buried sun! Let all worlds wail at the stupendous obsequies. Of course this withdrawal of the solar light and heat throws our earth into a universal chill, and the tropics become the temperate, and the temperate becomes the temperate, and the temperate becomes the Arctic, and there are frozen rivers and frozen lakes and frozen oceans. From Arctic to Antarctic regions the inhabi-tants gather in toward the center and find the equator at the poles. The slain forests are piled up into a great bonfire, and around them gather the shivering villages and cities. The wealth of the ooal mines is hastily poured into the furnaces and stirred into race of combusfurnaces and stirred into rage of combustion, but soon the bonfires begin to lower, and the furnaces begin to go out, and the nations begin to die. Cotopaxi, Vesu-vius, Etna, Stromboli, California geysers, cease to smoke, and the ice of hallstorms remains unmelted in their crater. All the lowers have breathed their last breath. Ships with sailors frozen at the mast, helmsmen frozen at the wheel, and engers frozen in the cabin, all nations dying, first at the north and then at the south. Child frosted and dead in the cradle. Oetogenarian frosted and dead at the hearth. Workmen with frozen hand on the hammer and frozen foot on the

they mean. That is what they will have if they can. I say, if they can. Civiliza-tion hurled back into semi-barbarism and very depths of degradation almost to the skies. If that lifting power be with-drawn, she falls clear back to the depth from which she was resurrected, not go-ing any lower, because there is no lower depth. And yet, notwithstanding the fact that the only salvation of woman from degradation and woe is the Christian the dark ages. The clock of the centuries put back 2,000 years. Go back, you Sandwich Islands, from your schools and from your colleges and from your reformed condition to what you were in 1820, when the missionaries first came. Call home the 500 missionaries from India and Christianity-I have read that there are women who reject Christianity. I make no emark in regard to those persons. In the silence of your own soul make your home the 500 missionaries from India and overthrow their 2,000 schools, where they are trying to educate the heathen, and scatter the 100,000 little children that they have gathered out of barbarism into If infidelity triumph and Christianity

be overthrown, it means the demoraliza-tion of society. The one idea in the Bible Washington, May 14.—Rev. Dr. Tal-mage fhis morning preached from the itext, Acts ii, 20, "The sun shall be turned into darkness." He said: Christianity is the rising sun of our time, and men have tried with the un-rolling varours of shortiers and the solution. Take away the idea of retribution and punishment from society, and it will begin very soon to disintegrate and take away from the minds of men the fear of hell, and there Christianity is the rising sun of our time, and men have tried with the un-rolling vapors of skepticism and the smoke of their blasphemy to turn the sun into darkness. Suppose the archangels of malice and horror should be let loose a little while and be allowed to extinguish and destroy the sun in the natural heaand destroy the sun in the natural hea-rvens! They would take the oceans from other worlds and pour them on the lum-inary of the planetary system, and the waters go hissing down amid the ravines waters go hissing down amid the ravines fearing nothing of the consequences of sin in the next world, and I have made up and the caverns, and there is explosion after explosion, until there are only a few peaks of fire left in the sun, and these are cooling down and going out until the vast continents of flame are reduced to a mail acreage of fire, and that whitens and cools off until there are only a few coals left, and these are whitening and going out until there is not a spark left in all the mountains of ashes and the valleys of ashes and the chasms of ashes. An extinguished sun! A Oh, my friends, there has never been such a nefarious plot on earth as that which infidelity and atheism have plan-ned. We were shocked a few years ago because of the attempt to blow up the Parliament Houses in London, but if infidelity and atheism succeed in their night the neighbors got up to put the windows down because they could not

I would not want to see a rail train with 500 Christian people on board go down through a drawbridge into a watery grave; I would not want to see 500 Chris-tian people go into such disaster, but I tell you plainly that I could more easily see that than I could for any protracted time stand and see an infidel die, though time stand and see an innucl de, should his pillow were of eider down and under a canopy of vermilion. I have never been able to brace up my nerves for such a spectacle. There is something at such a time so indescribable in the countenance. time so indescribable in the countenance. I just looked in upon it for a minute or two, but the clutch of his fist was so dia-bolic and the strength of his voice was so unnatural I could not endure it. "There is no hell, there is no hell, there is no hell!" the man had said for 60 years, but that night when I looked in the dying room of my infidel neighbor there was room of my infidel neighbor there was something on his countenance which seemed to say, "There is, there is, there is, there is!" How far toward this latter condition that I speak of would woman go if Christian influences were withdrawn and Christian-ity were destroyed? It is only a question of dynamics. If an object be lifted to a dertain point and not fastened there and the lifting power be withdrawn how and "Down forever! Down out of sight! He is not God. He has no right to sit there. Down with him! Down with Christ!" certain point and not fastened shere and the lifting power be withdrawn, how long before that object will fall down to the boint from which it started? A thousand voices come up to me this hour, saying: "Do you really think infidelity will succeed? Has Christianity received its deathblow? and will the Bible become obsolete?" Yes, when the smoke of the city chimney arrests and destroys the noonday sun. Josephus says about the time of the destruction of Jerusalem the sun was turned into darkness, but only the clouds rolled between the sun and the earth. The sun went right on. It is the same sun, the same luminary as when at the beginning it shot out like an electric spark from God's finger, and an electric spirr from Got singer, and to-day it is gliding the sea, and to-day it is filling the earth with its light. The same old sun, not at all wornout, though its light steps 190,000,000 miles a second, light steps 190,000,000 miles a second, though its pulsations are 450,000,000,000, 000 undulations in a second. At the beginning God said: "Let there be light," and light was, and light is, and light shall be. So Christianity is rolling on, and it is going to warm all orticate and all pations are to bask in nations, and all nations are to bask in its light. Men may shut the window blinds so they cannot see it, or they may smoke the pipe of speculation until they are shadowed under their own vaporing, but the Lord God is a sun!
