

The Semi-Weekly Telegraph.

VOL. XXXVIII.

ST. JOHN, N. B., SATURDAY, NOVEMBER 25, 1899

NO. 21.

BOTH HAVE ADVANCED.

The Boers in Natal, and the British in the Orange Free State.

Boers Said to Be Preparing for an Attack on Pietermaritzburg—Gen. Methuen Has Certainly Started for the Relief of Kimberley.

LONDON, Nov. 22-5 a. m.—The announcement from Durban that communication with Estcourt is interrupted seems to confirm the belief that a Boer commando has established itself at Willow Grange or near the Mool River, and has cut the telegraph wires. It is certain that, owing to the heavy work of debarkation and entrenching at Durban, the preparations for the advance of the relief force are in no wise so advanced as had been supposed. On the other hand the celebrity with which troops are being pushed forward from Cape Town daily tends to show that all such preparations aggregating forage and provisions were already well advanced before the troops arrived in Cape Town.

THE KIMBERLEY COLUMN

Commanded by General Gatacre—The Advance to be Made at Onco. CAPE TOWN, Nov. 21—Gen. Gatacre commanding the British column assembling at Queenstown, Cape Colony, told the troops here today that the regulars should watch and learn from the irregulars who were acquainted with the country and the habits of the Boers. Once the foremost advance should be made there could be no question of stopping it, and he asked all to do their best, adding: "I will never see you to do anything I am not willing to do myself."

BOMBARDMENT DOES NOT HURT.

Report from Ladysmith Says the Effect is Trifling. DURBAN, Nov. 21—The government has received the following advice from Col. Royston, commander of the volunteers at Ladysmith, under date of November 16: "All the volunteers and police are well, and there are plentiful supplies for men and horses. All was quiet yesterday (Wednesday), and the same condition exists this morning. There has been no further bombardment, and the effects hitherto have been trifling. We are anxious for news from the south."

Some Boers Who Will Not Fight.

DURBAN, Nov. 21—The Natal Witness says: "The German farmers in the Greytown District have rejected the Boer ultimatum to swear allegiance or to quit their farms, and have defied the Boers to oust them from their homesteads."

Children should always increase in weight.

Not to grow, not to increase in flesh, belongs to old age. Present and future health demands that this increase in weight should be steady and never failing.

To delicate children, Scott's Emulsion brings richer blood and firmer flesh. Better color comes to the cheeks and stronger muscles to the limbs. The gain in weight is substantial, it comes to stay.

SCOTT & BOWNE, Chemists, Toronto.

Boers captured the messenger, but finally allowed him to proceed. It is reported that the Natal police have captured a number of Transvaal despatch riders. Joubert's Cutting off Estcourt. In his latest report General Joubert says: "I am cutting off the retreat of the Boer troops to Pietermaritzburg, and driving them back on the Tugela river." It is also reported that the Boer commander, who has been in Ladysmith, has "comprehensively surveyed the different points from which the fall of Ladysmith can be insured, and that the Boer commander, who is outside Mafeking, reports heavy fighting Monday afternoon. The British briefly fired on the French cannons and Boer forts. The Boers replied, bombarding the British forts with good effect. The loss of the British is unknown. One Boer was wounded.

A Modest Return to.

The official returns of the Transvaal casualties since the outbreak of the war show 80 men have been killed and 200 wounded, of whom a number have recovered and returned to the front.

THE TUGELA.

Interesting Information on the South African War. NEW YORK, Nov. 22—The war for which Lord Salisbury opened the way and cleared the ground by a secret understanding with the German emperor has reached the transition stage between a Dutch attack, thwarted by the successful defense of Ladysmith, Mafeking and Kimberley, and British offensive operations, now opening on a larger scale, says the London correspondent of the Tribune. While the facts of the military situation in Lower Natal are generally concealed, it is plain that Clery will have in the course of a few days a force of 17,000 or 18,000 troops, including the naval brigade and the battalions which were on the ground before reinforcements began to arrive at Durban. These will include three brigades of the 1st, 2nd and 3rd divisions and the 2nd Somerset Light Infantry, which in Cape Town yesterday. Both Clery and Hildyard have been connected with the staff college, and are considered among the best tacticians in the British army. They have been great favorites with Lord Wolseley, and understand the minutest details of military tactics and strategy as they apply to the field.

BOER MAUDAERS

Have Given Up the Capture of Ladysmith and are Raiding in Bands. NEW YORK, Nov. 22—A special cable to the Herald says: "The eyes of the strategists are now fixed on the territory lying between Orange River, De Aar Junction, Queenstown and Allwal North. Here, it is believed, will be fought the first battle on Gen. Buller's line of campaign. Reference to the map and the latest despatches will show that the British have blocked the Boer advance along this line, and a few days are expected to bring news of the start of the movement to hold the invaders' headquarters. The Boers are in force north of Hopetown and Orange River, but the British force at the latter place prevents a further advance in that direction. The Boers are also in Coleraberg, but the British block the way south at Newburg. The invaders at Beyerbush stand near Stormberg Junction, are held in check by General Gatacre's division at Queenstown. Some experts believe that Gatacre's first move will be to recapture Stormberg. According to the latest intelligence the forces in the field are situated and numbered as follows:—

IN NATAL.

British—General Clery, with 11,000 troops of the army corps, the greatest number of whom have arrived. The Boer relief local forces and the naval brigade total about thirteen thousand men. Boers—General Joubert, if he has really left Ladysmith, cannot have less than fifteen thousand to eighteen thousand men. At Ladysmith he has probably left ten thousand men.

IN CENTRAL CAPE COLONY.

British—General Gatacre, with five thousand men, is to advance from East London, clearing the Boers out of Stormberg Junction, Barchersdorp and Allwal North. Boers—Commander Gatacre amounts to about two thousand to twenty-four hundred men, are reported in this section. ON WESTERN FRONTIER. British—General Lord Methuen, with a force which is probably about fourteen thousand strong, is to advance from De Aar and the Orange River Bridge upon Kimberley. Boers—About Kimberley the Boers have six thousand men. The Kimberley garrison, about two thousand strong, has to be reckoned with. It is reported that the Boers are in a strong position near the Modder River here. It is expected that General Methuen's column will meet with stiff opposition in its advance.

THE BOER DESPATCHES.

They Breathe More Confidence Than Their Record Justifies. PRETORIA, Nov. 21—The following despatch has been received from the Boer headquarters near Ladysmith: "The cornets of the Pretoria commando reported that British gun carriages and some horsemen had been heard moving last night in Ladysmith. Our outposts observed the British endeavoring to force toward Lombard's Kop and Engwama Hill, where our Maxim's opened fire. The range was too great and therefore our artillery began shelling, which drove the British back. At daybreak the British batteries fired upon our positions. Two burghers were wounded. It is supposed that the object of the sorties was to relieve the Estcourt force, who had sent an urgent message to Ladysmith, requesting aid. The Bur-

has taken an important step to the hope of hastening the close of the war. He is said to have charged Mr. Sauer, the minister of public works, to set in touch with the Free State forces in an endeavor to arrange that the Boers should apply for an armistice. The ostensible object of Mr. Sauer's trip is to induce his commitments at Allwal North to remain passive. Boer regulations of men and supplies proceed briskly on the northern border of Cape Colony, but Gen. Gatacre hopes soon to be in a position to push the Free State back within their own borders. The re-occupation of Maswepoort by the British is the first step in this direction, but strong forces of Boers are laagered at Olesberg, and threatens a further immediate advance from there.

The Boer Despatches.

Various officials of the British admiralty have been followed by representatives of the Associated Press regarding the London Daily Chronicle's had been received a single complaint as to the quality of food furnished transports. The chief of the victualling department said: "We bought in the United States all beef and pork, packed in casks, commonly known as sea salt hams, the same as served in all the navies of the world for years past. We have not so far heard a word against this form of food, and judging from the health of the men in the United States navy during the war with Spain, it must have agreed pretty well with them. We have yet to learn that the provisions purchased in the United States are not all as represented, and though investigating the allegations we have no reason to suppose we will discontinue purchasing in the United States when circumstances demand outside resources."

LONDON DAILY MAIL

Has a Despatch Indicating a Movement by Methuen. LONDON, Nov. 23—The Daily Mail says this morning: "We are able to confirm the report that orders have been issued to mobilize a sixth division at Aldershot for service in South Africa or wherever it may be wanted." The Daily Mail publishes a despatch from Newburg, dated Wednesday, which says that a large force under Gen. Methuen has crossed the Orange River and is advancing to the relief of Kimberley.

LONDON DAILY NEWS.

Report the Boers Will Attack Pietermaritzburg. LONDON, Nov. 22—The Daily News has the following from Pietermaritzburg under Wednesday's date: "Your correspondent managed to escape from the Mool river district yesterday before the arrival of six thousand Boer warriors, looking the part of a full-scale invasion. The main body of the Boers made a rapid march from a point, southwest of Estcourt to the railway, in a single day. They are within 40 miles of Pietermaritzburg at the present, and it is said that they intend to attack the town."

AN ENGLISH WOMAN'S PLUCK.

LONDON, Nov. 22—The correspondent to the Mail cables from Cape Town under date of Nov. 10, as follows: "A remarkable instance of woman's pluck is reported from Ladysmith, the chief town of the native reserve near the Free State border. When the Boers entered the town they went to the post office with the intention of taking possession of it. They were met by a woman, who not only declined to turn over the office to them, but ordered them off the premises. The Boers were nonplussed by the lady, who refused to be intimidated, but outside and hoisted the Free State flag. The postmistress pulled it down and ran to the ladies' aid. The Boers then put up the governor's proclamation annexing the district. The Boers finally retired. The last accounts from Ladysmith state that the heroic woman is still in possession of the post office. Free State Barkers are gradually advancing on Barkley East."

Defences of Ladysmith.

It would be ridiculous in the extreme, writes a correspondent of the London Mail, to pretend that Ladysmith is impregnable. It is nothing of the sort. To the west of the town there is a fine level plain, in which is the camp. The opening of the foothills stretching afar from the Drakensberg Mountains. The Sand River joins on the west leading across Van Rensselaer's Pass to Harrismith. River and Dewdrop Spruit, or stream, intersect the plateau, and the Klip and Sand Rivers join on the east leading across Van Rensselaer's Pass to Harrismith. There is little water in any of these rivers save after a thunderstorm. During the summer months storms are pretty frequent and for at least a few weeks in January they may be expected with almost clockwork regularity between four and five o'clock every afternoon. They usually last for an hour or less. Though the downpour is verily tropical for the time, the hot sun soon dries up the moisture and the soil is parched and thirsty again by the next day. On the east of Ladysmith there are several hills which are of some importance. The Imbalwans, for instance, is dignified by the name of a mountain, but this is gross flattery; Lombard's Kop is an eminence within four miles of the town and six of the camp. Kopje (a hillock) is the district of kop, a hill. Scattered about the wild on this side of the town are many kopjes, covered with stones and capable of making excellent cover for the Boer, who, however, could be and evidently have been dislodged by heavy naval guns.

STUDY FARMING

As people study other callings and you will succeed. The cheapest and best text book to use is a progressive agricultural paper; not one that tells you what an OHIO or an ONTARIO Farmer should do to make money, but one that tells what MARITIME farmers should do and are doing to make the farm pay. The CO-OPERATIVE FARMER fills the bill. Enlarged to 20 pages, with a neat colored cover, issued twice a week, \$1.00 a year. Special rates to clubs. Free sample copies on application.
