THE IMPERIAL DICTIONARY.
THE GREAT ENCYCLOPÆDIC LEXICON.
In 4 Volumes, the standard binding being in silk-finished cloth, with backs and corners of black Russia calf.

No more useful set of books can be owned by any one than these four volumes which make the "Imperial Dictionary." All reading, thinking people need a book of reference, and the best critics of England and America are agreed in pronouncing the "Imperial Dictionary" "the best work of general reference ever published." Its vocabulary of 1,300,000 words is that of a dictionary, but it does more than a dictionary's work, passing on from definitions into descriptions, and from etymologies into histories. It shows in a remarkable manner the various uses of words by an abundance of quotations from more than 1,500 authors; while its illustrations, exceeding 3,000 in number assist materially to a complete understanding of any required word. Its scientific and technological definitions, its fulness and accuracy, the pleasant arrangement of its pages, the fact that the work is divided into four volumes, the exquisite typography, the richness and the low price have combined to give the "Imperial" a popularity in America far in excess of the expectations of the publishers who introduced it into the American market.

By special arrangement Hart & Company can supply this great work at less than the English price, and at same price as offered in the United States.

The "Imperial" is issued in four volumes, and the price, bound in cloth, is \$20.00 a set; in half Russia back and corners, with silk-finished sides, \$25.00 a set; in full extra sheep, \$26.00. Send for prospectus, sample pages, etc.
