

# THE MOST IMPORTANT FARM MACHINE

## THE MANURE SPREADER

**Are you Saving Money, or are you Losing it by being without One?**

You believe that money spent for a mowing machine or a binder is well invested. Still you use these machines only a few days in the year.

You use the hay rake, because it saves you time and labor.

These are valuable machines. They are now counted indispensable by most farmers, even though they stand unused over eleven months in the year.

But a manure spreader is a still more valuable machine. Its purpose is to keep up the fertility of the soil. It is the machine you use all seasons, and the one on which the usefulness of all your other farm machines depends.

If you have not already done so, you should consider now the advisability of having an I. H. C. manure spreader on your farm.

You will have choice of two different spreaders in the I. H. C. line—the Cloverleaf, endless apron spreader, and the Corn King, return apron spreader. Each of these spreaders handles the manure in all conditions perfectly and will give you long satisfactory service.

These spreaders are not ordinary. Their frames are made of air dried wood stock. They have serviceable, tractive power producing wheels, beaters that are unsurpassed for tearing the coarsest manure into the smallest pieces and applying it uniformly, aprons that deliver the manure to the beater with the least possible friction and

in a uniform manner. Any one of these machines will, if given proper care, last a lifetime.

The labor of spreading manure is greatly lessened by using one of these I. H. C. spreaders. Not only is the labor lessened, but it is changed into agreeable work.

But the strongest reason for using an I. H. C. spreader is the increased value you get out of the manure. The best authorities agree that manure spread by an I. H. C. spreader has at least double the value of manure spread by hand.

The I. H. C. spreaders pulverize and make the manure fine, and spread it evenly over the ground just as thick or as thin as may be required. The manure is placed upon the ground in a condition that is at once available for plant life. All is washed by the first shower into the soil—none is wasted.

The good effects upon the crop are immediate and the permanent benefit to the land is greater than when the manure is spread by hand. There is no question but that land manured by an I. H. C. manure spreader will give an increased yield of from two to ten bushels per acre over land where manure is spread by hand.

Consider the labor saved, the more agreeable work, the better crops, the more fertile condition of the land—is not an I. H. C. manure spreader the machine you should have?

Are you not losing money instead of saving money by being without one?

Call on the International local agent and investigate one of these machines. He will supply you with catalogs and particulars, or if you prefer write nearest branch house.

## GOSSIP

### NEW CLYDES FOR MANITOBA

The "Scottish Farmer" of March 13th says: "Mr. David Stevenson, Wawanesa, Manitoba, has secured a first-rate collection of eight fillies and three colts (Clydesdales). Five of the fillies were bought from Mr. George Pendreigh, Dalhousie, Bonnybridge, and four of them were got by the celebrated horse Prince Thomas' Pride (12294), while the other was by Baron Evergreen. Two of them are rising three, while the others are two years old, and as a lot they are very evenly balanced and well coloured. From Mr. Wm. Taylor, Park Mains, Renfrew, Mr. Stevenson had the splendid three-year-old horse Sir Fortune (14371), and the capital mare Stewart Tartan (21896), bred in Campbelltown, and got by Sir Hugo, out of a Rosedale mare, whose dam was by Sir Everard. As will be seen, this is first-rate breeding for a mare, and Stewart Tartan will be very useful. Sir Fortune was in the short list for the Glasgow prize, and is a specially well bred horse, his sire being the champion Hiawatha, while his dam, Carmen Sylvia, won several first prizes at Dumbarton and other shows as a yearling. She was got by Prince Thomas, and is a very big mare, with first-rate feet and legs. Sir Fortune was bred by Mr. James Veitch, Summerston, Maryhill, and is a thick, well-balanced horse, with a fine class of bone and first-rate feet and ankles. A colt and a filly were also purchased from Mr. Robert Park, Brunstane, Portobello. The colt Lothair was bred by himself, and is got by his late stud horse Marmion, while his dam was a fine breeding mare by Lord Stuart. The filly, Christobel (22042), was of the same age—a two-year-old—and was also got by Marmion, while she was bred by Mr. Matthew Mather, Silver Knowes, and is out of a Rosario mare. Mr. Wm. Renwick, Meadowfield, Corstorphine, likewise contributed a stallion and a filly to the consignment. The former, Braidie Chief (13381), which stood second at Kilmarnock as a two-year-old, is a particularly nice quality horse, with first-rate feet and legs. His sire, Royal Chief, was a son of Royal Garty, while his dam was by His Royal Highness. This is one of the nicest-boned horses which have been going about for some time. The filly purchased from Mr. Renwick was the three-year-old Daisy Barr, bred by Mr. Andrew Barr, Head-smuir, Carlisle, and got by the splendid breeding horse Earl Angus, while her dam, the Prince of Albion mare Montrose Rosemary, traces back to the famous Moss Rose. She was first at Bathgate last year, and second there the previous year. This is a handsome, big, good filly, and is safe in foal to Hiawatha. It was with reluctance that Mr. Renwick parted with her. Mr. Stevenson and his clients should be highly satisfied with his selection."

Canadian Clydesdale admirers, will be on the look out for this lot at our summer fairs and in the meantime congratulate Mr. Stevenson on getting together so promising a string.

Dear Sir,—

I may say I am a constant reader of your valuable paper, and I think every home on the farm should have it.

I have been much interested in the many questions that have been asked by your subscribers, so I would like to be a benefit to your readers. Hoping that this will be worthy of space in your valuable paper, and oblige.

A SUBSCRIBER.  
Simcoe Co., Ont.

I shall be very glad to hear from our readers on this very important subject—some people, who would like to ask God's blessing on their food, may be glad of a suitable form of words to use.

D. F.

## A Man With Strength!

**A Man  
of Courage!**

No man should be weak, no man should suffer the loss of that vitality which renders life worth living. No man should allow himself to become less than nature intended; no man should suffer when there is at hand a certain cure for his weakness.

Most of the pains, most of the weakness of the stomach, heart, brain and nerves from which men suffer are due to an early loss of Nature's reserve power. You need not suffer from this. You can be restored. The very element which you have lost, you can get back, and you may be as happy as any man that lives.

**A Man  
Among Men!**

You can feel as vigorous as you were before you lost your strength. You can enjoy life again. You can get up in the morning refreshed by sleep, and not more than tired when you go to bed. You can have no weakness in the back, or "come-and-go" pains, no indigestion or constipation. You can know that your strength is not slipping away. You can once more have bright eyes, healthy color in your cheeks, and be confident that what others can do is not impossible to you. In short, do you want to be strong and healthy? We can make you all this, because we have done so for others.

Mr. G. Herman, care of W. Wardrop's Camp, Whitemouth, Man., says: "I am glad to say that my health is much better than before wearing one of your Belts. I should not like to be without one now."

Dr. McLaughlin: Dear Sir: About five years ago I had Rheumatism in my ankles, shoulders, elbows and fingers. I used your Belt, and was cured in about forty days. Your Belt is the best investment I ever made. John Hensworth, Hazelwood, Sask.

My Dr. McLaughlin's Electric Belt will make you strong. It will send the life blood dancing through your veins, you will feel the exhilarating sparks warm your frame, the bright flash will come to the eye and a firm grip to your hand, and you will be able to grasp your fellow man and feel what others are capable of doing is not impossible for you. This grand appliance has brought strength, ambition and happiness to thousands in the past year.

It is the one sure remedy for the cure of Rheumatism, Weak Kidneys, Weak Stomach, Lame Back, Nervousness, General Debility and Weakness in young or old, as well as Dyspepsia, Constipation, etc. How can you remain in doubt as to the value of this grand remedy when you see so many cures.
