

Don't Avoid Corns But Don't Keep Them

With dainty footwear, corns can hardly be avoided. But they matter little when you know the way to end them. As soon as a corn starts, attach a Blue-jay and forget it. The corn will never pain. In two days, if it is a new corn, it will disappear. Some times old corns need a second application. It is almost as simple as removing a dirt spot. Blue-jay is applied in a jiffy. It fits the toe like a glove. When you remove it—

How Blue-jay Acts

B is the B&B wax, which gently underlines the corn. Usually it takes only 48 hours to end the corn completely. C is rubber adhesive which sticks to the corn and makes the plaster snug and comfortable. Blue-jay is applied in a jiffy. After this, one doesn't feel the corn. The corn is gone. So the corn disappears without surgery.

Hot Water Each Morning Puts Roses in Your Cheeks

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incalculable material in the form of ash, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which is eliminated, from toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body. If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon rising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material, toxins and poisons from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach. Girls and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, and others who are bothered with aches, bilious spells, acid stomach or constipation should begin this phosphate hot water drinking and are assured of very pronounced results in one or two weeks. Limestone phosphate costs very little at the drug store, but is sufficient to demonstrate that just as soap and hot water cleanse the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal cleanliness is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do. Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.

Doctors Stand Amazed at Power of Bon-Opto to Make Weak Eyes Strong—According to Dr. Lewis

Guaranteed to Strengthen Eyesight 50 Per Cent
In One Week's Time In Many Instances

A Free Prescription You Can Have Filled and Use at Home. Philadelphia, Pa. — Victims of eye strain and other eye weaknesses, and those who wear glasses, will be glad to know that according to Dr. Lewis there is a real hope and help for them. Many of these eyes were failing say they have had their eyes restored by this remarkable prescription, and many who once wore glasses say they have thrown them away. One man says, after using it: "I was almost blind. Could not see to read at all. Now I can read everything without my glasses and my eyes do not hurt any more. At night they would burn dreadfully. Now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can read even fine print without glasses." Another who used it says: "I was bothered with eye strain caused by overwork, tired eyes which induced severe headaches. I have worn glasses for several years both for distance and work, and without them I could not read by own name on an envelope or the printing on the machine before me. I can do both now and have discarded my long distance glasses altogether. I can count the fluttering leaves on the trees across the street now, which for several years have looked like a dim blur to me. I cannot express my joy at what it has done for me." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitude more will

be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by the use of this prescription. Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and let it dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clearing up perceptibly right from the start and inflammation and redness will quickly disappear. If your eyes bother you even a little it is your duty to take steps to save them now before it is too late. Many hopelessly blind might have saved their sight if they had cared for their eyes in time. Note—Another prominent physician to whom the above article was submitted, said: "Yes, the Bon-Opto prescription is truly a wonderful eye remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. I have used it very successfully in my own practice on patients whose eyes were strained through overwork or misfit glasses. I can highly recommend it in every case of eye weakness, aching, smarting, itching, burning eyes, red lids, blurred vision or for eyes inflamed from exposure to smoke, sun, dust or wind. It is one of the very few preparations I feel should be kept on hand for regular use in almost every family." Bon-Opto, referred to above, is not a patent medicine or a secret remedy. It is an ethical preparation, the formula being printed on the package. The manufacturers guarantee it to strengthen eyesight 50 per cent in one week's time in many instances or to refund the money. It can be obtained from any good druggist and is sold in this city by the Standard Drug Co., W. T. Strogg

RED CROSS SOCIETY EXPRESSES THANKS FOR CONTRIBUTIONS

Grateful to Stanley Meredith Company.

\$600 GIVEN TO BYRON

Patriotic Players Have Raised \$3,100 Since the War Commenced.

In appreciation of the recent contributions raised through the medium of entertainments provided by his company, Stanley Meredith, has received the following letter which is self explanatory:

"Dear Mr. Meredith.—The London branch of the Canadian Red Cross Society again desire to convey to you their most hearty thanks for your splendid gift of six hundred dollars (\$600), to the Hospital for Tuberculous Soldiers at Byron. They feel that it is difficult to express in words their gratitude for your very successful efforts to help in this deserving object, and they trust you will derive much happiness in thinking of the comforts you are giving these men who have given up much for us. With renewed thanks. Yours sincerely,

JOAN PATTERSON,
Hon. Cor. Secretary.
This is the second contribution made to Byron Sanatorium by Mr. Meredith and company, making in all \$900. Since the company started their work on the 1st of January, 1916, \$3,100, which has been distributed to various forms of Canadian and British war relief has been raised.

PTE. GEORGE LAING WHO FELL IN ACTION IN RECENT FIGHTING

HAD BRONCHITIS FOR THREE YEARS

COULD GET NO RELIEF

Bronchitis is generally the result of a cold caused by exposure to wet and inclement weather. It begins with tightness across the chest, difficulty in breathing, and a wheezing sound comes from the lungs. There is also a raising of phlegm from the lungs, especially in the morning. This is at first white, but later becomes a greenish or yellowish color, and is occasionally streaked with blood. On the first sign of bronchitis by using Dr. Wood's Norway Pine Syrup, and thereby prevent it becoming chronic and perhaps turning into some more serious lung trouble. Mr. Theodore P. Beers, Upper Main River, N. B., writes: "I was troubled with bronchitis for three years and could get no relief. I was always worse when I got wet. I tried lots of different medicines, but none did me good until a friend told me to try Dr. Wood's Norway Pine Syrup. I got three bottles and before I had them half used I was better. My mother is now using it for asthma. It is a great medicine and we never want to be without it." Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper; three pine trees on the trade mark; price 25c and 50c; manufactured only by The T. Millburn Company, Limited, Toronto, Ont.

ANTI-WAR PARTY OF U. S. REJOICES AT LANSLOWNE OUTBURST, WHILE LEADING NEWSPAPERS CONDEMN IT

New York World Declares Unionist Leader Could Not Have More Adroitly Timed Me ssage If He Desired To Comfort Russian Bolsheviks Or Embarrass Inter-Allied Conference.

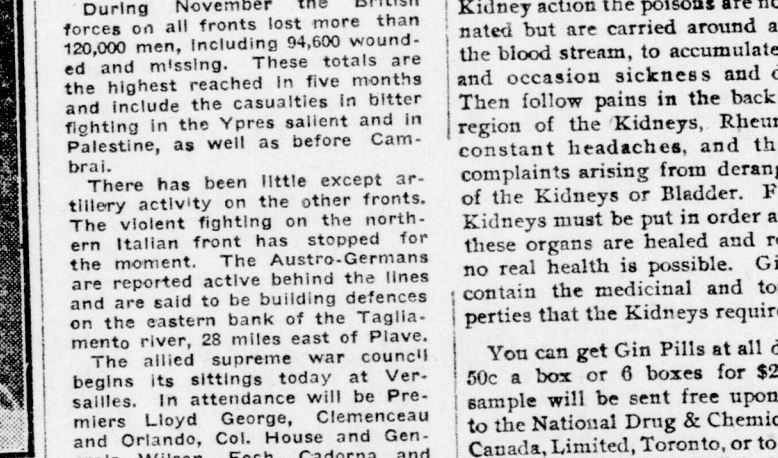

New York, Dec. 1.—Leading editorials in all of the New York papers this morning leave no room for doubt that the Marquis of Lansdowne's letter to the London Daily Telegraph has created an exceedingly unfavorable impression on the editorial mind of New York.

The New York World publishes a cartoon depicting John Bull, standing beneath the Union Jack confronted by the Marquis of Lansdowne, who holds in his hands the white flag of surrender, and in an editorial under the caption, "Lansdowne's Surrender," says in part: "Nothing could be more inopportune than the Marquis of Lansdowne's letter demanding a re-statement of the Allies' war aims and a further attempt on their part to bring about peace before the prolongation of the war leads to the ruin of the civilized world." "If Lord Lansdowne had desired to give the largest possible measure of comfort to the Russian Bolsheviks who are now negotiating with the Kaiser for a separate peace, or had coldly determined to do whatever lay in his power to embarrass the inter-allied conference now in session in Paris, his letter could not have been more adroitly timed."

THE WAR SITUATION

German troops are making a strong effort to wipe out the salient which the British drove through the Hindenburg line toward Cambrai. Violent attacks have been hurled against the British lines all around the salient from Modureux to Gonnelleux, a front of 18 miles, but except near Gonnelleux the Germans have been repulsed with heavy losses. Crown Prince Rupprecht evidently purposed to make amends for his defeat by crushing the new salient with attacks all along the front, and with especially strong efforts at the northern and southern ends, with the apparent plan of driving north and south and cutting off the British east of a line from the Somme to the west of Cambrai. The German attack was crushed by artillery and machine gun fire and heavy losses were inflicted. The British struck on the southern flank brought initial gains, the British being driven back to La Vaquelette and Gonnelleux, and west-southwest of Gonnelleux respectively. In counter-attacks the British regained La Vaquelette and Gonnelleux, and the enemy from the ridge east of Gonnelleux. At other points between Manieres and Villers-Guislain the Austro-Germans made no impression on the British defences.

During November the British forces on all fronts lost more than 200,000 men, including 94,600 wounded and missing. These totals are the highest reached in five months and include the casualties in bitter fighting in the Ypres salient and in Palestine, as well as before Cambrai. There has been little except artillery activity on the other fronts. The violent fighting on the northern Italian front has stopped for the moment. The Austro-Germans are reported active behind the lines and are said to be building defences on the eastern bank of the Tagliamento river, 28 miles east of Pavia. The allied supreme war council begins its sittings today at Versailles. In attendance will be Premiers Lloyd George, Clemenceau, Orlando, Col. House and Generals Wilson, Foch, Cadorna and Bliss. The other inter-allied conference committee meeting in secret sessions. M. Maklakoff, the Russian ambassador to France, who sits in the conference as an unofficial observer, has been dismissed by the

HALLAM'S FUR COATS AND SETS

Why it is Cheaper to Buy BY MAIL

Every intelligent man or woman desires to buy at the lowest possible price, considering quality.

No matter where you live in Canada, you can buy your furs by mail through Hallam's "Direct from Trapper to You" at the same price as any one else, and cheaper than elsewhere. The reasons are many: There is no high store rent to pay; there are no sales clerks to pay; there are no retailers or jobbers to profit for you to pay; there are no bad accounts to be made up.

All this means a big saving, of which you receive the benefit. You are sure of satisfaction when buying by mail from Hallam's—because of Hallam's guarantee "to satisfy you or your money back." You are the sole judge.

We are compelled to give you extra good value for our own safety, because no mail order house can afford to have goods returned.

The two illustrations here tell about some very attractive Hallam bargains.

Many people have the idea that theatrical people are bound up entirely in their own profession, which leaves them no time or inclination for patriotic work. Yesterday's incident would prove that this is not the case, at least sometimes.

YOUTHFUL TRAVELERS HAD 30c CAPITAL

Galt Boys Came to London With Scanty "Expenses."

Three boys, whose homes are in Galt, appeared in police court today on charges of vagrancy. Each admitted he had run away from home and stolen a ride on the C. P. R. to this city. The entire party had 30 cents when arrested. Magistrate Graydon remanded them for a week in order that their parents might be communicated with an arrangements made for taking them home.

One drunk sat in the prisoners' dock. When his name was called he yawned. He was awarded \$10 and costs or ten days, arose slowly and said "Guilty."
