FINE and PURE

Salt is as necessary as fresh air.

57% of the blood consists of it—it is indispensable to good digestion.

Being constantly discharged through the skin and kidneys it must be replaced. Of course you want to replace it with the best. Windsor Salt has been proved without equal.

SEALS—as well as moistens

any size envelope quickly, neatly and perfectly. Can also be used for stamps, labels, etc.

THE CONSTRUCTION

The Barrel is made of hard rubber and unscrews at the joint to be filled with water.

The Metal Dampener is made of solid brass so it can not rust: the roller of hard rubber. The moistener is filled with felt, which absorbs the water and keeps it just wet enough for immediate use.

One filling of the barrel will last several weeks.

You pass the felt over flap of the envelope, turn flap down and roll lightly over it, which seals to stay.

Every office needs one, or more, of these useful, sanitary, and inexpensive devices for moistening and sealing anything. "IT SEALS—as well as moistens," a feature which similar articles (selling at a low price) do not possess.

The rubber Roller enables the user to seal the envelope perfectly, without the fingers (which are sometimes dirty) coming in contact with the envelope. It does the work neatly.

It saves you that unpleasant taste.

You need one. Why not order it To-day? Money back if not entirely satisfied. Price \$1.00 postpaid.
