For the treatment of Nervous, Chronic, and Ob-
scure Diseases, not cured by other kinds of treatment
(nor by the unskilled and inexperienced). Diseases
that follow nervous exhaustion (a lack of vitality or
nerve force) from various causes, as over brain work,
over physical work, excesses—abnormal secretions
and exertions producing various phases of disease
and suffering in mind and body.

Those who wish the treatment at home may have
it by ordering one of Prof. Vernoy's Improved Family
Batteries, and follow the instructions given with it,
which are plain and simple.

The cures made with these Improved Batteries
scientifically used, according to the new system
practiced by Prof. Vernoy, are not limited to any
particular class of diseases. It is wonderful to see
how such radical changes are so quietly and agree-
ably made. Acute diseases are often cured as by
magic in one or two applications.

Female diseases, hopeless cures by other means,
displacements and other weaknesses—nervous debility
(abnormal evacuations in either sex) permanently
cured after years of suffering with other kinds of
treatment. Neuralgia, Rheumatism, Catarrh, head,
lung, heart, liver, kidney and other organic troubles
and derangements of the system changed to a healthy
state as readily as the hard frozen earth is mellowed
by the genial rays of the sun by nature's means, in
harmony with her fixed laws. Bad cases thus cured
will inform you how marvellous the cure is. Address
given if you wish it. See the *Electric Age* with
testimonials and references like the following:—

September, 10th, 1886.

DR. VERNOY,

Dear Sir,—I consider it my duty to you and to the
public generally to give a short history of my case.
I found myself gradually failing physically, although
my mental powers, so far as I or my friends could
judge, remained intact and undisturbed. Soon I
began to recognize the alarming fact that I was gradu-
ally sinking into the grave, having lost forty pounds
of flesh in four months. I suffered severe neuralgia
in one or both temples, shooting down into the
shoulders occasionally, of the most excruciating
character, accompanied by morbid sensations in my
extremities. After other means had failed I thought
I would try electricity, knowing it was a powerful
remedial agent when cautiously and skillfully applied;
and having ascertained that you were the most suc-
cessful electro-therapist in Ontario, I thought I
would, if possible, obtain your services, and you very
kindly and promptly visited me and proved on that
occasion your complete mastery of nervous diseases.
Through your instructions as to the application of
the battery, and from several treatments received at
your office after I was able to visit Toronto, I am
now in very good health.

I remain, as ever, thankfully yours,

L. D. CLOSSEN, M.D.
