mistake as long as eternity. If during a revival two persons present themselves as candidates for the church and the one is 10 years the of age and the other is 40 years of long before they will come? There is age, I will have more confidence in a man who says 500 years. Here is some one more confident who says 10 years of age than the one 40 years of age. Why? The one who professes at 40 years of age has 40 years of impulse in the wrong di-rection to correct, and the child has tion of human life at the end of the only ten years in the wrong direc-tion to correct. Four times 10 are length of Pennsylvania avenue, 40. Four times the religious pros-pect for the lad that comes into the way, New York. tude into eternal safety. In other words, I believe in revivals. The great work of saving men began with 3,000 people joining the church in one day, and it will close with forty or a hundred million people saved in twenty-four hours when nations shall be born in a day. But there are objections to revivals. Peo ple are opposed to them because the net might get broken, and if by the pressure of souls it does not get broken, then they take their own penknives and slit the net. "They en-closed a great multitude of fishes, and the net brake.' It is sometimes opposed to reviv-

als of religion that those who come into the church at such times do not hold out. As long as there is a gal of blessing they have their sails But as soon as strong winds stop blowing then they drop into a dead calm. But what are the facts in the case? In all our churches the vast majority of the useful people are those who are brought in under great awakenings, and they hold out. Who

great awakenings. I have noticed that those who ar brought into the kingdom of God through revivals have more persistence and more determination in the Christian life than those who come in under a low state of religion. People born in an i.ehouse may live, but they will never get over the cold they caught in the icehouse. A cannon ball depends upon the impuls shall go, and how swiftly, and the greater the revival force with which a soul is started the more far-reach-ing and far resounding will be the

execution. But it is sometimes objected to revivals that there is so much excite-ment that people mistake hysteria for religion. We admit that in every revival of religion there is either a suppressed or a demonstrated excite-ment. Indeed, if a man can go out of a state of condemnation into a state of acceptance with God or see fourth storey of a house on fire and felt no acceleration of the pulses. hell into life and peace and heaven forever is such a tremendons thing that if a man tells me that he can look on it without any agitation I doubt his Christianity. The fact is that sometimes excitement is the but were mistaken. As Thomas chancers said, he had been many or freezing the one idea is to excite animation. Before conversion we are dead. It is the business of the church to revive, arouse, awaken, re-suscitate, startle into life. Excite-ment is bad or good according to wheat it wakes us do. If it wakes us do.

And who speaketh against the Holy Ghost, says the Bible, he shall never be forgiven, neither in this world nor in the world to come.
