

The Youth's Companion in 1904

As the years increase *The Youth's Companion* endeavors to keep pace with them in all that is wise, beautiful and progressive, and not only to retain but to deserve the honorable and exceptionally high place it holds in the confidence and affection of three generations of readers. The greatest living authors in all branches of literature continue to contribute to it.

Among the important series of articles will be one on the occupation of the farmer in many parts of the world—in England, in Ireland, in India, in Argentina, etc.

The annual announcement Number of *The Companion*, describing the principal features of *The Companion's* new volume, will be sent to any address, Free.

The new subscriber for 1904 will receive all the issues of *The Companion* for the remaining weeks of 1903, free from the time of subscription; also *The Companion Calendar* for 1904, lithographed in twelve colors and gold.

THE YOUTH'S COMPANION,
144 Berkeley Street, Boston, Mass.

An Unique Affair

On Wednesday evening last the farmers of the Broadview Boys' Institute, Toronto, held their first annual dinner. The menu was printed on corn husks, and the entire menu consisted of delicious viands prepared from the products grown by the boys on their experimental plots. Delicious soup was made from vegetable oyster. The chicken was of the boys' raising. Even the coffee was made from chicory grown on the plots, and we have tasted much worse even in a high-class restaurant.

The Hon. Mr. Dryden and J. B. Kitchen, manager of Dentonia Park Farm, addressed the boys.

The Razor Steel, Secret Temper Cross-cut Saw

Manufactured only by SHURLY & DIETRICH, Galt, Ont.

We take pleasure in offering to the public a saw manufactured of the finest quality of steel, and a temper which toughens and refines the steel, gives a keener cutting edge and holds it longer than any process known. A saw to cut must hold a keen cutting edge.

This secret process and temper is known and used only by ourselves.

These saws are elliptic ground thin back, requiring less set than any saw now made, perfect taper from tooth to back.

Now, we ask you, when you go to buy a Saw, we ask for the Maple Leaf, Razor Steel, Secret Temper Saw, and if you are told that some other saw is just as good ask your merchant to let you take them both home, and try them and keep the one you like best.

Silver steel is no longer a guarantee of quality, as some of the poorest steel made is now branded silver steel. We have the sole right for the "Razor Steel Brand."

It does not pay to buy a saw for one dollar less, and lose 10 cents per day in labor. Your saw must hold a keen edge to do a large day's work.

Thousands of these saws are shipped to the United States, and sold at a higher price than the best American saws.

Tolton's No. 1 Double ROOT CUTTER

POINTS OF MERIT

1. To change from pulping to slicing is but the work of a moment.
2. There are two separate wheels, one for pulping and the other for slicing.
3. The united force of both wheels is always used in doing the work in either capacity.
4. The hopper is between the wheels, and does not choke.

The Only Double Root Cutter Manufactured.

Fitted with Roller Bearings, Steel Shafting, and all that is latest and best in principle, material and construction.

TOLTON BROS. - GUELPH, ONT.

What the Men who Make it say about The U. S. Separator

The Manufacturer—"From the time we put the U. S. Separator on the market we have endeavored to make it the best possible machine of its kind. No effort has been spared in securing the best material. The particular grade of steel or iron that will best serve the purpose has been purchased. Only the best mechanics are employed, with the latest machinery to help them."

The Mechanic—"Every man who is a true man takes pleasure in turning out good honest work, and every mechanic in the works has reason to be proud of the U. S. Separator. The factory equipment is the best that money

can buy, and the Company frequently throw out good machinery to replace it by new inventions that will do the work quicker and better. This is one reason why they can afford to use the best material and still compete in price with their competitors. Every part of the U. S. Separator is made to scale and is interchangeable. My shop

mates are as fine a set of workmen as are to be found anywhere and the rigid inspection of every part insures against an imperfect part getting out of the workshops."

For Menhubs and the West we transfer our Separators from Chicago and Minneapolis, and for Ontario and the Eastern Provinces from Quebec, Sherbrooke, Montreal and Hamilton.

These are only a few of the reasons why the U. S. Separator has distanced all competitors. There are many thousands of farmers in the United States & Canada who can give you other reasons. Our catalogues give some

write for one.
