CHANGE OF THE SEASONS! AND NEW, CHEAP AND SEASONABLE DRY GOODS.

The showers of the Spring are but shed o'er the land, The earth but unfettered from Winter's grim hand; Its breezes but felt, and its verdure but seen, When it passes away with the Springs that have been, Then Summer comes on, with its sweet smiling flowers, Its rich verdant fields, and its ivy-clad towers; Yet strange, when it yields us the greatest delight, It melts at our gazing, and fades from our sight, Then Autumn succeeds, with its corn and its grain, Its mellow fruit, and its rich yellow plain; But like Spring time and Summer, how short is its stay, It drops us the year leaf and passes away, Then Winter draws nigh, and the leaves disappear, And every green spot grows withered and drear; And the breezes of evening are heavy and chill, And the snow spreads its mantle of fleece o'er the hill; Unlike Spring time or Summer, or Autumn it stays, Through many bleak nights and cold frosty days, 'Till we tire of its visit, and wish him away, And long for the balmy breezes of May, McDONALD, on Yonge Street, One Hundred and Three, Has a Stock which he wishes the Public to see; Well suited in fabric for cold Winter's trade, And embracing the latest designs that are made; There are Flannels and Blankets, in goodly supply, Which feel thick to the hand and look well to the eye; There are hundreds of Shawls, some styles very rare, The fine, heavy, long, and magnificent square, There are Brod Cloths, and Doekies, and Cassimeres too, And Lusters, and Coubores, in every fine hue; And a fine stock of Furs, which, at some recent dar, Were trapped on the banks of the famed Hudson Bay, There are fine Cloths and Bonnets, and many things more, That McDONALD keeps always on hand at his Store; He would not the rights of another invade, While he seeks for a healthy extension of trade; But if felicity will answer, and bargains repay, Then call at his Warehouse on some early day; He asks but a call, 'tis a modest request, And a glance at his prices will tell all the rest.

THE object of this Advertisement is in part to do away with an erroneous opinion which has long prevailed, viz., that nothing choice or tasteful can be had in the Dry Goods department on

YONGE STREET.

an examination of the Subscriber's Stock will sufficiently refute that notion, as it will be found to comprise all the articles in general use in the Trade. The following will be found especially worthy of notice: - DRESS GOODS, in Lustres, Cobourgs, Silk Mixtures, Cashmeres, De Laines, &c. from 1s. upwards. SHAWLS - a large stock of British and American Manufactures; a good supply from the celebrated BAY STATE MILLS bought as jobs and offered low. BLANKETS - A good supply commencing at 6s. 3d. per pair, Cot Blankets, FLANNELS in Welch, Saxony, Lancashire, and Canadian, from 1s. 1d. upwards.

Long Flat Bows commencing at \$12. Guita Percha sewing Thread; Chinese Tapes, peculiar for not twisting in washing; Chest Comforters, a good safeguard for persons much exposed to the weather.

N.B. - The attention of the Trade is solicited to a large Stock of 9-8 and 8-4th Prints, in Lilac and Madder Colours, warranted fast, commencing at 6d. per yd.; also, to a Lot of cheap Stuff Goods; 70 or 80 dozen Bunniet Shapes, commencing at 2s. 3d. per dozen nett; and every class of Goods offered to the Trade on the same favourable terms.

E. V. WILSON, General Travelling Agent.

Observatory, Toronto, Sept. 9 1851.

At the request of Mr. Wilson I have examined his Lightning Conductor, and heard his explanation respecting it. His views appear to me to be reasonable and correct, and the Metallic Point a good form of the Instrument; the Platinum Point is an essential part of it, but I do not consider the Magnets to be so, or that they can have any possible effect, good or bad as such: as additional points, the opinion of the best authorities is that such are of no use; one good point being all that is necessary, but they can do no harm.

I further state, at Mr. Wilson's request, that in my opinion any building so elevated as the St. Lawrence Hall, or the Lunatic Asylum, ought to be provided with several Points, and several Conductors, which latter should be placed in good metallic communication with the tin covering of the roof and any other considerable masses of metal about the building. The conductors should be led off to the iron water pipes under ground.
