"Model" Coal Chute,  
Open.

## MAJESTIC COAL AND WOOD CHUTES

Every Architect, Contractor and Builder should know the merits of a "Majestic" or "Model" Coal and Wood Chute.

This is the new way by which to put fuel into the basement. By using such a chute you do away with the annoyance of demolished window frames and broken windows.

The door when open protects the wall above the chute, and when closed locks automatically, and is positively burglar-proof.

Made in three sizes:

No. 1—16x22.

No. 2—16x27.

No. 3—18x33.

Write for descriptive booklet.
