales. Electro-Galvanic Batteries. Trusses. Shoulder Braces. Abdominal Belts. Apparatus for Spinal Curvature, and every kind of Physical Deformity. Splints, &c.

## ARTIFICIAL LIMBS.

"Gross" Patent for which they hold several Medals and Diplomas.

## INVALID ROLLING CHAIRS

Always on hand. A Full Stock of Surgical Rubber Goods, Beds, Cushions, and Hospital Supplies. Elastic Stockings, Anklets, Wristlets, and Bandages.

Particular attention given to Repairing, Repolishing, and Nickeling Instruments.

 Illustrated Catalogues and Price Lists Furnished on Application.

Copy of Judges Report on their Exhibit of Surgical Instruments, at the Dominion Exhibition, held at Ottawa, 1879

"We consider it the best display of Workmanship in our Department and would recommend the highest Medal."

## Dr. L. D. McINTOSH'S Electric or Galvanic Belt.

If this new combination could be seen and tested by the medical profession, few, if any, words would be needed from us in its favor, for it combines utility with simplicity in such perfection, that seeing it is convincing proof of its great value. The medical profession to-day acknowledge, almost universally, Electro-Therapeutics.

This combination is composed of sixteen cells, placed in pockets on a belt. Each cell is made of hard vulcanized rubber, lined with a copper cell, which constitutes the negative plate. The rubber coating perfectly insulates each cell. The positive plates are of zinc, wrapped in a porous material to absorb the exciting fluid, and prevent contact with the copper, and permit the current to pass from the copper to the zinc.

Thus the cells are charged with out wetting the belt, and the discomfort following, to the patient. A wire is soldered to each zinc plate, which connects with the copper cell by entering a tube on its side, thus rendering the belt pliable.

The McIntosh Electric Belt is superior to all others for the following reasons:

It is composed of sixteen cells—thus giving a powerful current. A current selector is so arranged that one or more cells can be used at pleasure. There is not anything irritating about the Belt, as is the case with all other contrivances where the metal used is wet with weak acids and placed next to the skin. The electrodes are pieces of metal covered similar to ordinary battery electrodes, and connected with the cells by connecting cords. By this arrangement, a current from the Belt can be applied to produce a general or local effect. Physicians who have used this belt in their practice do not hesitate to recommend it to the profession.

Our pamphlet on Medical Electricity sent free on application. Address

McINTOSH GALVANIC BELT AND BATTERY CO.,  
192 and 194 Jackson St., CHICAGO, ILL.

## College of Physicians & Surgeons OF ONTARIO.

THE members elect of the Council of the College of Physicians and Surgeons of Ontario, will meet at the hour of two o'clock, p.m., on the 13th July, 1880, for the transaction of business, in the College Buildings, corner of Bay and Richmond Sts. City of Toronto.

Registrar.

**\$500**

A MONTH guaranteed. \$12 a day at home made by the industrious. Capital not required; we will start you. Men, women, boys and girls make money faster at work for us than at anything else. The work is light and pleasant, and such as anyone can go right at. Those who are wise who see this notice will send us their addresses at once and see for themselves. Costly Outfit and terms free. Now is the time. Those already at work are laying up large sums of money. Address TRUE & CO., Augusta, Maine.

## SPLINTS FOR SURGEON'S USE.

JAMES ELLIS has for some time past directed his attention to the manufacture of splints. They are made of Basswood, Whitewood and Pine, strong and light, and some of them ingeniously carved or hollowed out to fit the inequalities of the surface. The splint for Colles' fracture is one of the most striking, being a correct representation of Bond's splint, carved out of solid basswood. They are also very cheap and durable. Orders may be addressed to

J. H. NASMITH & CO., Druggists, London or Stratford.  
GARLAND & RUTHERFORD, Druggists, Hamilton.  
H. J. ROSE, Druggist, Toronto.
