

# Figures that Talk!

WE sincerely hope that the tables published in the last three numbers of the *OUTLOOK* have been carefully studied. They contain a positive revelation in regard to missionary finance, and show what might be accomplished if there was an equality in giving, based on ability. To emphasize the figures already published, we submit a classified list of Districts, showing the rank of each in regard to missionary givings. The basis of classification is as follows:

<b>First Rank.</b> —	Districts contributing proportion of \$450,000 and upwards.
<b>Second Rank.</b> —	" " " 400,000 and less than \$450,000
<b>Third Rank.</b> —	" " " 350,000 " 400,000
