

PRINCE LOUIS' VISIT; PROGRAMME ARRANGED

Sends Regret That He Cannot Attend Unveiling of South African Tablet

Officers and Men from Warships Will Be There--Details of Plans for the Prince's Entertainment Here.

His Serene Highness Prince Louis of Battenberg, accompanied by his flag lieutenant, will arrive in this city from Halifax on Thursday morning next on the 6.20 train.

The prince will immediately proceed to the warships, which are expected here at an early hour the same morning. During the afternoon Lieutenant-Governor Snowball and Mayor White will pay their respects to Prince Louis, and the visit will be returned by him. At noon he will be entertained at luncheon in the Union Club by Mayor White and in the afternoon it is expected he will be the guest of Governor Snowball at a drive about the city and suburbs.

The warships will leave for the city on Monday morning. There will be a military demonstration of whatever kind in connection with the visit of the prince. It is alone requested that the military of St. John who may attend the reception appear in uniform.

The committee which has in hand the ball and reception met yesterday morning in St. Andrew's rink and decided to have the floor repaired and made suitable for dancing. A covering of linen will be stretched over it and waxed, making an excellent surface. Dressing rooms will be provided, and the supper room will be suitably decorated.

The Artillery band will be stationed in the domestic science booth, and opposite them, over the Old Colonial Days booth, will be an illuminated sign of welcome.

Prince Louis has expressed his regret that he will be unable to be in St. John on Sunday, when the South African memorial will be unveiled in Trinity church.

It is expected, however, that there will be a large naval and military turnout. Officers and sailors from the warships, and members of the local corps will be in attendance. Orders will be issued in connection with the unveiling by Col. G. Holt White, D. O. C.

MARITIME EXPRESS KILLS CHATHAM POLICEMAN

Chatham, N. B., Oct. 22--(Special)--Martin Foley met his death in a very tragic way last night. He left here to spend Sunday at Barnaby Junction with his family and at Chatham Junction, in company with John Quilly, station agent at Barnaby River, went on a hand car and they started down the L. C. R. track for home, a distance of four miles.

They were run down by the Maritime Express and Foley, who was sitting with his back to the engine, was thrown under the train and killed, his body being terribly mutilated. Quilly was injured, but not fatally.

The deceased was a son of the late Martin Foley of Barnaby River and had been a policeman here for several years. He was aged thirty-three years and leaves a wife and two young children.

Chatham, N. B., Oct. 21--William Purcell, an employee of the Miramichi Paper Company's mill, was killed this morning while going to his work. He was walking along the track when he was overtaken by the engine belonging to the mill, knocked down and dragged about twelve feet. He lived only about three minutes after being rescued. Mr. Purcell was about fifty-eight years old and leaves a wife, a son and a daughter.

An inquest was held and a verdict of accidental death, no blame being attached to anybody.

Can All Be Cured By the Use of Dr. Williams' Pink Pills. More than half the diseases in the world are caused by bad blood--weak blood, blood poisoned by impurities. Bad blood is the one cause of all the head aches and backaches, the lumbago and rheumatism, the neuralgia and sciatica, the debility and biliousness and indigestion, the paleness and pimples and the skin eruptions and various diseases like eczema, that show how impure the blood actually is. It is no use trying a different medicine for each disease, because they all spring from the one cause--bad blood. To cure disease you must get right down to the root of the trouble--the blood. That is what Dr. Williams' Pink Pills do. They make new, pure, abundant blood. Dr. Williams' Pink Pills are the cause of the cure in the majority of cases. The only way to get the cure is to use the common medicine. Here is a positive proof: "I suffered long from indigestion," says Mr. J. C. Williams, of St. John, N. B. "I had no appetite for my meals and no energy for my work; my stomach caused me constant distress, and everything I ate lay like a leaden burden. I was always dreading, but it did me no good. Then I took Dr. Williams' Pink Pills and my appetite came back, and I began taking them, and I soon found they were helping me. My appetite began to improve and my food to digest better. I used the pills for a couple of months and I was well. Now I am always ready for my meals and I can eat anything, and all the credit is due Dr. Williams' Pink Pills. I keep the pills in the house all the time, and I occasionally take a few as a precaution. I can honestly advise all dyspeptics to use this medicine, as I am sure it will cure them as it did me."

As all skirts are made without an attached lining, a petticoat or drop skirt is a necessity. It generally made to harmonize in color with the outer skirt. The upper five-gored part being composed of lining, and the circular flounce of silk, to give the required flare, and a circular piece of ermine is generally used on the lower edge of the flounce, as this is necessary to hold the skirt.

MARRIAGES AT GRETTA GREEN

Famous Customs of a Century Ago Revived on the Scottish Border.

Edinburgh, Oct. 21--The visitor who crosses the Scottish border may still see the house where, in the "good old days," the Gretna Green blacksmith was wont to perform a convenient marriage ceremony for runaway couples anxious to avoid stern parents by being wedded according to Scottish law. Few, however, would have suspected that the custom was being revived so conclusively that marriages are being celebrated at Gretna Green today in practically the same circumstances as 100 years ago.

Rumors to this effect have lately been in circulation in the border district, and a reporter who visited Gretna Green found ready substantiation of them. The "priest" of Gretna Green today is not a blacksmith. By trade he is a joiner, but latterly he has retired from his work and has taken upon himself the more dignified duty of uniting lovers in wedlock. His name is Peter Dixon, an elderly man, with piercing eyes, dark hair and beard, and a stoop in his walk--he might have stepped from the pages of J. M. Barrie or Ian Maclaren.
