The Newest Is Always Conservative

It is a mistake to believe that because a style is new it is extreme. In this age of cheap printing and good cuts the details of clothing change instantaneously from the Gulf to Hudson Bay. The extreme suit is not the new cut which everyone is wearing, but the antique model which is the pride of the local tailor.

And you are paid for compliance in being able to buy the latest, nicest clothing at practically wholesale prices in our men's wear departments; while the custom made suit, more or less behind the style, costs you double the amount.

This is an invitation to investigate the splendid values we are offering.
