

Tolton's No. 5 IS THE BEST Fork and Sling Carrier

12 REASONS WHY IT IS THE BEST:

It is a Malleable Carrier, neatly fitted and positive in action. It is an Automatic Seivel Carrier, and very easy on the rope. It is efficient in handling either Sling or Fork, and no trouble to change it. It is a Triple Purchase Carrier, when so desired. On account of direct action, it takes less power to lift the load than any other. It can be run into the mow at any desired point. It will unlock without any plunger entering the carrier. It has a leverage brake, and is a very durable carrier. The operator can unlock it whenever he wishes. It is very simple in construction, it has no springs to weaken or break. Its simplicity and strength insure certainty of action. Because of merit, we solicit your patronage.

The Railways Look to Permanency

They are the largest users of fencing in the country, and investigate thoroughly the merits of the fence they use. More "Ideal" fencing is being used by the railways this year than any other make, demonstrating its superiority. Investigation has shown that it decreases the cost of maintenance. Farmers who purchase "Ideal" are not experimenting. "Ideal" is made of No. 9 galvanized steel wire throughout. A postal card will bring FREE our Illustrated Catalogue of Fencing and Gates. Write for it to-day.
