with another question, 'will they negotiate?'

"According to an article in The Temps on Wednesday, our opponents seem to assume that the German counter-proposals go beyond the limits within which they want to grant us a discussion. If this article interprets the view of the enemy leaders, I hardly see any prospect of an understanding."

Asked whether he considered unbridgeable the gulf between the allied demands and the German offers, the count replied:

"This question itself is based on a controversy of principles on which no agreement can be reached. It is possible to be of different opinions about the resources of Germany, but there exists no agreement about the question whether this nation is to do penance as a criminal or to fulfil its obligations as a party to the treaty.

from 16c to 17c and medium calves 14½c to 15½c.

The sheep and lamb trade was very slow and draggy especially for the heavy class. Heavy clipped sheep sold from 9c to 10c, light clipped 11c to 12½c, yearlings clipped 12½c to 15c according to quality, and spring lambs of which there were not very many yesterday sold from \$14 to \$16 apiece, and better ones would have sold for \$17.

With a run of about 2100 hogs the market for the incoming week looks decidedly lower, the buyers for the packing plants quoting a straight dollar off for the balance of the week. This will make the rate \$21,25 fed and watered, \$20,25 f.o.b., and \$20,50 weighed off. Wether they will be able to carry out their schedule as outlined remains to be seen, but in view of the weakness shown in the cattle trade it would not be a matter of surprise if such were the case.
