

We Have Kept Pace With Progress

Have you?

What do your customers think about it?

You don't know.

You can only make a guess.

If you are using the bargain-counter kind of inks "for economy's sake" you are not doing first-grade printing.

You should use the Ault & Wiborg inks—the world's best.

Perhaps you rarely have complaints about the quality of your printing and probably you are often complimented.

But those facts prove nothing.

The majority of your customers will not make a fuss when they are only slightly displeased.

Many of them consider it good policy to jolly you whenever they have an opportunity, whether they like your work or not, especially if you have a newspaper.

Some do not know the difference between first and second-grade printing.

Some may think your work is better than your competitor's work but not as good as it should be.

Those who leave you do not give their reasons. You may think your competitor has underbid you when he is really charging more and getting the business because of the better work that Ault & Wiborg inks enable him to do.

Some people see samples of your printing and never give you even a trial order because they observe the fact that you use inferior inks. You think the reason they do not patronize you is because the other fellow has some kind of a pull.

To sum it up, your customers think all sorts of things about your printing and you are more likely to find out exactly what they think if you do first-class printing than if you do second-class printing. You cannot afford to use poor inks on the work you do for people who do not appreciate the best because the other (and larger) class of people will find it out. Ault & Wiborg inks are the best that can be made—better than any other makers have ever succeeded in producing.

They are the standard of the world. They are sold at the lowest prices for which the best inks can be sold. There are inks that cost less for just the same reason that brass jewelry costs less than gold jewelry.

You should have our catalogue.
