

wish of having W. Ashin superseded: for I am no hypocrite in my professions.

What he says on the subject of W. Ashin and D. Richardson going to the Thames as having surprised me is another of his fictions as I well knew they went there to speak to the Ananias about the sale of part of their Township. And as to the articles in the Star I did tell him that some, such as Lincoln would not be issued as they were struck out of the Requisition for the year and that I was informed by one of the Star Keeper General's Department, that article was ordered to be returned to Lower Canada.

The Saukies and Inces now here have told me that five of them intend going below I informed them that they could get no supply of provisions here for their journey the object of it they did not state. They have been served with presents at this Post, the Prophet also and some of the Shurons (altho they have not said it to me) have declared their intention of going to Head Quarters
