Wool, Yarns, Hides, Calfskins and Sheeping orders appeared at every slight re-ection, which indicated a healthy market condition

Practically all the stock put on the market was abscribed. Big buying orders were received from New York, Chicago and many large American centres. The American traders seem to be wide awake to the possibilities of our north country and seem to be willing to take large blocks of stocks.

In the Porcupine issues Dome Ex-tension and Dome Lake were strong features, while of the Cobalts, Beaver, Timiskaming, Peterson Lake and Seneca were the chief stocks of interest Apex was strong, selling up to 9 3-4 and reacting at the close to 9. There seemed to be large blocks of the stock wanted at the latter price. The strength of this stock was due to re-

Dome Extension was strong and ac tive with over 13,000 shares changing hands during the day. It opened at 38 1-2, one-half point up from the pre-vious close; sold down to 37 1-2 and rallied at the close to 38. This stock is giving clear indications of becoming a market leader on the next market movement. It is reported that a large block of the stock changed hands on the street at a higher price than that in the market. The price is said to be taking considerable interest in the movement of Dome Extension. Big Dome closed at \$28.25.

For Hollinger \$29 was bid, but no stock was forthcoming at this price and no trades were made thru the day. Jupiter opened fractionally lower than the close of the day before, sold up to 22 and lost 1-2 point again, closing at 21 1-2. There was a big demand for Jupiter on all reactions.

MONTREAL, Jan. 7.-Canadian Car, after several days of heavy trading and wide movements, relapsed into dulness here today, and with this dulness the one feature of recent business was eliminated.
