HEAVY SENTENCE.

For Common Assault George Roach Gets Four Years in the Penitentiary.

Mr. Justice MacMahon on Saturday morning sentenced the prisoners convicted at the Criminal Assizes just completed. The most important sentences were those imposed on Dr. Hamilton and Police Constable Bustard, who had been found guilty of attempting to commit a criminal operation on Mary Jane McNally. His Lordship imposed a sentence of two years and six months in the penitentiary on Dr. Hamilton, and three years on Bustard.

George Roach, who was found guilty of common assault, was given four years in the penitentiary. In passing sentence His Lordship said he was no use to himself, his family or the community. No doubt his previous convictions had a good deal to do with the heavy sentence imposed.

Thomas Guardhouse was sent to jail for 30 days for stealing an overcoat.

A HUNTSMAN'S SUICIDE.

While Alone in the Bush William Fournier Shot Himself Dead.

Pentecost, Que., May 8.—William Fournier, aged 21, who has been hunting in the woods since last January, with a younger brother, committed suicide a few days ago. It seems his brother noticed he was acting strangely and decided on leaving him and seeking the help of Fournier senior. The father, accompanied by two sons, went to William's assistance, but found him dead in his tent, with a bullet hole in his head. It appears that he fell down a precipice and pierced his face with a sharp branch of a tree, and finding himself alone and weak from the loss of blood took his own life. Fournier always bore a good character and was the sole support of a family of 13.

Burglars at Trenton.

Trenton, Ont., May 8.—This morning about 2.30 o'clock, people living in the vicinity of the Central Ontario Station were awakened by a heavy explosion, followed shortly by another. This morning it was discovered that burglars had forced an entrance into the C. O. R. Station and had blown open the safe. The safe was a complete wreck. Fortunately there was but a small amount of money in it. No trace of the burglars have been discovered yet.

Bronchitis Cured.

Messrs. T. Milburn & Co., Toronto, Ont.:

Dear Sirs,—I have used Haggard's Yellow Oil for my children when they had bronchitis, and always with great success. I use it also for sore throat, and can say there is nothing to equal it as a sure cure.

Toronto Railway is Weaker—Speculation on Wall-Street Dull With Prices Generally Steady—A Large Decrease in Reserve of New York Banks—Sterling Exchange Ruled Firm—Provisions Inactive at Chicago—Local Receipts of Produce Small—Latest Commercial Miscellany.

Saturday Evening, May 8.

Liverpool wheat futures unchanged.

Cash wheat in Chicago 1⅜c higher at 73¼c.

July wheat on curb 72⅛c.

Puts on July wheat 71c; calls 73⅜c.

Puts on July corn 24⅞c; calls 24⅞c.

At Toledo clover seed closed at $4.45 for October.

Exports of wheat from the Argentine this week were 24,000 bushels.

Cattle receipts at Chicago to-day 200; market quiet. Sheep 1500; market steady.

Estimated receipts of hogs at Chicago to-day were 15,000; official Friday 22,065; left over 2000; estimated for Monday 38,000. Market steady; heavy shippers $3.50 to $3.92½.

Hog packing in Chicago from opening of the season to date 914,000, as against 1,014,000 the corresponding period of last year.

Exports at New York to-day: Flour 3675 barrels and 3640 sacks; wheat 17,293 bushels.

Car receipts of grain at Chicago to-day: Wheat 4, corn 203, oats 249.

English farmers' deliveries of wheat the past week were 67,100 qrs, and the average price 28s 4d.

Receipts of wheat at Minneapolis and Duluth to-day 285 cars, as against 351 cars the corresponding day of last year.

Exports of wheat from both coasts of the United States and Canada this week (flour included as wheat) amount to 1,799,322 bushels, as compared with 1,155,000 bushels last week and 1,882,000 bushels in the week a year ago, 2,805,000 bushels two years ago, and 2,815,000 bushels three years ago.

A decidedly bullish factor in wheat is the eagerness with which foreigners take hold. They bought all day, basing their operations on the unfavorable outlook for crops in France and Russia. The California prospects were also unfavorable, the yield there being estimated at two-thirds of last year's. These reports were backed by good buying orders. St. Louis sent buying orders, and also reports of damage in Missouri and Kansas from chinch bugs. The Ohio crop report was brought out to do service again, the condition being 80, a decline of four points, but was 30 points from the condition last year.

THE MONETARY SITUATION.

Henry Clews writes as follows: Wall street was disappointed at the Senate's rejection of the Anglo-American Arbitration Treaty. That result had been very generally expected, and the event therefore had no effect upon prices; it was, nevertheless, deeply regretted, as the loss of an opportunity for cementing friendly relations between the two countries, and for encouraging a more unreserved confidence in American enterprises among the investing community of Great Britain.

Considering that England holds probably $1,500,000,000 of our securities and takes nearly one-half of our exports of merchandise, this rejection of a treaty of amity cannot be regarded, from a business standpoint, as anything short of a grave public misfortune, the effects of which may be hereafter felt in many unseen ways. At the same time, it would be wrong to the American people to assume that as a nation we sympathize with this perverse decision. The Senate has, for its own reasons, taken the responsibility of defying the best opinion of the country; and, under a variety of sham pretenses, it has shown that it is out of harmony with the humane and friendly civilization of the Republic and fails to comprehend its international interests.

The export movement in gold has re-acted to more moderate dimensions. The shipments for the week have amounted to only $2,600,000. Rates for foreign exchange are easier, the demand for bills having slackened, while there has been an improvement in the supply. At the same time, the current imports of merchandise at this port are upon a very large scale. For last week, the total arrivals of goods were valued at $14,700,000, against $8,200,000 for the corresponding period of 1896. So far as these imports may have been bought subject to "cash" payment—which under the present unusual conditions, has become to some extent a temporary rule—they naturally tend to bring about shipments of gold.

TIPS FROM WALL-STREET.

The market closed dull and steady.

There is no doubt a big row going on between Gould and Russell Sage. Gould is getting tired, and is selling Sage's stocks.

The most active stocks to-day were: Sugar 11,600 shares, St. Paul 4200, W.U. 5,600, Jersey Central 1500, N.Q. 2200, Mo.P. 1200, Burlington 4000, Omaha 2200, Chicago Gas 19,100, N. Y. Gas 1100, Tobacco 1200, Leather, pref., 700.

McIntyre & Wardwell (John J. Dixon) received the following despatch from New York to-day:

Chicago Gas was the feature of the market and declined on heavy sales by a commission house that has lately been a large buyer. There was no news to account for the change of position. There was considerable selling also of Western Union and Sugar. It is generally believed that the reports of dissensions between Gould and Sage have some foundation and there is a growing sentiment against the Senate sugar schedule. The market was dull at the close and the general list without material change on the day's trading. The week's trade reports, while indicating slight gains in activity in some sections, notably in the districts where recent floods have subsided, give rather poor showing on the status of business through the country. Iron and steel prices are still declining and delay and uncertainty about the tariff have a restrictive influence on many industries. Clearings for the week increased over 4 per cent., and gross earnings of 84 roads for the fourth week of April are 4 per cent. larger. The figures of 60 roads for the fourth week of April gain 4½ per cent. Exchange firm at $4.87½.

CHICAGO GOSSIP.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from Chicago:

When the trading began to-day the weather was the one great bear argument, although there was no free selling. St. Louis was buying here through Grier and others. Barrett was buying. Bartlett Frasier had brokers trying to buy. As soon as wheat was really wanted the trade had none for sale except at advanced figures. New York began to send bull news and cables showed a decided change in the situation abroad. Bull leaders took courage and took wheat. Commission people got buying orders. Of course the shorts were buying all the way up. The Liverpool cables were quiet and unchanged. St. Louis sent a lot of messages about chinch bugs, especially in Missouri. San Francisco despatch stated: "No rain predicted, winds and dry weather continues. Conservative estimate of damage now placed at two-thirds basis, yield of 1896 late-sown grain total failure." The trading is commencing to wake up to the fact that a week of beautiful spring sunshine cannot obliterate legitimate conditions, and they are also beginning to realize that a prospective big spring wheat crop cannot supply immediate wants or fill depleted stocks. Cables received here reporting Russian wheat crop in very bad condition. The top was reached at 72⅝c for July option, an advance of 2⅛c from last night's closing. The crowd had sold too much wheat recently on fine weather reports. The sudden improvement in the export demand caught the trade short. We think another bulge has got well started in July wheat.

Corn and Oats—Opened steady around last night's prices and quickly rallied ¼c to ⅜c, in sympathy with higher prices of wheat. The volume of trade was only fair, local operators doing the bulk of the buying. Cash demand more brisk. Receipts were 203 cars corn and 249 cars oats.

Provisions—The speculative market for hog products ruled strong to a shade better early, but very dull and inactive. Trade moderate. Packers bought pork and ribs. Professionals sold on strong spots. Receipts of hogs were liberal, 15,000, with 38,000 hogs estimated for Monday. The market closed easy at about last night's closing prices.

McIntyre & Wardwell (John J. Dixon) received the following despatch from Chicago to-day:

Wheat—The advance in wheat to-day seemed mainly to result from the persistent claim of deterioration in condition of winter wheat, and the expectation that the Government report will show a decline of five points as compared with April report. Aside from the condition of the crop, situation of wheat seems to be very strong, and indications are that there will be important drains on stocks at all points of accumulation before the next crop moves. The visible supply will decrease about 2,000,000 bushels Monday, it is quite probable that it will continue to decrease heavily for weeks to come. The sentiment is growing decidedly bullish, but, in our judgment, there does not seem to be much of a long interest, traders as a rule are taking small profits, and until they have more confidence in their position, it is probable that there will be many sharp reactions from the advance. Cable advices were steady to firm and brought some buying orders to-day. We think wheat should be bought on soft places for the present.

Corn and Oats—There was an easier feeling at the opening of corn, although wheat was higher, but offerings were not heavy. Same class of buyers as appeared yesterday took most of the offerings in sympathy with the strength of wheat. Prices advanced ¼c. In oats there was a dull speculative market, with a firm undertone. Some buying of July against cash sales and charters made on new business for 50,000 bushels.

Provisions—Opened steady on buying by John Cudahy's brokers. Market ruled dull all day and closes easy at about the lowest prices of the day. Estimated hogs for Monday 32,000, next week 150,000.

S. Ackerman, Commercial Traveler, Belleville, writes: "Some years ago I used Dr. Thomas' Eclectric Oil for inflammatory Rheumatism, and three bottles effected a complete cure. I was the whole of one summer unable to move without crutches, and every movement caused excruciating pains. I am now out on the road and exposed to all kinds of weather, but have never been troubled with rheumatism since. I, however, keep a bottle of Dr. Thomas' Oil on hand, and I always recommend it to others as it did so much for me." ed

Summer Furs

May not be just seasonable to talk furs, but it's sensible when you have the pick from so many handsome garments as we have in rich and costly furs, selling at summer clearing prices. The styles are right for next season. At present we are anticipating next season's demand, and our workpeople are busy getting ready for it. Many a cool evening during the outing season when a fur-lined wrap—a caperine—a cape—a ruff or a collarette—will not be amiss, and the prices we are getting for such are about all the argument you need why now is a good time to select.

No better time than now to have fur alterations made.
