		(1873) Total	18	23	230	100	59	48	112	93
		(1874) Total	16	22	219	114	55	210	179	66

N.B.—In 1874 there was only one survey party, which was under Lieutenant Rowe, R.E. The increase in the numbers of oxen and waggons was on account of the long distance (800 miles) over which supplies had to be carried. The decrease in the number of tents was because bell tents were almost exclusively used, instead of the H. B. Company pattern.

TABLE IV.
ASTRONOMICAL INSTRUMENTS.

No.	ARTICLES.	No.	ARTICLES.
3	Zenith telescopes	6	Large stands for astronomical instruments
2	Transits, 30" with 2½" apertures on portable iron stands	1	Alt-azimuth, with vertical circle, 14" in diameter
1	Transit	6	Chronometers, box, regulated to sidereal time
1	Transit, small	12	Chronometers, pocket, regulated to mean solar time
6	Sextants, 8 inch	3	Observing tents
6	Artificial horizons, mercurial, with roofs		
6	Iron bottles containing mercury		
6 sets	Spare glasses for roofs of artificial horizons
