Tory Lie to Fool the Fishermen

It is impossible to deal with all the falsehoods circulated by Conservatives to deceive the people. Here is one sample. The Standard this morning quotes a Freeport, N. S., fish dealer as follows:— "Why, with Reciprocity we are giving American fishermen the very chance they have been looking for. The Canadian fishermen cannot hope to contend with the vast number of fishermen who at present have to be content with American waters."

ECHOES OF THE GREAT CAMPAIGN

BORDEN'S TRIO OF MISFITS. "I have my revenge in seeing Mr. Bourassa flanked on one side by Mr. Sifton, whom he detests, but to complete matters, flanked by Joe Martin on the other side, and that is the most humiliating more than Sifton it is Joe Martin."—Sir Wilfrid Laurier.

ALL'S WELL IN ONTARIO. "Prospects in Ontario were never brighter. Reciprocity is daily growing in popularity, and the swing of the pendulum of public sentiment is right with the government. This is growing stronger every day. From every part of the province reports of the most satisfactory and encouraging character."—Hon. Mr. Graham.

WHAT'S HAPPENED SINCE JANUARY. On January 27, they after Mr. Fielding announced the terms of the agreement, the Toronto News, which is now the chief advocate of the high tariff party, said:—"We recognize that it is very difficult for Canada to reject." If that was the case then, what has altered since?

WHAT A KEEN OBSERVER SEES. A personal letter written by a non-partisan and astute Ottawa man, now travelling in the maritime provinces, to an Ottawa lawyer, reads as follows:—"It is simply marvellous how reciprocity has galvanised the people into new hope and business optimism. I do not think that Nova Scotia will return a single Conservative to have spoken to men who were Tory voters, but who plainly tell me that, while they are still Tory, they will vote for reciprocity, and will increase their business at sea."

WILL BRING PAPER MILLS. At the Laurier meeting in Sherbrooke, F. N. McCrae stated that after the duty on pulp of \$1.00 had been removed by the United States in September, 1909, the Brompton Pulp and Paper Company, with which he was connected, got the amount of duty going into the United States treasury. Business had increased so much that it had been necessary to make a great extension to the mill, and the new machinery put in had meant more money for the very manufacturers who were now crying out against reciprocity.

TAKE THE CASE OF FLAX SEED. (Ottawa Free Press). Is there any wonder that the farmers of the west are looking forward to the passage of the reciprocity bill? For instance, last year there were exported from Fort William and Port Arthur 1,000,000 bushels of flax seed, upon every bushel of which a duty of 25 cents was collected by the United States.

THE TIMES' NEW REPORTER

AMONG THE PATRIOTS. "There's too many!" yelled the other. "Seize the flag!" roared the Exalted Patriot. "There's too many!" was again the answer. "If Sifton or Foster be heard from," demanded the Exalted Patriot. "Foster is at Armstrong's Corner with his horse, and Sifton is at Woodstock with the Brandon Rough Riders."

HERE'S A REAL HOME TEST OF WHAT TRADE FACT WILL ACCOMPLISH

Carleton County Farmer, With Only Rail Fence Separating Him From Larger Markets, Gives Striking Illustration of Benefit Reciprocity Will Bring our Farmers—Increased Prosperity, More Land Under Cultivation

With only a rail fence separating him from the United States—the boundary between Carleton county and the State of Maine being the dividing line between his farm and that of an American farmer—T. H. Barker, of Lesterville, Carleton county, knows whereof he speaks when he says that under the reciprocity agreement the New Brunswick farmer will be greatly benefited. "I think that the Liberal party with reciprocity as the issue will carry Carleton county," Mr. Barker said to a Times reporter, "this morning, and I don't see any logical reason why it shouldn't. There are many Conservatives who are going to vote for it and for Mr. Carvell, but I know a few who are making a great mistake by clinging to party principles who are afraid to let their private feelings prevail, because their party is opposing the

Clifford Sifton Then and Now

(Hon. Sydney Fisher) "Not long ago Mr. Ames came around these parts with a magic lantern and showed up the awful record of Mr. Clifford Sifton, whom he painted as a boodler and grafter of the worst type. But today, Mr. Ames and Mr. Sifton are working hand in glove to defeat reciprocity, and are spending their time in admiration of each other's fine qualities. The Tory party are pointing with pride to three great men, Bourassa, Sifton and McBride, yet not one of these dare present himself to the electors and seek election. We are winning. Our prospects were never brighter, and I expect to see the party return to power with an unparalleled majority."
