# Get the highest-class telephones for your system

**They will give better and longer service.**  
Save maintenance cost. 10 years' guarantee.

THE illustration shows one of our standard type of telephones for rural party line service. Our telephones are the clearest-talking and loudest-ringing telephones on the market.

They are made in Canada, and have many exclusive features — many improvements that add to their efficiency. They are the result of careful study, by our expert engineers, of Canadian telephone requirements. Given the severest tests, and examined part by part, by men of wide experience in telephone construction, they have been pronounced the highest-class, the most efficient, telephones yet constructed.

Your system requires the highest-class telephones that money can buy—telephones that will give the best and longest service—that will save repair expenses—that will cost the least for maintenance—in short, Canadian Independent Telephones.

You may require the services of our staff of qualified telephone engineers to assist in planning construction or solving operating problems. Their wide experience and knowledge are at your service, without cost to you.

Our large investment in the Independent Telephone business makes us directly interested in seeing that every municipal or local company enters the telephone field along the best and safest lines. A failure would injure directly the independent telephone development,

and indirectly our business, so that it is to our benefit to lend our strongest assistance to make every independent telephone company a success.

There are inferior and cheaper telephones on the market, but we are not competing with them for your business. We want your business on the basis of SUPERIOR QUALITY and VALUE.
