On April 23 the bill will be considered and discussed at the Irish National

behalf. Those who want to see Ireland given an opportunity to manage its own affairs will counsel support of Mr. Redmond's attitude and emphasize the ecessity of maintaining the solidarity of the government majority. The prenier has evidently been solicitous to avoid all occasion of distrust on the part of the more moderate section of his followers and any caviling voiced has confined itself almost entirely to a nominated senate and the nature of the financial arrangements. The division will find the ministerialist line practically unbroken and frank acceptance of the bill by the Nationalist convention will go far to secure its

An action by the United States Government for the dissolution of the United Shoe Machinery Company as a trust has also been lodged, but its success is problematical under the recent decision of the United States Supreme Court in the mimeo graph patent case.

In Canada we have only gone the length of an enquiry under the Anti-Combines Act. This enquiry has been prolonged, we think unduly, in view of the undisputed facts disclosed, and it has been less impressive and perhaps government to deal with.

In respect to the trust evil generally, much can be accomplished by capitalization, the issuing of securities ple will expect some progressive legislation from the Borden government.

# IS YOUR SKIN ROUGH AND "PATCHY"?

Zam-Buk Will Make It "Peachy"

Every girl likes a good complexion.
Use of Zam-Buk ensures one! If you have pimples or rough and sallow patches on your face or any part of ur skin just try it. Think what your skin has had to go through during the winter just past. You have been out in rain and sleet and snow. You have been at one mo-

ment perspiring from skating, or some other exertion. Then you have stood to "cool off." You have spent hours indoors at a temperature esummer heat. Then you have up your skin except your face and gone changes the skin of the face and neck shows signs of needing attention.

Zam-Buk is a skin food. Don't forget that the skin has to do work just as any organ of your body has, and if you overwork it, it gives out. Zam-Buk is the remedy. Smear it lightly over the spots, the eruptions, the sallow patches, at night, and note how quickly your appearance improves. As the rich, refined, herbal essences sink deep into the tissue, the hard scurvy-like patches are removed. The cuticle is softened. The cells beneath are stimulated to healthy operation. The pores resume their work properly. Better color results. The cells of the
