IN PRAISE OF SETTLEMENT
Mr. Albert J. Macdonald, Manager, Agency Union Mutual Life Ins. Co., St. John, N. B.

I desire to thank you, on behalf of Mrs. Katherine Barry, for the very prompt settlement of claim under policy No. 177462 on the life of her late husband, Michael Barry.

For my own part, I must say I fully appreciate the business methods of your company as being particularly prompt and conducted without any real tie. I believe your company to be one of the oldest and best, and can heartily recommend it.

Yours truly,
(Signed)

"PULL" LENGTHENS PIERS.
(Engineering News)

The fairway in the North River opposite the piers of the Hamburg-American line in Hoboken was given in 1911 as something over 4000 ft. Since that time, piers on either side of the river have been extended 100 ft. each, so that the fairway is now about 5200 ft. An investigation prior to 1911 showed that the shoalings of that day manœuvring 1500 tons of cargo into the river required a minimum of 1300 ft. Since that time, the transatlantic ships have increased in length nearly 500 ft. It is fair to assume that the required fairway for the ships, which probably increased at a greater rate than the increase in length, is at least 1600 ft. Obviously, under these conditions, two of the large ships on opposite sides of the river could not negotiate at the same time without serious danger to themselves.

Regularly every few years the United States army engineers in charge of the harbors and rivers around New York City recommended to their superiors in the department of war at Washington that the encroachment of steamship piers upon the navigation channel of the North River be finally and definitely restricted. But invariably the pressure brought to bear upon the department by the business and political influence of New York City has resulted in a so-called "temporary" permission to extend the piers a hundred or more feet out into the steadily narrowing channel.

Up to the present time, the "temporary" permits have not differed in any way from a permanent permit that is, they still exist and there seems to be no effort being made to end their existence, and the direct and indirect opposition to all sane engineering advice which the steamship and political authorities in New York City persist, has been eminently successful.

86 Pages of Personal Advice
Free to Any Man

MY DEAR READER:

In the handsomely printed little book or private pocket compendium for men (containing 8,000 words and 40 half-tone photo-reproductions) which I publish and gladly forward by mail, free, sealed to any man anywhere in the world who sends me the coupon below. I have included certain parts that contain some very important advice or suggestions of a strictly private nature which, I believe, cannot be found in any of the Private Hygienic books for men that are now sold at high prices all over the country. It will thus be seen I have endeavored, through the medium of my free book, to give my readers absolutely free of cost really MORE, in some respects, than others offer, and make a large charge for. All you have to do to get this free book of mine is to use the coupon below, or if in my neighborhood, I extend an invitation to you to call at my office, 245 Waterloo Street, St. John, N. B., and I will be glad to send you a copy absolutely free of cost. I have no obligation on your part, and there is nothing whatever for you to buy in any way, unless you should decide at some time in the future that you would like to try one of my mechanical VITALIZERS (described below), but that rests with yourself. Over a million of these little free books have now been sent to men who wrote for them, as I want you to do, and who live in all quarters of the globe. I publish this free book in English, Swedish, Danish, Finnish, German, French and Polish, but I always send the English edition, of course, unless otherwise stated. Kindly use the little coupon.

SANDEN, AUTHOR.

In reference to my strength, I believe it is now more generally acknowledged than ever before that the man in the world, a truth which any of us can easily verify if we but look about with impartial eyes.

As a matter of fact, the man who is debilitated, unstrung and enervated cannot, for perfectly obvious reasons, expect to approach these real and unmasterful attainments which seem but so natural and easy accomplishments for him whose nerve force, brain power and manly strength are perfectly normal. Hence, while we acknowledge the debilitated, weakened man to be handicapped in every walk of life where real manhood counts, yet it would indeed be cruel of me to here state the fact in public print were I not of the honest opinion that there is every hope for the unmanly man to restore himself to a state of health and vigor, if he but clear his mind of abnormal fear, and then make a fair, square effort to redeem himself.

There are two specimens of humanity for which I have no earthly use. One is the man who, though now strong and vital, yet plunges into dis-

Manly, Vigorous Men Rule the World

stipation and excess with the certain knowledge of his unsavory fate. The other is the man, who, though knowledgeably debilitated and enervated, makes no effort to get away from his life of dissipation and wrong practices. As a matter of fact, there is no hope for either of these unfortunate. But for him who acknowledges his errors, who may come to me and say, "I have paid the penalty of my past follies, but I am debilitated, and my life of dissipation and I am going to make a manly effort to restore myself to such a man, I care not what his physical condition may be. I can say in all truthfulness, "You, my friend, are on the right road to new strength and vigor," and he really is, and there is no doubt about it.

I make a little appliance that I call a VITALIZER, which I designed to aid just such men who seek manly strength. I am now offering this VITALIZER here for sale, but I must suggest that you, reader, take the opportunity to learn all about what this little appliance is doing today everywhere throughout the world; then, if in the future you want to see one yourself and will so write me, I will gladly make some liberal proposition whereby you may have one to try. The VITALIZER is fully described in one section of the free book which the coupon below entitles you to.

The VITALIZER is made up in a very light form, weighing only several ounces, and you wear it on your body all night. It generates a great, soft, pleasant force which I call VIGOR, and which flows in a continuous stream into your nerves, organs, blood and muscles while you sleep. I am satisfied in my own mind that I have access to a great POWER in this little VITALIZER which in the future will be more relied upon all over the world in the treatment of debilities and nerve weakness.

With special attachments which carry the FORCE of the VITALIZER to any part of the body, it may be used by women as well as men for the treatment of rheumatism, kidney, liver, stomach, bladder disorders, nervousness, lack of energy, etc. Therefore, please send for the book today, or, if you happen to live in or near this city, I should be very happy to see you in person. Office hours 9 to 5.

WHAT THE FREE BOOK TEACHES YOU

The little free illustrated book of special private information referred to above, is meant really to be a self guide for all men through the years before and after marriage and onward to a ripe old age. It is written in perfectly plain language, entirely free from technical terms, so that any one may easily grasp the full power of its good advice from two or three careful readings. It attempts to point out a safe road to new manhood on new manly strength, and as such is dedicated to mankind generally. One part of this book fully describes my little VITALIZER referred to above.

Remember, as soon as the coupon below is received I agree to forward to you one copy of this illustrated booklet, absolutely free of charge and in a plain, sealed envelope, so that it will come to you privately, just as you receive any sealed mail.

A Three Month's Trip Abroad

Suppose you sail a week from today. The first thing you think about—the first thing you discuss with your wife—the first thing you do—is to provide ample funds from which wife and family can meet household expenses while you are away. Other matters might claim your attention, but family affairs would receive special consideration.

Sooner or later—maybe suddenly—you will sail out into the unknown—start on that journey from which no traveller returns. Now, man to man, are you satisfied with the provision you have made for the support of your wife and kiddies after you're gone?

Sit down now and write us to explain how an Imperial Accelerative Endowment policy will meet your family's expenses in case anything should happen to you; and how it will provide an income to support yourself in comfort should you live to old age. We'll send the information by return mail.
