**GEORGE IRVING MISSING**  
Had Disagreement With Wife in De-  
troit and Disappears.

DETROIT, Sept. 6.—(Special).—For  
the second time in the past ten years,  
George Irving, a machinist, aged 28,  
whose parents live in Toronto, has mys-  
teriously disappeared. This time he  
leaves a wife of less than a year.  
Irving first disappeared from his  
home in Toronto ten years ago, because  
he had a grievance against his father,  
and he has not since then darkened the  
home of his parents. Less than a year  
ago, when Irving was employed as a  
fireman at the Walpole House, in Berlin,  
Ont., he and the cook were married.  
Last January they came to Detroit  
and lived happily together until a week  
ago last Monday, when Irving again  
disappeared, and also his wife. The  
wife and the police have searched every  
place for him he cannot be located.  
Mrs. Irving says she did not accompany  
her to church a week ago last Sunday,  
and when he returned home in the  
evening, after being away from home  
all day, she was vexed at him, and did  
not speak to him.  
The next morning Irving got up with-  
out saying a word to his wife, and  
was gone for the last time.

**Irish Day at Buffalo.**  
BUFFALO, Sept. 6.—Irish and Frater-  
nal day was one of the great successes  
of the Old Home week and anniversary  
celebration. The shamrock and the harp  
were prominent features of the decorations  
of the city, and the Ancient Order  
of Hibernians held open house at their  
headquarters. The parade of fraternal  
organizations to-night was a brilliant  
spectacle.

The marching columns of uniformed  
men, performing intricate evolutions,  
troops of cavalry, beautiful floats and  
other attractions brought forth salutes of  
applause from the thousands of men,  
women and children which banked the  
line of march for miles.

The line of march was four miles long  
and was over an hour passing the review-  
ing stand.

**DEVICE BANISHES SMOKE  
ALSO A FUEL ECONOMIZER**

Demonstration of Clever Invention  
at Factory of the Cowan  
Co., Limited.

During the present week a demon-  
stration of a new smoke consumer  
and fuel economizer was made at the  
factory of the Cowan Co., Limited,  
cocoa and chocolate manufacturers,  
at the Dundas bridge, and so success-  
ful was the test that Mr. Cowan, head  
of the firm, expressed entire satis-  
faction with the invention.

The World representative witnessed  
the demonstration, with a number of  
prominent citizens, who are interest-  
ed in the prevention of the smoke  
nuisance and the saving of fuel. The  
consumer demonstrated that it can  
do away entirely with the heavy  
smoke coming from factory chimneys.

The test of the device put into the  
furnace a double supply of fuel, the  
smoke from the chimney being very  
dense. Eight seconds from the in-  
crease of the smoke the smoke had  
entirely disappeared.

It is claimed for the invention that  
it is not only a great preven-  
tive, but a fuel economizer. The com-  
pany's contract guarantees a saving of  
from five to fifteen per cent. on the  
cost of fuel.

Cowan Co. have expressed a willing-  
ness to demonstrate the new inven-  
tion, at any time to those interest-  
ed in the smoke nuisance. The con-  
sumer has been placed on  
both boilers. This consumer is being  
operated successfully in Buffalo, N.Y.

The Dominion National Smoke Con-  
sumer Co. has received an Ontario  
charter, and its headquarters will be  
in Toronto. Temporary offices are 31  
West-avenue south, Hamilton. Of-  
fices of the firm are: Presi-  
dent, N. R. Hand, Medina, N.Y.; Vice-  
president, C. T. Tanner, Brad-  
ford, Pa.; second vice-president, L.  
McKinney, Bradford, Pa.; secretary-  
treasurer, A. R. Whyte, Hamilton,  
Ont.; manager, F. H. White, Ham-  
ilton, Ont.

**SMELTER FOR THE SOO.**

Should Be Running in Six Months—  
Expected Profits.

SAULT STE. MARIE, Ont., Sept. 6.—  
The Canadian Smelting and Refining Com-  
pany, Limited, with an authorized capital  
of \$1,000,000, divided into 1,000,000 shares,  
valued at \$1 each, the syndicate recently  
formed in Toronto for the purpose of  
constructing a smelter in the city of  
Sault Ste. Marie, has given place to  
the Canadian Smelting and Refining Com-  
pany, Limited, of Toronto, vice-presi-  
dent, K. C. of Toronto; vice-president,  
G. W. Monk, ex-M.P., Toronto; man-  
aging director, O. J. Starnes, a mining  
and metallurgical expert, Salt Lake City;  
secretary-treasurer, E. Douglas, Tor-  
onto; and a number of other experts.  
The company's plant should be in  
operation in five or six months.

In addition to the large quantity of ore  
now ready for such an institution in the  
vicinity of the Soo, large quantities of  
copper, silver and gold-bearing con-  
centrates are being mined, and it is  
estimated that the extraction of which  
seems unprofitable at present, can be  
successfully treated and to-day await the  
advent of a smelter.

At its inception the proposed plant will  
have a capacity of 100,000 tons of ore  
per day. The works will be con-  
structed to make this unit and such  
units of greater capacity can be  
added later to deal with the increas-  
ing business, which it is figured will  
from time to time, under the existing con-  
ditions, be sufficient to keep the plant  
at full capacity.

A conservative estimate of the profits to  
be made on the ore as it is treated in  
the proposed plant is said to be \$8 per  
ton and may be considerably higher.

**PROTRACTED INQUEST.**

Members of Mossop's Track Gang to  
Give Evidence.

As the case develops the inquest into  
the Caledon Mountain wreck promises  
to run over a considerable length of  
time. Chief Coroner Johnson, who  
will be the inquest, says that many  
witnesses will be examined.

The individual members of the San-  
ction crew, of whom the last sitting  
of the inquest was making 35 miles an  
hour at the point of departure, were  
examined. William Wilson, of Presher-  
ton, who was injured in the wreck  
and who timed the train at about a  
mile a minute, was brought to the  
inquest, as he can be moved. In  
fact, every point that can in any way  
aid in the illumination of the incident  
of the accident is being brought to  
light, and no expert testimony will be  
introduced.

Inspector McCall of the railway com-  
mission returned to Ottawa yesterday.

**BRITISHERS TO BLAME.**

(Canadian Associated Press Cable.)  
LONDON, Sept. 6.—The Morning  
Post sees as a result of the Franco-  
Canadian treaty a gradual destruction  
of the lines established by the insti-  
tution of the Imperial preference as  
a decade ago, and states that Germany  
would be only too anxious to secure  
the benefits of the intermediate tariff.  
It adds, the people of Britain are only  
themselves to blame.

**MANSFIELD'S ESTATE.**

NEW YORK, Sept. 6.—The will of  
Richard Mansfield, who died a week  
ago, was filed for probate to-day. The  
entire estate is left to the deceased  
actor's wife, Susan Hageman Mansfield.  
Mrs. Mansfield's attorney stated to-  
day that the personal property of the  
estate amounted to \$10,000, and that  
there was no real estate.

Enormous prices, it is said, have been  
offered for the widow for the plays which  
the actor owned, including "Beau Brum-  
met," "A Parisian Romance," "Prince  
Karl" and "Dr. Jekyll and Mr. Hyde."

Hotel Strathcona, Niagara-on-the-  
Lake, will remain open during Sep-  
tember. Special low rates from now  
on. J. Tasker, manager.

A meeting of the creditors of the  
estate of D. L. Gordon, jeweler, Toronto,  
who died last week, will be held to-  
day at 2 p.m. The assets of the  
estate are \$2000, while the liabilities  
total \$8000.

Beautiful Town on Saugeen River, Whose First White Settler

Sixty-eight years is a long period in  
the life of a man, but to him who  
looks back upon it, it appears very  
short. It seems to have passed like  
the dream of a night, and when he  
looks out upon the physical changes  
of his habitat, affected by man's rest-  
less activity, Time's great magician,  
that dream is as wonderful as a fairy  
tale. Sixty-eight years ago, which  
looked upon this patch of earth cov-
