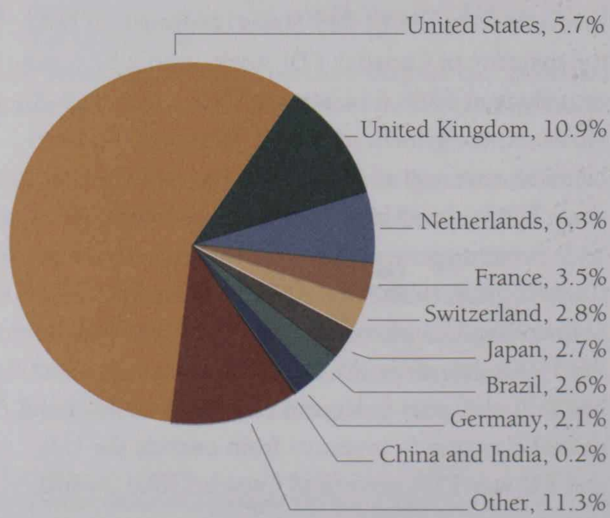
Data: Statistics Canada, stocks.

[a] Compound average annual growth rate

Note: Shares and growth were calculated using raw data, and might not be reproduced with the data in the table, due to rounding.

FIGURE 5-3
FDI stock in Canada by country (2007)



FDI, at nearly $75.8 billion, up from only $29.6 billion and a 9.3 percent share in 2000.

In 2007, investment from Europe grew by a substantial 26.2 percent to $157.5 billion, with growth being driven by investors from the U.K. whose stock jumped by 37.5 percent to $54.8 billion, and a 27.5 percent increase from the Netherlands to $31.5 billion. Investment from Europe continues to be dominated by these two countries and France, which combined account for close to two-thirds of European investment in Canada and 20.7 percent of the overall stock of FDI in Canada.

The growth in FDI from South and Central America slowed somewhat from 2006, rising 9.1 percent to
