NOVA SCOTIA GIRL WHO CHANGED HER MIND AND WAS SORRY FOR IT

Her Intended Had Bought Her Bridal Outfit, But She Was Persuaded Not to Marry Him.

When the Would-be Groom Returned the The settlement of the northwest will mean Changed Her Mind Again, But the Man Wouldn't --- There Will Be No Breach of

Annapolis, N. S., March 25—A case where true love does not always run smooth occurred in this vicinity recently.

A youthful swain and blushing damsel, hailing from the romantic snades of the bay shore, who had for a long period enjoyed the pleasures of courtship, at last lave their termin at Canadian ports. Several lines are now proposed for crossing the continent. As there is a large amount of unproductive country between the east and the swain, in his youthful ardor, proceeded to several of the mercantile establishments and purchased a suitable outfit for his lady love to wear on the bridal day.

I see that a London paper expresses its regret that we are drawing people from the English agricultural districts. These are the kind of people we want.

"The question of transportation in Canadian ports. Several lines are now proposed for crossing the continent. As there is a large amount of unproductive country between the east and the west, these railways will claim government assistance to enable them to build, but it is an understood thing that such railways must pass through Canadian territory and have their ports in Canada.

I see that a London paper expresses its regret that we are drawing people from the English agricultural districts. These are the kind of people we want.

"The question of transportation in Canadian ports. Several lines are now proposed for crossing the continent. As there is a large and the west, these railways will claim government assistance to enable them to build, but it is an understood thing that such railways must pass through Canadian territory and have their ports in Canada.

"In conclusion, I must thank the house for the courtesy with which I have a certain amount of the have a certain amount of the have a certain amount."

Mr Tweeddale.

Mr. Tweeddale.

Mr. Tweeddale, in seconding the motion for the adoption of the adoption of the adoption of the adoption of the

to wear on the bridal day.

The damsel, who was formerly connected with the Salvation Army, before going home, had an interview with the captain, who, it is said, discuaded her from marrying, and she so informed her betrothed.

The would be groom being of a business

an action for breach of promise.

HON. H. A. MCKEOWN

Sweeney, of Westmorland, becomes a member of the government without port-folio. Hon. Mr. McKeown left for Ottamember of the government without portfolio. Hon. Mr. McKeown left for Ottawa tonight with a delegation, which goes to the capital to protest against the passage of the bill to incorporate the Winding Ladges Dam Company. Before he left he was the recipient of many hearty congratulations upon his acceptance of a portfolio, an honor which it is generally felt he has long merited and which it generally will be acknowledged he was surely entitled to, in view of his past services and the signal manner in which he was honored by his constituency in the recent elections, when he led the poll in St. John.

The selection of Mr. Sweeney to succeed the Hon. Geo. F. Hill is regarded as a most fortunate one. Mr. Sweeney is an able man, and, as in Mr. McKeown's case, we the Liberal party has in him a sterling representative in the government.

Speak favorably of the mineral develoption. In the province. I believe that there is a great future for our minerals. The prospects of coal mining are excellent, and our oil wells in Westimorland have gone beyond the experimental stage. These minerals will yield a large revenue to the growince in the course of time, and the government should be commended for what they have done to develop them.

The reference to the king's coronation is one that will meet with a hearty response. However we may differ politically, we are as one in our loyalty. Most of us are the descendants of loyalists, and we have lived under the late queen's reign so long that her noble life and character have impressed themselves so deeply that loyalty has become a part of our nature. Our feelings of loyalty to the mother have been transferred to the son. When last year he was stricken down on the course of time, and the statesmen of Canada young men in the course sponse. However we may differ politically the province in the course of time, and the statesmen of Canada young men in the course province in the course of time, and the statesmen of Canada young men in the course province in the course of time, and the sta

He tells about the cure in the following words: "I cannot recommend Doan's Kidney Pills too highly. I never took anything that did me so much good. I had a severe pain in the small of my back and could scarcely get up or down without help. I could hardly urinate, but when I did the pain was terrible. I was in the Hotel Dieu, Kingston, last winter and when I came out I was some better but not cured. It was then I saw Doan's Kidney Pills advertised. Since taking them I have been completely cured and have not had any trouble with my kidneys since." He tells about the cure in the following Doan's Kidney Pills, 50 cts. per box or

Our Prosperity Here to Stay. "I am glad to be able to join in the

congratulations on the prosperity of Canada and New Brunswick. There can be Outfit and Got His Money Back, the Girl great things for the dominion, and par-

who, it is said, dissuaded her from marrying, and she so informed her betrothed.

The would-be groom, being of a business turn, and having in his possession the rigout intended for her to grace the occasion, came to town the following day and returned the goods to the merchants from whom he purchased them, receiving back the amount paid therefor.

The maiden, seeing how matters stood, repented of her hasty action and informed her lover that she was willing for the ceremony to proceed. But the swain, not wanting to be fooled again, and fearing that others might again interfere, has withdrawn from his engagement; and intends seeking another maiden, not so fickle, to grace his home.

It is understood that there will not be the product of 40 butter factories and 55 cheese factories, all of which had been assisted by the provincial government. Dairyang is an industry that ought to be engouraged. In 1897 this province exported no butter whatever. Last year we exported \$88.000 worth. All this had of \$341,000. This butter and cheese was ported \$88,000 worth. All this had a beneficial effect on the manufacturing of

Court of Canada, and probably the contention of New Brunswick will be upheld. Employers' Liability Act

"The afforestation of our crown lands, which is referred to in the speech, is a matter of great importance, and I am glad that it has attracted the attention of the government.

The employers' liability act is in the line

of progressive legislation.

"It is pleasing to know that an arrangement has been made with the New runswick Railway Company for the set tlement of a portion of their lands. I know that these lands are valuable for the purpose of settlement, and if there is any way of getting control of them, it should

passed this year. There can be only one opinion as to the need of them, and the that the work will be well done. No doubt this matter will take up the atten-I see that a London paper expresses its tion of the members to a considerable ex

"One proof of the prosperity of the do-minion is the fact that its securities com-mand a higher price than Brush consols of the forest and field being now greater "The policy of the government in awak-ening and encouraging and assisting the as well as in the breeds and quality of stock, and the advantages resulting there-

beneficial effect on the manufacturing butter for domestic use.

"The government has established 22 purchase or exchange of a portion of those last year 453,000 bushels of wheat were grown. That was also a benefit to be a member of this house, and assist the province.

"The importance of the successful carrying out of this scheme is best understood by those who realize its necessity. The great question that has engaged the best statesmen of Canada is how to keep our young men in the country, and let me say here, the young men of New Brunswick are today its most valuable asset, and we want them for our country's development. They are good men, they have the constitution, brains, pluck and sagacity, and will forge to the front ranks wherever you drop them down in the world. The secret of retaining the young men in the country can be solved in a great measure country can be solved in a great measure by throwing open fertile tracts of land that are easy of access, and it would be surprising how rapidly they would be taken up and converted into valuable and comfortable homes.

comfortable homes.

"In conclusion, and apart from what is contained in the speech and lest the gent-lemen opposite should take credit for originating the scheme, I would suggest that the government, either by itself or in co-operation with the federal government, establish a system of cold storage through-

so,000 a year in interest saved. I timis that we should all be unanimous in take matter and strengthen the hands of the provincial government.

Larger Grant from the Dominion.

"In regard to hetter terms for the provincial government was the least thing discussed on the hustings. In scarcely a since, it seems to be only just that we should receive an increased subsidy. An present our separate from the dominion government is a fixed sum, which can be increased, no matter how prosper the country may be. On the other hands the revenue of the dominion government should make the a larger grant, so that our necessary services may not suffer.

"New Brunswick's claim is for an additional sum of \$130,000 a year, and this is a matter in which I also think we should alsand together. The question of the revenue at the two receivable of the country of Northumberland, the provincial government will be successful in its contention that we should alsand together. The question of the revenue and the save province in parliament is a register of the content of the stream of the province in parliament as a very important one, and I trust that the provincial government will be successful in its contention that we should and together. The contention of the remaining the province of Canada, and that the provincial parliament is that the word Canada in the Ebritish North America act, means the four original provinces of Canada, and that the provincial parliament is that the word canada in the effect of the strength o
