## THE SEMI-WEEKLY SUN

ST. JOHN, N. B., JULY 14, 1900.

The visit of the dominion live stock commissioner to this province should be taken advantage of by farmers generally to increase their knowledge of the methods by which Ontario has made such a notable advance in that particular line of agricultural industry. It is the deliberately expressed opinion of many persons who ought to know, that this province can produce beef as cheaply as it is done in Ontario. We know as a matter of fact that some of the beef shown in our market is quite as good as the average Ontario article brought here, but the quantity which compares struggle in the Orange Free State, and favorably is very small. One cannot when Gen. De Wet's force is captured, go into the country market and ex- as it must soon be, Lord Roberts will amine the New Brunswick beef shown | be able to concentrate all the British there without feeling that a great armies for the subjugation of the change is necessary. The need of Transvaal. The Boers are welcome to such change is emphasised by the what little successes they can in the fact that the Ontario beef brings from meantime achieve.

two to three cents per pound more than most of the New Brunswick beef. This province can produce oats and

root crops in abundance, and has fine pasturage. If by improving the breeds of cattle, and paying more attention to scientific methods of feeding, our farmers can produce beef for our own market and produce a surplus for export, the question becomes one of vast importance. We are told that united effort on the part of Ontario breeders accounts chiefly for their success.

that would be expected to mark him as possible choice of the convention Comparatively unknown, he went there, and with a single speech, that expressed in burning words what many had thought but could not so well express, he swept the convention off its feet and secured the nomination.

Not only that, but he carried on a remarkable campaign and polled a remarkable vote. He was defeated or the silver issue, but his followers did

not lose faith. They have nominated him again, on practically the same platform. By one who knows him well, Mr. Bryan is described as a thor oughly sincere and strong minded man, who easily wins the respect even of those who most strenuously oppos his political views.

A BOER SUCCESS.

Like a bolt from a cloudless sky

comes Lord Roberts's report to the war office that the Boers had captured Nitrals Nek and bagged the British gar-

rison, consisting of a squadron of the Scots Greys, a battery of the royal STOCK RAISING. artillery and some ninety men of the

Lincolnshire regiment. The casualties were heavy. Nitrals Nek, as Lord Roberts explains, is about 18 miles from Pretoria, and was held to maintain road and telegraphic comunication with Rustenburg. The effect of this British reverse will be to encourage the Transvaalers to prolong their resistance, but beyond that it can have no great results. It is to be expected that in operations covering such a large area, the invading force will here and there find the defenders too much for them. The capture of Bethlehem a few days ago means the ending of the

The Dominion Commissioner Told of the

**Results** Obtained in Ontario by Organized Effort-Other Addresses.

F. W. Hodson, dominion commissioner of live stock, is in the province on a tour of inspection. On Tuesday, at the board of trade, he gave an admirable address upon the results of united effort in Ontario. There were present, among others: D. J. Mc-Laughlin, Hon. C. H. Labillois, Hon. A. T. Dunn, J. A. Bowes, W. A. Quinton, Dr. J. Berryman, W. W. Hubbard, James Manchester, G. Knott, J. Dean, Dr. Frink, Allan Schofield, T. H. Hall, R. R. Patchell, C. A. Everett, Dr. Gilchrist, J. M. Donovan, S. Creighton, B. Mullin, Rev. Ira Smith, E. B. Elderkin, R. Robertson, Col. Markham, Mayor Daniel, S. Golding, W. A. Jack. D. J. McLaughlin acted as chairman. The first speaker called on was Hon

C. H. Labillois. He, on behalf of the government, welcomed Mr. Hodson to the province. It was a very important thing to encourage the movement in which Mr. Hodson is engaged, and he would find the provincial government

matter before the government. Hon. C. H. Labillois said that C. Percy O'Donnell, Insurance Broker Etc. Premier Tweedle has asked Mr. Hodin Trouble, son to appear before the executive and lay before them any plans he might have for the betterment of the Chief of Police O'Sullivan of Halifax condition of live stock raising, and telegraphed Chief of Police Clark of other agricultural interests of the prothis city on Tuesday night asking him to arrest C. Percy O'Donnell, who has vince been doing a brokerage business in Short addresses were given by Hon. this city, for theft, stating that a war-A. T. Dunn and Mayor Daniel, after which a vote of thanks to Mr. Hodson rant had been issued for his arrest. was moved by Dr. J. Berryman and Detective Ring found O'Donnell in his seconded by Mr. Dunn. Mr. Hodson office in the Walker building, Canterresponded briefly. bury street, yesterday afternoon and escorted him to the police station.

## DR SPROULE, B. A. A ROYAL ENGINEER.

DEAR DOCTOR:-This is to certify that by your two treatments I am again restored to health. I made a mistake in thinking that I could cure myself by advertised and patent remedies. Not knowing what was the matter I thought I had dyspepsia and tried nearly every remedy for that painful disease. Of course I cidn't cure myself, as the real trouble was Catarrh of the Stomach. And this I know, that if I had not got the benefit of your great experience when I did I would not be writing you of my restored health and my gratitude to you. The whole cause of my trouble is gone and my neighbors all say how well I look. I think that when you can cure a man seventy-six years old as quickly and thor-oughly as you did me, you can do almost arything. I believe that you have lengthened my days, and may your life be long spared to be what you now are. I will enswer any letters of inquiry as to my trouble. You may make use of this letter as you please. Yours faithfully. MA. F. SMITH, late of Her Majesty's Royal Engineers, Sappers and Miners. Mr. Smith, has since moved all the way from Port Hammond, British Columbia, to Wetmore, State of Pennsylvania, U. S. A., where he now resides and may be addreesed. **PERMANENTLY CURED OF CATARRH OF STOMACH AND LIVER.** 

PERMANENTLY CURED OF CATARRH OF STOMACH AND LIVER.

With Mrs. McKnight die Catarrh had principally injured the stomach and liver. As a result she was nearly always constipated, felt intolerably sleepy in the daytime, was rervous, often dizzy and suffered from pains in her stomach. Her feet were cold, yet she had hot flashes. She was easily tired, felt blue and generally miserable. She was under treatment with Dr. Sproule only a month. Yet six months later she wrote him: DEAR DOCTOR:-

write to tell you I fell fine now. I have not felt sleepy since taking your medi I write to tell you I fell fine now. I have not felt sleepy since taking your medi-cines. And my food does not hurt me. I can say, as I could not last spring, my health is good. Until this year I had colds all the time in winter. But this winter I have not had a cold, and I think I can say from the bottom of my heart. it is the healthiest winter I have had for ten years. Well I know you are a kind and true doctor, and one who thinks of those he treats. I know and feel that you saved my life. I was sick and down-hearted and sad, and only you as a doctor has helped me. I have doctored a good lot in my life, but only got help for a short time. Now it is six months since I took your treatment and I have gained S pounds. I think it is my duty to do all that I can for you as a doctor in helping others and I am ready to recommend you to all who ask about you. I am willing you should use my name as a testimonial, and I will answer anybody that wants to write to me. I shall be glad to tell them all about how sick and miserable I was when I first wrote you. I remain your friend, MRS. WILLIAM T. McKNIGHT, Waterford, N. B.

SUGGESTIVE QUESTIONS. (For written and oral answers.)

prepared to support him in every way in order to assist the farmers of the province. Mr. Hodson, introduced by the chair-

man, said that the maritime provinces hould be great live stock producers. Roots and oats are raised here easily, and grass is green the whole summer around. The last is an advantage that Ontario does not possess, where cattle must be fed the whole year around. The importance of stock raising may be shown from the fact

that five-sixths of the products of the farm go toward stock feeding. Turning then to the main subject of his address, the results obtained in Ontario by organized effort, Mr. Hodson referred first to the live stock associations' branch. These associations have secured cheap transportation rates for pure bred stock and have ren-

dered valuable assistance in obtaining a reduction of quarantine regulations between Canada and the United States. They have taken a controlling interest in the provincial fat stock show, which paid in 1899 \$5,500 in prizes. Lists of stock for sale by members of the association have been there has been added a list of stock bought and sold. A valuable department in this list is the farm help exchange. The large number of applications received each week shows the

amount of interest taken in this. The work of the Farmers' Institute branch has grown greatly. The paid up membership now being 16,808. Last gear there were neld 677 meetings. These institutes bring to the very door of the farmer the men who have been

most successful in the several branches of agricultural science, and en able him to reap the advantage of their years of experience. The efforts of the dairy associations contributed in no small degree to the steady development of the cheese and butter industry. In 1891 the produc of Ontario cheese factories was 82 mil lion pounds, in 1898 it was 128,116,000 pounds. The butter industry has in-

creased to just as great, if not great-Union among Ontario breeders is the reason why so much good work has

been done in that line. Many of the schemes which have proved successful in Ontario could with profit be introduced in other provinces, with modifications to meet local conditions. E. B. Elderkin, being called on at the clese of Mr. Hodson's address, said

that the feeling had gotten abroad that the maritime provinces could not compete with Ontario. He did not believe this at all. There was not a single product forwarded through this

port but what the province could raise, and raise vell. R. Robertson of the Experimental Farm, Nappan, was glad to know that he was not alone in saving that we could grow beef and roots, and produce butter and cheese just as cheaply as in Ontario. Speaking of good and bad beef stock, he said that there was at the least a difference of one cent a pound in the market value. The live stock interest can do more to make the province prosperous than anything else. Dr. Frink asked if it were Mr. Hod-

son's intention, after his tour of the province, to formulate some scheme and lay it before the provincial government Mr. Hodson replied that he would

P. E. ISLAND.

The Liberal Candidate Has About Two Hundred Majority Over Wise.

Majority for Mr. Wise, 134.

Mr. Wise was first elected in 1886. on which occasion he and the late Donald McKay each received 952 votes. A special return being macie, the seat was awarded to Mr. Wise by order of the judge. At the election of 1890 Mr. Wise was defeated by Mr. McKay, the vote standing: McKay, 923; Wise, 919. In 1893 Mr. Wise had a majority of 102 over Mr. McKay.

NOVA SCOTIANS DROWNED.

Notice to Subscribers. travelling in New Bruns-

ROCKLAND, Me., July 10.-Schr. Fred Gower, which put in at this port today, re-ports that on Sunday night, when she was 65 miles southeast of Cape Sable, in a thick fog, she ran into the fishing schr. Mary Story, cutting the latter in half, so that she sank inside of three minutes. The captain and crew of the Gower made every effort possible to save the fitteeu-men who made up the crew of the Story, but in spite of all that could be done, the following three men were drowned: Chas. Sears, steward, 50 years old, Wood Harbor, N. S., leaves a widow and children; Angus Sears, nephew of the former, 23 years, Wood Harbor, N. S., leaves a widow; John H. Wagner, West Ber-lin, N. S., leaves a widow. The other twelve men were rescued and brought to this port on the Gower. Capitan Nathan Burrows of the lost vessel reports that the conduct of the crew of the Gower was heroic in the extreme. The mate went down, with a rope tied around him, several times, and thus saved the lives of several of the men. The Mary Story was owned by George and

the men. The Mary Story was owned by George and Copps Sayward of Gloucester, and was val-ued at \$2,000, carrying a fare valued at \$1,000. The Gower suffered a few hundred dollars' damage. The captain of the Story resided at Southport, Maine. IN NOVA SC L. M. Curren in land County, N S. like to discuss his plans with the Live

O'Donnell has been doing business here under the name of O'Donnell & Co. An officer is now on the way from Halifax with the warrant. HALIFAX, July 11 .- Some time ago C. Percy O'Donnell of this city crened a broker's office here, and he was appointed a sub-agent of the New York Life Insurance Co. He also voted as effected several policies. Haight &

Co. not long ago entered proceedings premiums. He was examined before Commissioner Morrison and was sentenced to ten months' imprisonment on a charge of fraud. He was not present when sentence was given, having left the city before the proceedings were finished. O'Donnell was arrested in St. John today on another charge. A Mrs. Murray had a warrant issued charging that O'Donnell had obtained from her a premium and had not paid
