## **PERSIAN** LAMB

Persian Lamb Jackets will be just as popular this year as heretofore. Our Persian Jackets have unequalled quality to recommend them.

Remember the following facts when you contemplate purchasing. We are admittedly the largest retail dealer in furs in Toronto. We buy direct from the trappers. We manufacture every garment on the premises from advance designs.

If you want to know what this really means visit the showrooms. A larger and rarer stock of garments has never been seen before in Canada. Special line of Persian Lamb

### YORK COUNTY AND SUBURBS SUSPICIOUS DEATH CLEARED

Coroner's Jury Into Demise of John Stoner of Markham Disposes of Nasty Suspicions.

Markham, Sept. 6 .- (Special.)-For 24 hours to-day and yesterday Markham village and township were agitated by a sudden death, which had all the indications possible of foul play. Symptoms of poisoning were present, accompanied by a reasonable cause for suspicion. However, after the empanelling of a jury, and having an autopsy, the matter was cleared up to the satisfaction of Crown Attorney Slaght and Coroner Robinson of Markham. The coroner's jury brought in a verdict of natural death.

John Stoner, a carpenter living at John Stoner, a carpenter living at Box Grove, four miles from Markham, had complained of pains in his nead and stomach after two days' illness. Mrs. Isabella Pherrill, who keeps house for him and his four small children, called in Dr. J. MacDonald of Markham on Monday. Thinking the man had an attack of biliousness, he ordered calomel and salts. Next morning the man died. The symptoms had all the appearances of being a case of poisoning. A bottle of carbolic acid, nearly empty, found in the house, directed the attention of the authorities to that poison. The thick, furry appearance polson. The thick, furry appearance of the tongue and its extraordinary whiteness made them think the acid had been administered in small quantities diluted with water. Pains in the tities diluted with water. Pains in the stomach bore out this theory. Casting around for a clue, County Constable Eurns found that Stoner was very jealous of his housekeeper. On Monday, week ago, this jealousy attained an acute form, and he\_abused one| of his housekeeper's visitors by calling him names and chasing him down the road.

He Was Jealous.

Mrs. Pherrill, by an unwitnessed document made by Stoner in July, was appointed as guardian of the property of the children until the youngest son,

the children until the youngest sor now 12 years old, obtained his major ity. It also stated that she was to be allowed the full control of it. The property consisted of two lots and a house, valued altogether at \$600. "Mr. Stoner was jealous of me," said Mr. Stoner was jeasous of the Mrs. Pherrill at the inquest this morning at Box Grove. "He didn't like to see me talking to other men. He took especial exception to Harry Howarth, who works for Mr. Crawford. A week ago Monday he was so aggravated about seeing me talk to him at the gate of his house that he went out to have a talk with him, and a few minutes after I saw him chasing Harry up the read.
