

QUESTIONS AND ANSWERS. Miscellaneous.

BARBED-WIRE FENCING.

Is there any law to prohibit a man from putting a barb wire on the top of a wire line fence when the neighbor objects to it? W. D. Ontario.

Ans.—There may be a municipal by-law. See the clerk of your municipality.

WORKING HOURS.

How many hours is a man hired by the year and getting top wages supposed to work in a day? Is he supposed to take his hour at noon? SUBSCRIBER.

Ontario.

Ans.—These are matters to be regulated by agreement between the parties. There is no rule of law governing this question of working hours beyond this, that in the absence of agreement covering same, such hours must be mutually reasonable.

APPORTIONMENT OF TAXES.

A owned a house in town. Had it rented to B. A paying the taxes each year. On the 15th of March last, A sold the house to B. In settling an account, B now wants to charge A with the taxes accruing from the 1st of January of the present year to the time of sale. Can he legally do so, nothing being said about it at the time of sale, and the rate for the present year not being then levied? SUBSCRIBER.

Ontario.

Ans.—Yes.

AN ESTATE MATTER.

1. A dies, leaving farm to C, at B's death. C is married. If C dies before B, who will be heirs?
2. What claim would C's wife have?
3. If she has no claim, could she collect wages for C and herself, they having done all work and business, and paid off all debts on farm? W. D. Ontario.

Ans.—1 and 2. We would require to know the entire contents of the will, and particulars of the family, and have considerable further and other information respecting the facts of the case, in order to answer these questions.

3. She would encounter various and serious difficulties, and we would recommend C and his wife to consult a solicitor personally and now, and have such steps taken as may be necessary to secure or preserve their claims, and also be advised as to their legal position and rights generally in the matter.

TRADE TOPIC.

"EMPIRE PUSH" is the name of a well-edited, snappy little magazine issued every once in a while, at the discretion of the editor, for the purpose of pushing the sale of Empire Cream Separators, and in the interests of the Empire family. Subscription price free to anyone who sends in his name and address. Besides the stimulus it contains, and its interesting news of the trade, it contains considerable information. For instance, the March number's leading article is entitled, "The Evolution of the Cream Separator," by Henning G. Tanbe, President of the Empire Cream Separator Company. At the subscription price of nothing, this little magazine is a rare bargain, and would still be if the price were doubled. Its typed words fairly vibrate with energy, and it should be the means of largely increasing the sales of this popular cream separator. Write William A. Pritchard, Editor and Manager, 1225 Wabash Avenue, Chicago, Ill.

The wife of a literary man of the Indiana school, who had taken up chicken raising as a side issue, was telling of the poor success she had with a brood of eleven chickens. They seemed to be doing all right for a few days, she said, and then, one after another, they all died in the coop.

"What did you feed them?" asked the wife of a farmer neighbor.
"Feed them?" exclaimed the literary man's wife. "I didn't feed them. I thought a healthy young pullet like that should be able to find her own food."

The CAPITAL Is the Cream Separator that will "Buy Itself" For You.

As soon as you have read this advertisement, sit down and write a post card for The Capital book—the book that not only tells the story of the easy-running, cream-saving separator, but that tells how you can put The Capital in your own dairy practically without costing you a cent.

The book also tells all about the wonderful Capital gears, about their perfect meshing and non-wearing qualities—how they run in oil—how an automatic clutch stops them running the minute you let go of the handle—and about how they give the light, three-and-a-half-pound bowl 7,000 revolutions a minute.

It tells how and why The Capital skims closer—why The Capital wastes less than one-fifth the cream that other separators waste—and then explains how the machine can be made sweet and clean in two minutes after you are through using it.

This book is full of hard-and-fast facts—separator facts—which every dairyman owes it to himself to know; facts which will prove a revelation to the dairyman who is not familiar with The Capital.

Write for the book to-day—NOW.

THE NATIONAL MFG. CO., LIMITED.

Head Office: Ottawa.

Factories: Ottawa and Brockville.

Branch Offices:—Regina, Sask.; Edmonton, Alta.; Moncton, N.B.

Make a big profit from every Cow

Do you know what your cows are doing? Do you know which ones are profitable—which ones are eating their heads off? It will pay you to get rid of the robber cows.

The Automatic Milk Scale and The Facile Jr. Babcock Tester

will show you in a short time which cows in your herd are paying a profit.

The Automatic Scale is made especially for weighing milk in the pail. There is a screw when the pail is on the hook. When the pail of milk is placed on the hook, this indicator gives the exact net weight of the milk. It has another indicator that records the same as any spring balance so it can be used for weighing anything up to 30 pounds—larger sizes weigh up to 120 pounds.

The Facile Jr. Babcock Tester is designed especially for use in the dairy and on the farm. It is extremely simple in construction and operation. The working parts consist of but two cut gears and they are enclosed in a cast iron case to keep them free from dirt and to prevent their catching clothing, towels, etc. It turns easily without vibration or jar. It is sent complete with glassware, bottle brush, acid and full directions for use. It will pay you to have this scale and tester whether you milk three or thirty cows.

Our free catalog shows everything for milk dealers and dairymen at lowest prices.

W.A. DRUMMOND & Co.
175 KING STREET E. TORONTO, ONT.

BURNSIDE AYRSHIRES!

Fresh importation just landed in quarantine of 60 head. I have the choicest lot of 12 young bulls I have ever imported. From the best herds in Scotland, such as Auchinbrae, Osborne, Netherhall, Bargenoch, Barr of Hobsland, Mitchell of Lochfergus. All fit for service. A number of cows, 3-year-olds, 2-year-olds, and 20 choice yearling heifers. All are for sale.

R. R. Ness, Howick, Que.

ISALEIGH GRANGE AYRSHIRES!

Our herd were all selected on their ability to produce a heavy yield of milk. We have a number of 40, 45 and 50 lb. cows, imported and Canadian-bred. From them are young bulls and heifers for sale. None better. JAMES BODEN, DANVILLE, QUEBEC, ISALEIGH GRANGE FARM.

CRAIGALEA AYRSHIRES

have won more money the last four years than all competitors combined. They are heavy producers and high testers; records of production given. Stock of both sexes for sale of show-ring form. H. C.
