EIGHT-YEAR-OLD CHILD KILLED BY MOTOR CAR IN RIVERDALE

George Kettle Became Confused and Was Struck Before Machine Was Stopped—Driver in Custody—Woman Struck by Street Car—Man's Leg Amputated—Miner Died of Injuries.

Two dead, one dying and three others in Toronto hospitals more or less seriously injured is what happened from accidents and other causes in this city yesterday evening and last night.

George Kettle, a youngster of eight years, was hit by a motor car driven by Royce Robson of 48 Concord-avenue last night at 7 o'clock on Hampton-road. The boy was sitting on the curb in front of his home just a few minutes before the car passed.

Robson, the driver, turned, expecting the boy to remain where he was standing. Instead the youngster did the opposite and moved in front of the machine. He was hit hard and was carried 60 feet on the hood of the machine before Robson stopped it.

The Driver's Story. Robson's story that he was driving his car along Hampton-road when the boy ran out from a group playing tag on the sidewalk, in an attempt to avoid being touched by a pursuer.

Struck by Train. Raymond Chalup, 56 Beatw-avenue, 21 years of age, was hit by a G. T. R. train at Sunnyside crossing last night.

Hit by a Car. Wm. McCallum of Montreal, 50 years of age, was hit by a Metropolitan street car, and taken to St. Michael's.

Died of Injuries. William Poulter, 24 years old, who was brought down from the mines in Northern Ontario about a week ago suffering from a severe injury and was taken to the General Hospital, died there last night.

Woman May Die. Mary Pearson, of Niagara Falls, who was struck by a street car last night and taken to Grace Hospital. Her injuries are so severe that no hope is held out for her recovery.

WANT 13 MONTHS IN CALENDAR. OTTAWA, June 7.—(Special.)—Of all the unbusinesslike depredations, which have waited upon Premier Borden since his accession to the premiership, the most unique was when he was requested today by a delegation from the Royal Society of Canada, headed by Sir Sandford Fleming, that the Canadian Calendar year be made 13 months instead of twelve.

THE NELSON VERDICT

"It is the opinion of this jury that the collapse of the south wall of the Neilson building was due to a combination of circumstances: 1. 'Vibration caused by the working of the gin wheel, brick-layers' hoist, derrick and machinery in building, which retarded the setting of the mortar.'

CORONER CRITICIZES LACK OF INSPECTION

Dr. Elliott, at Neilson Inquest, Says City Council is Deserving of Censure in Not Providing Funds So That a Sufficient Number of Building Inspectors Could Be Appointed.

The verdict into the death of Eva Anderson, which occurred in the Neilson building disaster on the 4th of May, was rendered last night in the morgue after the jurors had been out nearly three hours.

Coroner Elliott's summing up of all the evidence of importance was comprehensive, but not long drawn out. He thought it farcical that a carpenter in the role of an inspector of brick and other masonic work should make but one short inspection every ten days.

Over Fifty Witnesses. In all over 50 witnesses were examined, between 800 and 900 pages of typewritten copy taken in evidence and 12 sittings required before the jurors were ready to bring in a verdict.

Hit by a Car. Wm. McCallum of Montreal, 50 years of age, was hit by a Metropolitan street car, and taken to St. Michael's.

RIOTS IN BOSTON CARS TIED UP

BOSTON, June 7.—(Can. Press.)—The agitation being carried on by the Building Exchange of a few western cities for the suspension of the duty on cement, is monopolizing the political spotlight.

CUMMINGS SENTENCED TO DEATH. MONTREAL, June 7.—(Can. Press.)—John Cummings was to-night found guilty of murder in the first degree for the shooting of his wife last November.

SEVENTY TO ONE FOR HYDRO. COLDWATER, June 7.—(Special.)—Seventy in favor, one against—the vote was the vote here on the hydro-power bill.

RUINING HIS DIGESTION

UNCLE WILF: Heaven help me, why can't I get rid of that cook?

NO CANTREEN SAYS COL. HUGHES AT CAMP

"Government Will Not Act as a Bartender and Serve Men Who Are Foolish Enough to Be Addicted to the Liquor Habit"—The Lid is on for Good.

NIAGARA-FALLS, June 7.—"The government will not act as a bartender and serve fellows who are foolish enough to be addicted to the liquor habit," declared Col. the Hon. Sir Henry Hughes here to-night, on his arrival from Niagara Falls to spend a few days in camp.

Leave a Barrer. "If I were commander of a regiment," he concluded, "I wouldn't be afraid to leave a barrer of whiskey in the vicinity of the tent lines. No officer who knows his business and has his men properly trained would be afraid to do the same thing."

WEST CHURCH CAMPAIGN. West Church so far has raised \$22,250 of the \$25,000 for the new institutional and other buildings. If the \$25,000 is secured by to-night, the campaign will be continued until the new church is opened next Sunday.

Anti-Reciprocity League Revived

MONTREAL, June 7.—(Can. Press.)—The Anti-Reciprocity League of Canada was revived this afternoon at a well attended meeting here. Among the speakers from outside cities were: W. K. George and G. T. Somers of Toronto.

FORGED TO WALL BY MONEY TRUST

Four Banks Which Could Have Weathered Storms of 1907 Wiped Out by Clearing House.

NEW YORK, June 7.—(Can. Press.)—Testimony intended to show how the power of the New York clearing house committee was used to force a solvent bank to the wall during the aftermath of the panic of 1907, with the result that the "fair reputation" of its president was "blasted," was dramatically unfolded, to-day, before the public committee of the house of representatives, which is investigating the so-called money trust.

Four Banks Victims. The bank around which the testimony centred was the Oriental, organized in 1853, and one of the charter members of the clearing house association, but it was testified that three other banks, the Bank of North America and the New Amsterdam National Bank, in both of which Charles W. Morse was interested, and the Mechanics and Traders, were similarly compelled, through the action of the clearing house, to close their doors, also all proved to have been solvent.

Only One Way. The opinions seem to be prevalent, especially at Niagara camp, that the stories in The World were aimed at the rural regiments. Such is not the case. It is a fact that while the city regiments were in camp last week there was liquor inside the lines, and plenty of it.

Want a Drink. "In the Army Service Corps we always tried to keep the men in the line, and few of them drank. I think myself that Star beer, or local option beer, properly led, is a good drink. The men want a drink after coming in from drill. We had a supply of the local option beer, and when it was properly opened, the men didn't know but that they were drinking lager."

ARE MORE FLASKS THAN EVER BEFORE

Because of Closed Canteens at Camp, Men Drink Adulterated Whiskey, Says Col. Langton, and Land in Hospital—Properly Iced Local Option Beer is Best for Men.

For 16 years Lieut.-Col. J. G. Langton has been connected with the Canadian militia, both in the volunteer and permanent corps, and in that time, being in charge of the Army Service corps, he organized one of the best branches of the Canadian militia. He is thoroughly conversant with all conditions pertaining to militia training.

On Right Lines. Col. Langton stated that The World was working along the right line, in advocating a supervised canteen. It seemed to him, he said, that it would be a good idea for the license department to issue licenses for only eleven months, and thus close the hotel bars during June while the camp is on.

Till Bars Close. "In the past," he continued, "after 2.30, when the camp canteen closed, the men went to their tents. Now some of the men are down town all evening until the bars close. Then they come back to camp with cheap adulterated flask whiskey, which is passed around in their tents. The men feel dopy in the morning and eat no breakfast. Then they go out in the sun to drift, and then the hospital is the place for them."

More Flasks Now. "During the last few camps there were more flasks in the grounds than ever before. In Col. Otter's time, nothing but beer was sold in camp canteens, but during the last few years the hard association would stand by it to the last ditch."

Deserted Quarry Thru Siren Call Of Port McNicoll. COLDWATER, June 7.—(Special.)—The lure of Port McNicoll has proved anything but a boon to the Toronto owners of a stone quarry here. Time and again they have advanced railway fare and means for immediate sustenance to men whom they sent from Toronto to work in the quarry, only to have them hit the ties on a 14 mile tramp to the C. P. R. terminus, forgetting their obligation to work out their fare and money advanced.

GOOD PASTORATE WAITING FOR SOMEONE

Methodist Stationing Committee on Monday Must Appoint a New Minister for West Queen Street Church, Where Salary is About \$2500 and Considered Quite a Plum.

One of the juicy plums in the Methodist ministerial fruit tree will drop over-ripe next week into the lap of some lucky Toronto conference minister, who will be able to thank Providence for the gift, as it is an unexpected choice delicacy which the stationing committee will have at their disposal.

As the first rank men are all located in fine high-salaried city churches, the second raters or some man who has not yet had a fair chance will come in for the good thing. One of the leading general conference officers said to The World yesterday that the stationing committee in this instance would be left to divine guidance as the congregation concerned had no man in sight.

Worth \$2500 a Year. The plun will be the appointment to West Queen-street Methodist Church, in succession to Rev. C. O. Johnston. It is considered worth about \$2500 a year, which means a big jump in salary for some favored preacher.

Meets on Monday. The stationing committee will meet at the Metropolitan Church on Monday to begin the first draft. Interest will be concentrated in the West Queen-street appointment.

Deserted Quarry Thru Siren Call Of Port McNicoll

COLDWATER, June 7.—(Special.)—The lure of Port McNicoll has proved anything but a boon to the Toronto owners of a stone quarry here. Time and again they have advanced railway fare and means for immediate sustenance to men whom they sent from Toronto to work in the quarry, only to have them hit the ties on a 14 mile tramp to the C. P. R. terminus, forgetting their obligation to work out their fare and money advanced.

Nationally has nothing to do with this fever to see the port. The last batch were Englishmen, but a detachment of Hungarians deserted in a like manner. The men have not gone to seek any other definite employment, for the six deserters were apprehended while loafing about the streets.

DUCHESS OUT OF DANGER.

MONTREAL, June 7.—(Can. Press.)—The last bulletin for the day on the condition of the Duchess of Connaught, issued early this evening, reported satisfactory progress. No further announcement as to the future plans of the royal party were made to-day. The Duchess, it is expected, will be able to leave the hospital some time next week.

SUMMER HATS TO DAY. A straw hat or Panama is for you to-day at Dineen's 140 Yonge-st.
