

to warrant the Association in yearly seeking a continuance of the grant, and the record of the Team just returned is again so creditable that the Association may well anticipate the same generous provision for the coming year. The Prize Return herewith submitted shows the Province to have won the highest prize of the competition—the Governor General's Prize of \$250 for the best aggregate score in His Excellency's Match; the Team Aggregate Challenge Cup for teams from affiliated Associations presented by Lord Lansdowne on his departure from Canada; five places in the Governor General's Sixty; two places on the Wimbledon Team, and money prizes to the amount of \$772.

Canada was represented at the Wimbledon competitions by the usual team of twenty men, and, though not meeting with any special success, the members did well in the ordinary matches. Our New Brunswick members were Lieutenant E. A. Smith, Sergeant H. Miner, and Sergeant W. H. Adams; the shooting of the former, both in practice and at Wimbledon, being such as to secure him a place on the Kolapore Eight against the Home Country.

The accounts of the Secretary-Treasurer are presented herewith, showing a slight increase in the balance to the credit of the Association, now amounting to \$276.

The proceedings of last year, and the shooting of the several County Associations, were printed in the usual pamphlet form, with the desirable addition of the minutes of the Annual and Council Meetings.

Respectfully submitted,

JOHN H. PARKS, Major,

President.
